

"Civilian Clothes" Is Pleasing Comedy of Lesson Taught in War

"Civilian Clothes," an after-the-war play was seen at the Orpheum last night for one performance. Described as a comedy and written as one, the play lived up to its claim

Mag Rhu Stops Stomach Trouble

Guaranteed to relieve acid stomach, nervous indigestion, heart palpitation, constipation, stomach pains, dizziness, sleeplessness. Dollar refunded if you do not get results.

To Fortify the System Against Grip Take LAXATIVE BROMO QUININE. Tablets which destroy germs, act as Tonic and Laxative, and thus prevent Colds, Grip and Influenza. There is only one "BROMO QUININE." It is W. GROVE'S signature on the box.

even though at times it had a tendency to drag a bit. There seemed too, to be something indefinable which was lacking. The play lingered on the theme which has provided a great deal of amusement—that of being overwhelmed by a uniform only to find that when the wearer changes to civilian clothes, former conceptions were rudely shattered. Briefly the story concerns a young woman of one of the best Southern families, who, while serving as a welfare worker on the front, met a captain, the first man who could command her and make her do what she did not will to do. This was in her case to be sent from the danger zone, and sent to the rear. The incident served as an acquaintance maker which in turn led to their being married. The captain was supposed to have been killed in action, but one fine day he turns up, loudly dressed, uncouth in manner, and more than ever determined to preserve his life's happiness by the re-buffs of his wife. This he accomplishes by taking a place in her home as a butler and at the same time educates his wife in democracy. Of course the officer is discovered, and the play ends with his getting a real position in his profession and of course, too, his wife sees her own snobbishness, and comes back to him, even though she had started an elopement with another man. The situations were most amusing, and the company provided

made the most of them. Masked under its fun, there is a great deal of good common sense in the play, and it is not without its teachings will refer to the class distinction. "Civilian Clothes" is a clever play, well acted, which pleased the house last evening. MAX ROBERTSON.

Young People to Give the "Merry Milkmaids"

Under the directorship of Miss Mary Stewart Blair, the young people of the Division Street chapel of the Pine Street Presbyterian Church will give the "Merry Milkmaids Operetta" in the Boyd Memorial building November 24, and in the Steele school building November 25. The words and libretto of the operetta were written by Charles H. Gabriel. The operetta covers about an hour and a half and the plot, with its stage setting and costumes, makes the production thoroughly attractive, entertaining and pleasing. The cast is composed of thirty-five amateur and professional voices. The cast has been rehearsing for the past two months.

Miss Blair, since her graduation from Wilson College with the degree of bachelor of music, has made a specialty of training voices. She has studied with Carl Faellen at the Carl Faellen Pianoforte School, Boston. Later she studied under Albert Lockwood, head of piano at the University School of Music at Ann Arbor, Mich. Miss Blair also put in one year of study at the New England Conservatory of Music.

Changes Mind About Going Away

"Five years ago doctors told me I would have to move my wife to another climate, as she suffered so with stomach and liver trouble and bloating. Also, that she would have to have an operation for gall stones. Our maid carrier told me of May's Wonderful Remedy and, on his advice, she has taken it and is now as well as ever in her life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. H. C. Kennedy, Clark's 2 drug stores and druggists everywhere.

Artillery Unit to Park Guns in City

Harrisburg will have an opportunity to-morrow to look over some of the guns which did such devastating work among the ranks of the fighting Huns when Captain J. R. Williams will bring a part of the equipment of the Second Battalion, Nineteenth Field Artillery, to this city in the interest of recruiting for this branch. Captain Williams is accompanied by Lieutenant A. V. Winton. Three of the French 75mm. guns, which have been adopted by the War Department for the field artillery of the United States Army, are included with their carriages, on the train which will arrive at 11 o'clock to-morrow. The train will be parked at Fourth and Walnut streets, facing the Technical High school building, and the public is invited to come and look it over.

