

### LOCAL MEN TO ATTEND MEET

#### Educators of City Will Speak at State Association Sessions

Officials from State departments and educators of the city and vicinity are listed among the speakers for the seventeenth annual meeting of the Pennsylvania State Educational Association to be held in Philadelphia, December 29, 30 and 31 next.

F. F. Dunning, city superintendent, will speak on "The Crisis" at the general sessions, December 30, in the Central school auditorium in Broad and Green streets, and on "The State Superintendent of Public Instruction," at the general sessions. He will also make an address at the meeting of county superintendents, December 29, and at the meeting of the department of school patrons on December 29.

Prof. William E. Hardsorode, supervisor of music in this city, will have charge of the musical program for the annual meeting. He is president of the department of music of the State association.

Prof. L. E. McGinness, superintendent of the Steelton school district, will speak on "How to Secure a Better Preparation of the Teachers in the Fundamental Studies," at the meeting of city and borough superintendents, December 31. H. E. Todd, supervisor of industrial education in the city school district, will speak on "Manual Arts for the Junior High School," before the mechanic arts department, December 31.

Mrs. Anna Green, State supervisor of household arts, will speak on "Hints, Hints and Questions" before the household arts department, December 31.

At the continuation school department meeting, December 31, Claire M. Snyder, supervisor of continuation schools in Pennsylvania, will speak on "The Growth of the Continuation Schools."

Before the department of music, December 30, Prof. Walter E. Severance, principal of the Harrisburg Central High School, will speak on "The Musical Training of a High School Student Should Receive," and Dr. J. George Becht, first deputy

State Superintendent of Public Instruction, will speak on "The Amount of Time That Should be Devoted to the Child's Emotional Training."

W. K. Krockston, of the State Department of Health, will speak on "Physical Education Needs of Rural Communities," December 29 at a joint meeting of the child hygiene round table and the State Physical Education Conference.

Many prominent educators from all parts of the Nation will be present at the sessions to speak on public school topics. Preliminary programs of the meeting are being sent to county teachers by Prof. Frank E. Shambaugh, county school superintendent.

### Baseball Commissioners Discuss Series Money

*By Associated Press.*

New York, Nov. 19.—Failure of the National Baseball Commission to award third-place money in the last world series to the New York Americans was the subject of discussion at a special meeting of the directors of the American League here today. The meeting was called by the majority directors—Jacob Ruppert, of New York; Harry Frazee, of Boston, and Charles Comiskey, of Chicago.

The New York club was officially awarded third place at a recent special meeting of the directors and a resolution was adopted authorizing the National Commission to pay the Yankees their share of the series proceeds. Detroit, however, protested against the award, claiming that the games in which Carl Mays pitched should not be counted in New York's standing.

### C. O. C. APPOINTS PUBLICITY COMMITTEE

Seven members are included on the publicity committee of the Harrisburg Chamber of Commerce, named for the ensuing year. C. L. Shepley is chairman. Other members are V. H. Berghaus, Jr., W. H. Fetter, Gus M. Steinmetz, Dean Hoffman, Harry Lowengard and Frederick E. Rowe.

### ADAMS LUTHERANS MEET

Gettysburg, Pa., Nov. 19.—A mass meeting of the Lutheran men of Adams county was held in the St. James Lutheran Church of this place last evening. The Rev. Dr. Charles L. Fry, of Philadelphia, was the speaker.

### MANY HEAR SCIENTIST TALK

#### Large Audience Listens to Paul Stark Seeley, of Portland, Ore.

Paul Stark Seeley, of Portland, Ore., member of the Board of Lecturers of the Mother Church, the First Church of Christ, Scientist, in Boston, lectured on the subject of "Christian Science to a large audience last evening in the Technical High School Auditorium. Mr. Seeley was introduced by A. Carson Stamm, First Reader of the local Christian Science Church. Mr. Seeley said in part:

**Mortal Man Repudiated**

"Perhaps some of you were taught as children that man was first made from the dust of the ground, others may believe in the theory of material evolution, man evolved from molecule and monkey up to his present estate. If you have accepted either of these theories have you stopped to consider where wisdom, intelligence, kindness, charity and love come from? Though you may be satisfied with the theory of evolution as an explanation of this material matter termed a body, that explanation gives no satisfaction as to the origin of the things which even today the world honors the most, namely the mental and spiritual qualities of man.

"Isaiah sought to turn the thought of his people away from this erroneous mortal concept of man with the admonition, 'Cease ye from man, whose breath is in his nostrils: for wherein is he to be accounted of?' (Isaiah 2:22). In other words, stop thinking of the mortal, material creature of man as the true man, for there is absolutely no way to account for him as a creature of God.

