# NO DECISION ON PROHIBITION **BEFORE DEC. 8**

treaty at the extraordinary session was regarded by many administration officials of precluding the ending of the technical state of war much before the constitution prohibition amendment became effective next January 16.

Should such prove the case, the only possibility of a "wet" Christmas would be for the Supreme Court to declare the war-time act unconstitutional.

# accept affirmatively all the Senate's qualifications. Everything indicated that the administration had no intention of letting the Treaty fight lapse, even during the interval before December 1, and that there was no thought of abandoning the Treaty and negotiating a new one. The leaders are mindful that some of the senators most bitterly opposing the Treaty openly have expressed hope that the Senate will not act until the people have spoken in next year's campaign. Senator Borah, Republican. Idaho, has announced in the Senate on two occasions that unless his party declares against the Treaty he will part company with it. RuRumania Must Sign Austrian Treaty or Split From Allies

Paris. Nov. 21.—The note sent by the Supreme Council to Rumania last Saturday, after praising the services rendered by Rumania dur-ing the war, recalls the difficulties which arose at the signing of the treaty of St. Germain, according to a Berne dispatch to the Presse De Paris.

up a new set of compromise reserva-tions which he has not made public but which are understood to propose principally a modification of the pre-

mble requirement in the Foreign telations Committee draft which rould require the other powers to ccept affirmatively all the Senate's

Paris.

The communication adds that, in view of Rumania's unyielding attitude on the decisions of the council, the latter is at a loss to know whether Rumania really desires to follow the allied policy. If it is her intention to follow this policy, the note says, the council requests that she sign the Austrian treaty immediately; otherwise, Rumania will be considered as having withdrawn voluntarily from the alliance.

# Remaining Powers to Carry Treaty Into Effect, British Leader Declares

London, Nov. 21 .- The inability of London, Nov. 21.—The manning of the United States representative at Paris to deposit President Wilson's ratification of the German Treaty at the same time those of other powers are filed will not prevent the remain-ing Allied and Associated powers from proceeding to carry the Treaty into effect," said Andrew Bonar Law, gov-ernment leader in the House of Com-

Treaty as a result of the American Senate's action.

In answer to a question from Sir Denald Mackin, Mr. Bonar Law said:

"Without doubt there will be no slackening in the determination of Great Britain to do all in her power to take the lead in reeing that the League of Nations becomes an effective instrument of auman progress. I think it would be a mistake to assume that all possibility of help from the United States is g ne."

Referring to the possibility of an alteration in the date of formal ratification of the Treaty (which has been tentatively fixed for December 1), Mr. Bonar Law said:

"That must depend upon whether there is a possibility of a change in the view of the Senate at its meeting in December."

Asked whether the action of the United States would affect the Anglo-Prench-American Treaty.

Asked whether the action of the United States would affect the Anglo-French-American Treaty, the government leader declared:
"Our undertaking in that Treaty, which so far has been unratified by United States, was contingent upon its also being carried by the United States. Another situation might create a new condition of affairs."

# Bryce Believes Peace Conference Has Made Many Grave Errors

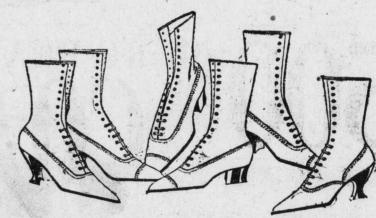

London, Nov. 21.—Viscount Bryce, speaking on "the League of Nations" at a dinner recently, turned to the Peace Conference and asserted that after making all allowances for it, he was bound to say he thought the Paris Conference had committed very grave errors and was in danger of committing some others.

He cited as examples the case of the Tyrol and Transylvania, in which, he said, a third of the population taken over by Rumania has certainly no affinity with the Rumanians. He also mentioned the controversy over the Balkan boundaries and maintained that commissions should have been appointed to examine the line that separated the defendant peoples and reported to the Conference. If the nations knew their claims had been fairly considered by competent authorities, there was a prospect of contentment and future peace.
