

Women Find Gold in Soap Bought From a Peddler

Berlin, Nov. 17.—Eight 20-mark gold pieces were found in as many bars of English soap by two women who bought the soap from a peddler in Berlin. It is believed the money was so concealed by returning German war prisoners and that the soap was stolen from them after they had reached the German frontier.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place. Headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

CAMP CURTIN JUNIOR HIGH SCHOOL NOTES

The Domestic Science Department, Miss Frances Hamilton and Miss Marie Finton, instructors, are meeting enthusiastic classes in the finely equipped Domestic Science Department. Demonstration by the teacher to the class group of the preparation of a new dish, individual preparation by each student at her own desk and co-operative solving of certain problems are the methods chiefly used. Mother's ideas are always welcome in informal discussions, remarked one of the instructors in a recent interview. Eight housekeepers are appointed by the teacher from each cooking class. The terms of service are brief to give each student in her respective group the experiences of all the duties of housekeeping.

In lessons recently observed with Sections 9B9 and 7A4, Housekeeper No. 1, cleaned the gas stove after class with articles specified on the "Housekeeping Bulletin."

Housekeeper No. 2, cleaned the sink and drip boards, emptied the garbage pail, scrubbed and lined it with clean paper.

Housekeeper No. 3, dusted the kitchen, dining table and chairs, cupboards, stools, desks and shelves at the end of the kitchen.

Housekeeper No. 4, saw that each girl was neat and clean and equipped with complete uniform at the beginning of the lesson.

Housekeeper No. 5, inspected the desks at the end of the lesson, saw that the desks were left neat and clean and with full equipment.

Housekeeper No. 6, was responsible for cleanliness and tidiness of the china closet and the linen and silver drawers.

Housekeeper No. 7, was responsible for cleanliness and tidiness of the supply closet.

Housekeeper No. 8, had charge of the refrigerator, of keeping it clean and of economically disposing of left over food.

Every girl attending Camp Curtin has learned the general care of the kitchen and how to prepare these practical and dainty dishes: baked apple with whipped cream, cheese toast, creamed vegetables, creamed soups garnished with croutons. Two hundred receipts are in the filing box which each student receives.

"Hospitality to the teacher and to any chance visitors as guests is part of each lesson," remarked one of the instructors, "and proceed to tell the group, that at the beginning of each period one of the class should extend the invitation to stay to lunch, the self-appointed hostess to prepare the extra dish or dishes to place the best silver and china on the dining table and do the serving."

This training is meant to prepare the girls for the hostess courses that they will take later in senior high school and college," said the instructor.

After "lunch" each student washed the dishes and utensils that she had used in one of the aluminum pans with specified dishwashing articles and according to notebook rules. Then she wiped her desk inside with her scrubbing cloth, and put her dishes away. After rubbing the outside of the desk and scrubbing the top with brush and scrubbing cloth, she scoured the dishpan and put it on the burner for inspection.

She returned the unused supplies to the shelves and to the enamel lined drawers, the articles that she had used in cooking and serving. In Section 9B9, the following girls were housekeepers: No. 1, Harriet Adams; No. 2, Frances Carr; No. 4, Mae Moore; No. 5, Retta Jarrett; No. 6, Edith Hippie; No. 7, Margaret Kulp. Mary Foltz, a ninth-year student, was appointed housekeeper No. 3, and Dorothy Kennedy, Section 9B11, was housekeeper No. 8. Other members of Section 9B9 were Doris Fair, Violet Forsythe, Lillian Kleinman, Rose Kleinman, Henrietta Lebo, Anna Mae Lightner, Ella Newmark, Irene Nisley, Mary Owens, Blanche Robinson, Pauline Shaffer, Sarah Sheesley, Rhoda Smith, Mary Smith, Beatrice Smedley. In Section 7A4, the housekeepers were: No. 1, Blanche Clark; No. 2, Elizabeth Goodyear; No. 4, Helen Gingrich; No. 5, Evelyn Howard; No. 6, Ruby Jamison; No. 7, Helen Martz. Lillian Klicik, from Section 9B1, was housekeeper No. 3 and Julyanna Wierman also from Section 9B1, was housekeeper No. 8.
