E. J. STACKPOLE President and Editor-in-Chief F. R. OYSTER, Business Manager GUS. M. STEINMETZ, Managing Editor A. R. MICHENER, Circulation Manager J.IP. McCULLOUGH, BOYD M. OGLESBY, F. R. OYSTER,

THURSDAY, NOVEMBER 20, 1919

HOW YONKERS DID IT shevist meeting by singing the Wherever business men and em"Star-Spangled Banner" in the face of Rose Pastor Stokes, the anhas been told in the dispatches from exact methods used are set forth for the first time in a letter from Francis Theodore Brown, who set up the "back-fire" on the parlor Bolshevists, to the New York Tribune.

Mr. Brown and his companions did not disturb or interrupt the millionaire anarchist; they just let her rave until she ran down for lack of breath and permitted herself to be questioned, which Mr. Brown did, to use his own language, as follows, with the results as he describes them:

"Why do you, Mrs. Stokes, assume that your knowledge and judgment regarding Bolshevism are superior to John Spargo's, whose analysis of that revolution as a ruthless seizure of power by an armed minority—an inverted tyranny and utterly undemocratic—must appeal, it seems to me, to any unbiased mind as true and unanswerable?" She replied: "I have not mentioned Mr. Spargo this evening, but I do not agree with hims. I do not agree with hims. I do not agree.

with far greater socializing of privilege than at present. But your injunction of this foreign nomenclature, your constant talk of the 'bourgeois,' the 'proletariat' and the rest, your deliberate fostering of the class consciousness and class antagonism which these terms suggest, is an impertinence in this democracy. We are all Americans here, and please God we are going to work out these problems of a juster order progressively and together."

I was interrupted here by cheers; some one called for three cheers for the Constitution of the United States, which were given with a will, and the "Communist" meeting ended with a heartfelt and prayerful singing of "The Ar-Spangled Banner."

We congratulate Mr. Brown and

We congratulate Mr. Brown and direction. the people of Yonkers. That is the way to meet Bolshevism-with 100 per cent. Americanism. If you know of a gathering of radicals, take a fair-sized group of good citizens and harangue and then sing them out of the hall with "The Star-Sangled Banner." No Bolshevist in the world can stand up before an aroused American audience, either those of the notoriety-seeking Mrs. Stokes type, who lives off the fat of the land and spends money she in no way helped to earn, or those who are as sincere in their beliefs as they are mistaken in their attitude toward the problems of the day. All of them can be sung into silence by any liberty-loving crowd that packs the halls where they would speak.

The community service being established in this city through the coordination of special school activities the Park Department and the Chamber of Commerce aid and support is certain to appeal to our people Bringing all classes of the community into harmonious relations for pending the settlements now under the furtherance of the general wel-fits the miners may receive. fare is certainly a laudable and proper movement. Through it will come larger contentment and a better attitude toward things which are vital in any community.

after he had retired from the position.

Gettysburg's voters will be asked at a special election, to be held in January, to authorize two new bond issues, one for \$20,000 for street improvements, and the other for \$20,000 for the erection of a municipal light plant and the building of the necessary lines for street lighting. This action was taken at a special meeting of the town council which authorized the ordinance committee to present the necessary measures at an adjourned meeting to be held in a few days. One of the smallest worries is that

Politics in Pennsylvania

dle Pennsylvania districts will candidates for renomination at the

Ich, will have the fight of his life if he runs again. The Republicans will likely run A. W. Duy, the Columbia county leader.

Congressman W. W. Griest, of Lancaster, Thomas S. Butler, of Chester-Delaware, and H. Watson, of Montgomery-Bucks, are regarded as probable candidates. In the Williamsport district friends of Congressman Edgar S. Kiess say that he will be renominated. The same is said about Congressman E. J. Jones, of the Centre-Clearfield-Cameron-McKean district.

[From Philædelphia Inquirer]
How marvelously science responds to any new demand? Consider, for example, the case of the chillioscope—an instrument for detecting the presence of alcohol. Plunge it is into any liquid and it will register the alcoholic content as infallibly as the thermometer registers temperature. That the inventor lives in Kansas is a beautifully appropriate act. One of the earliest and dryest of Saharas, that State now comes to the rescue of its unaccustomed sisters.

The operation of the chillioscope will be followed with interest—in some cases with painful interest. Congress having fixed the limit of alcohol cohtent in a truly nomintoxicating beverage at one-half of one per cent, any that does not meet

Evening Chat

In view of the movement now under way among the lovers of that section of Pennsylvania known as "up-State" to get the people living in Philadelphia and Pittsburgh to-realize the beauties of fheir Commonwealth, it is interesting to recall that a number of Harrisburg folks have finished some automobile trips through Dauphin county and one or two of them have said very frankly that they got the inspiration for their tours from reading this column. In the last few years there have been some residents of our county who have been endeavoring to interest the thousands of persons owning automobiles hereabouts, to get acquainted with Dauphin county hills and valleys, ridges and streams, having noticed that there are quite a few people more familiar with the price of chicken and waffles in the Cumberland valley, and ways of frying catfish in Lancaster county, than with the splendid scenery to be seen from the hills back of Hallfax, Similarly, there are men and women who know Gettysburg like a book and who are ignorant of the Interesting history of Middletown and of how close it came to being the county seat of Dauphin and possibly, remotely so, of the capital of Pennsylvania. There are some Harrisburg people who are greatly interested in the garden farms of Lancaster and Cumberland counties, but who have people who are greatly interested in the garden farms of Lancaster and Cumberland counties, but who have only whizzed by the splendid collection of farms that M. S. Hershey has acquired in the vicinity of his chocolate plant, which is as essentially a Dauphin county industry as the Bethlehem steel works or the Lykens valley coal mines. To all intents and purposes the fine scenery of the Susquehanna above Rockville Gap is little known to others who talk much of Niagara and the White Mountains, while the trip down the river to Mc-Call's Ferry is a sealed book.

In Philadelphia, recently, Judge A.

Call's Ferry is a sealed book.

In Philadelphia, recently, Judge A.
W. Johnson, of Union county, who was born up the river, made a speech on Pennsylvania, which attracted much attention and started Quaker City people to reading the books of Colonel Henry W. Shoemaker, John T. Faris and others who have been endeavoring to arouse the Pennsylvanian of to-day to the beauties of their State, which were written down by the enthusiastic travelers from overseas a century aso. Judge Johnson knows the history and the beauties of the Susquehanna valley and he made bold to tell the Philadelphian they were missing something.
