

BRITISH SILENT ON THE SENATE'S TREATY ACTION

Believe Americans Regard the Question as a Domestic One, Not Political

By Associated Press. London Nov. 21.—Nearly all British public men are silent concerning the United States Senate's dealings with the Peace Treaty.

Lord Robert Cecil and Lieutenant General Jan Christian Smuts, were the British sponsors for the League of Nations and are largely responsible for the details thereof, and both have registered their disappointment at the latest turn of events.

It would be impossible to try to summarize public opinion. The first view reflected by the newspapers was that America had gone back on her agreement. Later advices from Washington, however, softened this feeling.

A question much debated is whether it will be possible to carry on the league without America, how far American example would influence other nations which have not yet committed themselves, to keep out of the league, and whether the South American governments would follow the lead of the United States.

Farmers Disclaim Responsibility for the High Living Costs

Grand Rapids, Mich., Nov. 21.—A reduction of trans-Atlantic freight rates on wheat was demanded in a resolution adopted by the National Grange in convention here.

Other resolutions presented by the transportation committee and adopted by the convention, oppose a government owned merchant marine and advocate immediate return of railroads to their owners.

The Grange also registered its disapproval of the Plumb plan of railroad operation.

All responsibility for high living costs was disclaimed by the farmers in a resolution depicting efforts of industrial workers to shorten the daily hours of work and at the same time obtain increased wages.

Burglars Passing Up Jewelry and Valuables For Wine and Whisky

New York, Nov. 21.—Thefts of liquor have been so numerous that many of the largest insurance companies here have decided not to issue any more specific liquor policies, it was learned to-day.

Since the prohibition law has been in effect, reports to some companies show that burglars have ignored jewelry, cut glass and fine linen in preference to wine, brandy and whisky.

Another phase of the problem was presented by one company official who said "we must be satisfied that the liquor was stolen and not consumed at a party or by employees in the household of the man who makes a claim for compensation."

Claims for losses also have been inflated, officials said, and a case was cited of one policyholder who claimed \$125 for ten bottles of whisky stolen from his home.

Thin Persons Outlive Fat Ones, Expert Says

Chicago, Nov. 21.—In an address before the American Institute of Actuaries, H. W. Butholp, Indianapolis, who has devoted years to the study of life insurance, made these observations:

That thin persons live longer than fat persons. That the moderate use of alcoholic beverages is not likely to lessen life. That the Middle West is the most healthful locality of the United States.

That the extreme South is the most unhealthy section of the United States.

Don't Let That Rheumatism Get You This Winter

The pain and misery of those awful Rheumatic attacks will again come suddenly upon you unless you are careful. Don't overlook the fact that it is uric acid in the blood that causes Rheumatism.

Get a thoroughly good blood food, one that provides strength to the system and take it now, a blood food like Novo-San that enriches the blood and strengthens the kidneys so they can filter out of your system the poison uric acid.

JENKINS, IN JAIL, TALKS TO U. S. OFFICIAL

Secretary of American Embassy Keeping Tabs on Mexican Affront

Mexico City, Nov. 21.—William O. Jenkins, the American consular agent at Puebla, spent Thursday in the penitentiary, where he held a long conference with Matthew E. Hanna, secretary of the American Embassy in Mexico.

The American embassy here announced last night that the State Department's note of warning to Mexico had not been received up to a late hour. It was said, however, that embassy officials had been in conference with the Mexican foreign relations department several times during the week concerning the case of Mr. Jenkins.

Mexico Is Worried. Washington, Nov. 21.—Warning that further molestation of William O. Jenkins, United States consular agent at Puebla, by Mexican officials will seriously affect the relations between the United States and Mexico for which the government of Mexico must assume sole responsibility, is on its way to the Mexican government to-day.

The State Department, quoting the note sent through the embassy at Mexico City, said the United States Government was "surprised and incensed" on learning of the imprisonment of the consular agent for alleged complicity in his own abduction recently. Jenkins' immediate release is called for and his rearrest characterized as absolutely arbitrary and unwarranted.

Grocers Want Red Tape of U. S. Lifted

Atlantic City, N. J., Nov. 21.—"Capital is no more entitled to a complete domination over society under a democratic form of government than is labor," said President William L. Sweet, of New York, in his address at the opening of the eleventh annual convention of the American Specialty Manufacturers' Association in the Hotel Traymore, attended by 125 members and 100 associate members of the auxiliary association.

Mr. Sweet argued against the frequent trade recommendation that it is inadvisable to lay in heavy stocks because prices may decline. It is fallacious, "I am led to believe that there is no immediate prospect of reductions in cost. Conditions do not justify such recession. He urged that the organization record its opinion that all government control of business be eliminated, as such restraints as have been imposed are harmful. He also declared that the way to bring about lower prices was increased production.

New Arrests Made in Clearing Up the Thefts of Bonds

New York, Nov. 21.—Two more arrests were made last night in the campaign of the district attorney's office to clear up thefts in the financial district of bonds and stock certificates having an estimated value of \$1,000,000. Total arrests now number seven.

Samuel Marder, who said he is a stock broker, is held on two counts for grand larceny and Herman Horowitz, who, the police say, was arrested on evidence obtained from Marder, is charged with having acted in concert in the larceny of a stock certificate for 100 shares of American Hide and Leather Company stock.

This charge also is lodged against Marder and in addition he is accused of the theft of securities valued at \$25,000.

STEEL MILLS FACE COAL FAMINE

Manufacturers Express Concern Over Future of the Trade

Pittsburgh, Nov. 21.—Steel manufacturers, the first time since the coal strike was called, express concern over the immediate future of the steel trade if the mines in this district were not soon reopened.

They pointed out that about 52 per cent of the bituminous coal mined in the Central competitive field came from the Western and Central Pennsylvania fields, much of which is used in steel mills and furnaces about Pittsburgh. The consumption of coal by the average large steel company is fully 10,000 tons a day.

ence, Mass., his next scheduled stop. The attitude of Louisville citizens, as indicated in resolutions of criticism passed by several organizations, was communicated to C. J. Foley, Kreiser's manager by the mayor who followed it with a written communication requesting Foley to indefinitely postpone the concert.

Kreiser Goes to Mass., After Dropping Louisville Program

Louisville, Ky., Nov. 21.—Fritz Kreiser, violinist, and one time Austrian army officer, officially advised of widespread hostility to his proposed appearance here in recital, to-day is speeding toward Lawrence, Mass.

Dr. Werder, Surgeon, Dies in Pittsburgh

Pittsburgh, Nov. 21.—Dr. Xavier Oswald Werder, well known throughout the eastern section of the United States as a surgeon and a writer of medical literature, died at his home here yesterday, after a short illness. He was born in Switzerland in 1857 and was one of the founders of the American College of Surgeons. Dr. Werder received his education in schools and colleges of Pittsburgh, Maryland, New York and several foreign countries.

DAYLIGHT SAVING ENDOSED. New Haven, Conn., Nov. 21.—Re-enacting of a national daylight-saving law was favored by the Connecticut Chamber of Commerce, in a resolution which, among others, was adopted yesterday afternoon at the closing session of the annual convention.

Golf All Winter in The Southland

They're golfing now in Georgia and the Carolinas and visiting players are extended a cordial welcome to play the splendidly conditioned courses. Clear skies, health-giving air.