Colored Men Anxious For New Y. M. C. A. Branch

Plans for a branch of the Y. M. C. A. for colored men, in this city, are being enthusiastically received according to C. Sylvester Jackson, temporary secretary of the Colored Men's committee. As yet a permanent secretary has not been secured, but efforts are being made to obtain one. The meeting held at the temporary headquarters of the colored association at 802 Cowden street on Sunday afternoon was very well attended.

Dr. Hulbert Speaks in Boyd Memorial

Homer B. Hulbert, who had been an adviser to the Emperor of China, and spent years in the Far East, spoke on "Korea and Japan" at the Boyd Memorial building last evening. He told of Japan's situation and then described how the Hawaiian Islands were saved from that empire by a few hours' margin. Speaking of Korea he told of some of the inventions of that country, including movable printing type, the suspension bridge and the first iron-clad man-of-war. Mr. Hulbert said that American trade with China should be protected, saying that friendship with China was much more important than with Japan.

SOCIAL SERVICE BUREAU FORMED

Chamber of Commerce Adds Important Activity With Special Secretary

A new department, to be known as the Social Service Bureau, has been organized by the Harrisburg Chamber of Commerce. Community athletic and social service, generally will be cared for by this department. Mrs. Clarence Ackley Ley, who was musical director of the War Camp Community Service during its existence, has been named to head this new department.

Auditoriums, gymnasiums and facilities of various schools of the city will be employed in the execution of the extensive program now being outlined. Clarence E. Zenger, supervisor of special activities of the Harrisburg school district, is aiding in the work.

The social center committee, of the Chamber of Commerce, chairman, and the Americanization committee, George E. Foss, chairman, are co-operating in the plans for putting into execution the programs of the new department. The program of the new department, as outlined by Chamber of Commerce officials, is:

Plank One—Neighborhood organization, to co-operate in a neighborhood spirit of service through the following agencies: Neighborhood recreation, neighborhood interests, such as housing, health, and sanitation; neighborhood forums, institutes and lectures; neighborhood hospitality, through community centers.

Plank Two—Community music: The purpose would be to develop and enrich to essential unity the city. In the cultivation of the universal language of vocal and instrumental music, as follows: Community music in public places, public parks, schools, etc.; community music in private groups, through stores, factories, churches, conventions, etc.

Plank Three—Social recreation organization: Would enrich, enlarge and initiate community recreation; through folk dancing in schools and community centers; club organizations and leadership with social recreation aims; games for groups in community centers.

Plank Four—Athletic organization: With the object to have the active participation of the greatest number of people in competitive games; develop such competitive groups as football, neighborhood and vocational teams.

Plank Five—Club facilities: To develop clubs in schools, community centers.

Plank Six—Foreign work: Should bring a sympathetic and expert understanding of the psychological and special approaches to the New American.

FRED B. HARRY Hatter and Furrier 17 North Third Street There is no gainsaying the fact that furs add that luxurious touch to the attire which no other mode of apparel renders. And our furs will supply that distinctiveness which is sought by the best dressers. Our fur coats and separate pieces are very moderately priced though the quality is the highest.

ESSEX MOTOR CARS

This Is the Newest All You Have Heard in Praise For the Essex Applies to This Model—Note Its Wide Utility Essex Favorite

This is the latest Essex to win its way with that large motoring class that now realize the advantage of light weight and sturdy, durable construction.

Heretofore roadsters were available in two distinct classes only. One was the light car, attractive principally for its low price and operating cost. The other large, heavy and costly. An impressive car because of its size, comfortable, durable and exclusive because so few could afford a two-seater, that in all essential respects is as expensive to operate as a seven passenger.

But those who wanted an economical reliable car who wanted comfort, performance and a car they could be proud to own had no other choice.

But Now Essex Fills the Bill

It, like the touring model, makes its appeal in all the most wanted qualities. It is light in weight, but is also durable and comfortable to ride in.

It has performance that makes it a leader in any group of fast traveling cars. Essex owners are never distanced if they want to lead.