**Reality and Unreality**

"Only that is regarded as real in Christian Science which can be attributed to God, for since He is the only real cause there can be no real effect from any other cause. Judged from this standard one can see why it is that all evil, discord, sin, and disease are regarded by Christian Science to be unreal. They have no relation with God or His perfect creation. The effort of all mankind to be rid of evil shows that we instinctively repudiate it as our thought as being unnatural and so in the last analysis unreal. Christian Science does not say that sin, sickness and discord are not very real to the material sense, but it does say that judged in the light of the spiritual sense of being which overrules and transcends material sense they are seen as false claims about true life and existence.

"If, then, evil is not real, what is it you may ask? It is false belief. As for every fact you may suppose its opposite, the lie about it, so the sun of evil is the lie about God, universal good. It is a bastard lie and ceases to have any recognition or place when the truth is realized. Jesus made this plain when he spoke of evil as a liar in which there is no truth and pointed the way to man's liberation from it in the well-known statement, 'Ye shall know the truth, and the truth shall make you free.'

This brief statement summarizes the whole process of Christian Science practice and is the law that defines the line of march for all human progress.

"Consider if you will the concept of autocracy as old as the human species. There is not much question about that having been cast on the mental scrap heap, at least so far as its aggressive political phases are concerned.

"We have awakened to its unreality. So every one of us must mentally awaken to the unreality of every evil concept, all sin and disease, and cast it out of our consciousness, and all for the very best of reasons. Not one of these concepts is of God. Do you suppose that God is any more on the side of a cancer or influenza or a sinful appetite than He is on the side of the liquor traffic or the rule of autocracy? Men have discerned in some measure their right and ability to resist and overthrow the false claims of evil to rule them politically. They are beginning to see their greater right and ability to resist and overthrow the attempts of evil to rule them bodily and mentally.

"Clara Barton, founder of the American Red Cross, wrote of Mary Baker Eddy, the Discoverer and Founder of Christian Science, with profound admiration. 'Love,' she says, 'permeates all the teachings of this great woman—so great, I believe, that at this perspective we can scarcely realize how great—and looking into her life history we see nothing but self-sacrifice and selflessness. Mrs. Eddy should have the respect, admiration and love of the whole Nation, for she is its greatest woman.'

### Glass May Take Up Senator December 1

Washington, Nov. 19.—The formal resignation of Carter Glass as Secretary of the Treasury, together with a letter from President Wilson, urging him to accept the appointment as United States senator from Virginia, was made public by the Treasury. There was no intimation as to when Mr. Glass would leave the Treasury, but it was understood he probably would not begin his duties as senator until the opening of the next session of Congress, December 1.

In advising the President of the tender from Governor Davis, of Virginia, Mr. Glass said he regarded the appointment as a mark of confidence but that he felt his first duties were to the Administration.

### Church Guilty of Sin, Is Pastor's View

Kansas City, Kan., Nov. 19.—Can such a holy institution as the church commit a sin, was the question asked of his congregation by Dr. J. B. Robertson. He answered the question in the affirmative.

"All sins are not those of commission," the Rev. Dr. Robertson continued, "and the church in the past has been guilty of many sins of omission in failing to meet the needs of mankind."

### German Navy League to Be Rechristened

Berlin, Nov. 19.—The German Navy League is to be rechristened the 'German Sea League' and is to work "for the development of the German mercantile marine and the resumption of German maritime trade and shipping."

### TO HELP MAKE THE WORLD DRY

#### National W. C. T. U. Contributes \$60,000 a Year For Five Years

St. Louis, Nov. 19.—Sixty thousand dollars a year for the next five years was allotted by the National Women's Christian Temperance Union in convention here to be used for the purpose of world-wide prohibition.

An allotment of \$33,500 of this \$60,000 was to be to the work in South America. Eleven thousand dollars was allotted to work in India, \$9,300 for Ceylon, \$875 for Japan and the remaining \$8,325 remains to be apportioned.

None of the \$1,000,000 which was apportioned to-day was assigned to promotion of legislation looking toward the prohibition of tobacco.

According to Miss Hardy K. Norville, delegate of the World Christian Temperance Union, with headquarters at Buenos Aires, scientific instruction in schools is the

### TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

method by which the Women's Christian Temperance Union hopes to make South America dry.

"On the alcohol map of the world South America is the blackest," said Miss Norville. "There are fewer restrictions against the liquor traffic there than in any other civilized part of the globe and now it is becoming the dumping ground for the liquor interests which have been driven out of the United States."

