#### BERLIN'S VIEW ON U. S. SENATE

Berlin, Nov. 24.—Failure by the United States Sernate to ratify the United States Sernate to ratify the Treaty between the Allied powers and Germany is considered the result of partisan politics by Die Zeitung, which comments to-day upon the situation.

"We must accustom ourselves to the fact that the Peace Treaty, upon which, for us, life and future depend, is treated in America largely as a political matter," says the newspaper. "Not because the Treaty displeased the Republicans, who were more inimical to Germany than the Democrats, nor because they find the conditions too hard for Germany do they condemn it, but because the Democratic leader signed the Treaty and they wish to discredit him and his party in the coming elections.

"It is plain now that President Wilson had no right to act as the protagonist of the League of Nations nor to make promises to the European peoples for the fulfillment of which he was unable to rely even on his own people."