The lines are attractive. The durability is of the standard established by more than 18,000 Essex cars now in service.

Makes Ideal Business Car

Many business houses use Essex roadsters. They paid perhaps less attention to its appearance than to its endurance. They were not so

much interested in its speed as its freedom from mechanical care. Their salesmen have not the time for roadside tinkering. Appointments must be kept. Traveling schedules must not be interrupted, and the driver must not be wearied by riding, driving delays or attention to the car.

They chose the roadster because of what others have said in its praise. They heard the same good thing said for it that you hear. Surely no car ever had more enthusiastic friends. Thirty million dollars paid by individual users mark the confidence all have for Essex.

Roadster Has Large Carrying Space

Suit and sample cases can be carried unseen under the rear deck. Provision is made for such large articles as trunks.

Inspectors, salesmen and professional men particularly like the Essex. It meets their wants in performance and reliability. It gratifies their taste in looks. They like its rattle proof construction. They like the way it retains its newness.

And of course they like the car that takes no back position for even the most powerful and fastest cars.

The ease with which the Essex can be driven, its short length permitting parking in spaces too small for most cars, and its good looks are marks of advantage you hear everyone talking about.

The Essex roadster is as distinctive in its advantages as the touring and sedan models. No buyer will go far wrong if his car selection is based on what owners say for it. And what car enjoys such endorsement as the Essex?

EDISON JUNIOR HIGH SCHOOL NOTES

The Edison Community is much pleased with the way their teams came through Saturday's contests. While both victories were the result of bitterly contested games, the boys luckily came through without injury. This week will see Jones back on the line at his old place. He will doubtless add to the strength of the outfit. The football practices now resolve themselves into a campaign of preparations for the Camp Curtin game to be played on the island Wednesday afternoon, November 26th. Tickets for this event will be placed on sale at the school in a day or two. Everything indicates that this game will be one of the most bitterly contested games of the local season.

The boys of Edison feel that the brush with Mechanicsburg next Saturday will only be an incident in their endeavor to land the junior championship title for the city. This will not prevent them from putting forth every effort to show the Mechanicsburg boys an interesting time in next Saturday's event.

Coach Miller put the boys through a light practice last evening, and found that they were in good form. The hardest practice of the week will be held next Wednesday afternoon.

The management of athletics took steps toward organizing a basketball season at Edison. Managers and assistant managers will be elected for both the boys' and the girls' teams sometime this week. Cheer leaders will also be elected some day soon. These two elections will interest the students very much. Orders for outfits for the boys' basketball team were placed yesterday. No time will be lost after the close of the football season, but basketball will immediately become the center of athletic interest at Edison.

The first lunch was served in the cafeteria yesterday noon. Only sandwiches, cocoa and ice cream were served yesterday, but as soon as the lunch room is organized, soups and more substantial varieties of food will be served. The management of the lunch room is the same as that of the other schools of the city where cafeterias are found. The same policy as is found elsewhere in the city, of selling food at cost plus the cost of preparation and serving will be adhered to at Edison. The cost of service will not be high for this work will be largely done by students. Who are allowed a small credit toward their lunches for the work they do. These students will serve for a short period when others will be given a chance to serve.

The boys of the Wireless Club are setting a very fast pace for the members of the other clubs to follow. It looks as if they will be in fine working order before the other clubs even begin to organize. They have lost no time, but are already making ready to string antennae, and will likely have it accomplished in a few days. Some of the members have done advanced work on wireless telephony. This promises to be a real buzzing organization.

ELECTION HEARING AGAIN CONTINUED

Because five witnesses in the case against the election board of Second Ward, Sixth precinct, had not been served with a notice to be present last night at a hearing in Judge Murray's office, the magistrate continued the case until Thursday evening.

Last night eleven more witnesses said they voted for carriers for the Republican nomination for City Treasurer, making a total of sixty who testified they voted for Weber. The board is alleged to have returned only 56 votes for Weber.