### SHOOTS LARGE DUCK

Marietta, Pa., Nov. 19.—Reuben Fahringer, of Marietta, shot the largest duck, a Canvasback, ever seen in this section. It weighed seven and one-half pounds dressed.

### Admit Jersey Banks in Federal Reserve Board

New York, Nov. 18.—Two more New Jersey State banks, the Elizabethport Banking Company of Elizabethport, and the East Orange Bank of East Orange, have been admitted into the Federal Reserve Board. Both banks increased their capital to become eligible.

"That part of New Jersey which is in the Second Federal Reserve district," a statement said, "now has more state bank members as compared with the total number eligible,

than any state in the Union except two. Its percentage is higher than that of any entire Federal reserve district."

### Sweet Sleep Blessed Sleep Every Night

**IF YOU FOLLOW THIS ADVICE:**

The sedentary habits to which most girls and women were addicted before the war, with tight corsets, waistsbands, and lack of exercise in the out-door air, brought about intestinal sluggishness. If a girl's appearance is pallid and eyes dull, movements languid, perhaps pimples on a sallow skin, dark circles under eyes and fetid breath—she should be advised to keep her system clean. Don't allow food to ferment in the intestines, thus giving the body a chance to absorb poisons! Anything from a headache to a most serious nervous breakdown may result from constipation. If you can't sleep nights, if your head feels dull and thick, it may be due, and probably is, to auto-intoxication. This is the time to heed the warning and do not hesitate to take castor oil—or that well-known, tiny pellet, made up of May-apple, aloe and jalap, and sold by every druggist in the land as Dr. Pierce's Pleasant Pellets. An occasional dose of these vegetable pellets—at least once a week—will keep the bowels clear, the eyes bright, the skin clear, and you can sleep throughout the night. Next morning you feel fresh, strong and happy.

Before an insurance company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as the specialists at Doctor Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send 10 cents for sample package of the new discovery, "Anuric" (anti-uric-acid). Write your symptoms and send a sample of urine for test. Experience proves that "Anuric" is a most potent agent in dissolving uric acid, as hot coffee melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them—being many times more active than lithia.

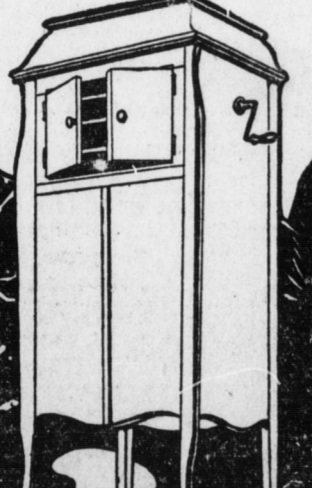

Ask the druggist for "Anuric" (anti-uric-acid) put up by Doctor Pierce, in sixty-cent packages.

Order Your **Christmas Victrola** At Once

This year the shortage of Victrolas makes it imperative to get your order in early because the demand is far greater than the supply. Place your order now for immediate or Christmas delivery.

### Martens Protests Treatment at Hands of N. Y. Committee

New York, Nov. 19.—Ludwig C. A. K. Martens, "Soviet ambassador to the United States," telegraphed to Secretary of State Lansing protesting against his treatment at the hands of the New York state's legislative committee investigating radical activities here.

Martens complained that the rules of international courtesy had been broken in his arrest, and charged that "indecent" efforts to pervert his statements had been made. He denied that he was engaged in an attempt to bring about the overthrow of the United States Government. This followed a declaration by Deputy Attorney General Berger earlier in the day that he believed Martens was "really disseminating propaganda here for the overthrow of organized government wherever found."

### Receivership Plan For Operating Mines Remains in Doubt

Pittsburgh, Kans., Nov. 19.—Unwillingness to serve as receivers for Kansas coal mines taken over by the state under receivership orders issued by the Kansas Supreme Court, was expressed yesterday by two of the three receivers appointed.

That, coupled with the refusal during the day of August Dorchy, vice-president of the Kansas mine unions to meet Governor Henry J. Allen and discuss the situation, left in doubt the success or failure of the receivership plan by which state officials had hoped mining operations would be resumed immediately.

Dorchy based his refusal to meet the Governor on the ground that he had no authority to discuss the return to work of the men.

# The Power to Cure the Ills of the World

This power is in the possession of the Church!

Why does she not use it more effectively?

Mass Meeting---Next Friday Evening,  
Ball-Room, Penn-Harris Hotel  
at 8 P. M.

### SPEAKERS:---

- The Rt. Rev. Henry St. George
- The Rev. William A. R. Goodwin, D. D., Rector St. Paul's, Rochester, N. Y.
- Tucker, D. D., Bishop of Kyoto.

All Are Welcome---Come! No Admission Charge
