

**Poker Den on Wheels
Set Up at N. Y. City Hall**

New York, Nov. 25.—New York, which has but recently been introduced to the rolling kitchen and

rolling co-operative stores, got a glimpse to-day of something novel on wheels—a rolling gambling house. In the early hours a taxicab was parked at the curb on the Park Row side of the City Hall plaza, directly under an arc light on the pole of which is mounted a citizen's police

call box. By the light from the arc six poker players continued their game from 1 o'clock until the lights were turned off at 5:45 o'clock. Not 50 feet from where the car stood is the headquarters of Traffic A Squad in the basement of City Hall.

**COUNTY HEALTH
COUNCILS NAMED**

First List Comprises People From Thirty-Two of the Counties

Col. Edward Martin, the State Commissioner of Health, today announced the first of the "health committees" to be named in the State to co-operate with the Commissioner in promoting improved local conditions and spreading the doctrine of good health. Committees were announced for 32 counties and the Colonel says that he has called upon all of the civic organizations to "lend a hand and co-operate with the direct agencies of the State Department of Health."

The plan is to have the county health council work with the county medical director, the representatives of the State Department of Health. There will be a health council of six in each county, selected because of position in the community, interest in civic work and experience in public matters.

The councils as announced include: Cumberland—Dr. N. W. Hershner, Mechanicsburg; the Rev. T. J. Ferguson, Silver Spring; Dr. E. S. Berry, Shippensburg; Dr. E. R. Plank, Merkle Landis and Miss Mary Bowler, Carlisle.

Franklin—Col. W. C. Bambrick, Scotland; Dr. T. D. White, Orrstown; Dr. Barr Snively, Waynesboro; Mrs. John W. Hoke, Dr. J. M. Elwix, Dr. Charles P. Palmer and Harvey M. Speasard, Chambersburg.

Perry—James W. Shull, New Bloomfield; Dr. L. A. Carl, Newport; Dr. E. F. Beale, Duncannon; Dr. J. H. Sheibley, Shermansdale; H. S. Sheibley, New Bloomfield.

Dr. Richard Reeser, Columbia; Dr. C. J. Hawk, Towson City, and Dr. J. A. Singmaster, Gettysburg, are also named.

Present plans of the State Department of Agriculture call for the compilation of reports from every county in Pennsylvania as to the manner in which the dog license code was enforced and they will be asked to furnish detailed information as to the licenses issued, the dogs killed because of failure to license them, the actions against persons who refused to obey the law and the general conditions as well as the number of sheep killed or injured and the damages paid by the counties. On the experience of this year will depend very largely the State policy for next year. In event that it is seen that county authorities have not been energetic their attention will be called to it and the State may launch a campaign of its own as was done in several counties this year with convictions and fines obtained. Complaints have come to the Capitol of failure to enforce the code in a number of sections.

The State Department of Health has established a clinic for New Kensington with Dr. P. A. Brown in charge. Dr. Max Tischler has been named as an assistant at the Wilkes-Barre dispensary.

The meeting of the State Forest Commission for discussion of contracts scheduled for to-day has been deferred until later. A report on all timber cutting operations is to be completed.

Col. A. M. Holding, prominent Chester county lawyer, was at the Capitol.

The State Compensation Board has awarded compensation to Edward Tolan, of Mahanoy City, an employe of the Philadelphia and Reading Coal and Iron Company, because he lost a foot while crawling under a train in order to get to his work at a mine. The crossing on a private road was blocked by a train of coal cars and while other men climbed over the cars, Tolan crawled under. The train started and he lost a foot. The board holds that he had to cross the train because of the road being closed and his employer required him to be on duty at a certain time. Lack of a guard rail which would have prevented Frank Sorrentino, of Pittston, from falling into machinery in a breaker, is the reason for granting compensation to his parents who are advanced in years and who were to certain extent dependent upon the son's earnings at a colliery of the Pennsylvania Coal Company.

Further appointments of officers of the new Pennsylvania National Guard will be made before the end of the week, it is expected. The newly-commissioned officers have proceeded to organize their units. The officers to be named will include men in the medical and signal corps in all probability.

Prolonged litigation over the new fare system of the Wilkes-Barre Railway Company came to an end before the Public Service Commission last night when argument was heard before the Public Service Commission, all of whose members sat to hear the lawyers. Numerous questions were asked of the attorneys and for a time there was a cross fire. The counsel for the city and various boroughs attacked the fares as unjustified and assailed the zoning system in summing up the evidence adduced at the various hearings held in the cases. Ex-Judge W. Frank Wheaton, of Wilkes-Barre, counsel for the company, declared that the fares were justified and that the company had the values on which to make the charges, while he referred to the expense of maintaining the system. The Commission will receive briefs and act on the case later on in the year.

Mrs. William C. Sproul has consented to serve on the Delaware county health council.

Prices of Cigarets to Be Boosted Again

New York, Nov. 25.—A new retail price list for cigarettes will be placed before the public before the end of this week by the United Retail Stores Corporation, which owns the United Cigar Stores Company. As result of a general advance in wholesale cigarette prices the retail prices are due to go up. The R. J. Reynolds Company, which manufactures between 50,000,000 and 100,000,000 cigarettes daily, has advanced its wholesale prices 40 cents a thousand closely after an initial advance of 30 cents a thousand. This 70-cent advance will mean a difference of about \$17,000,000 a year to the Reynolds concern.

It is understood that the American Tobacco Company, whose production is something more than 77,000,000 cigarettes a day, will get in line as a result of the increasing costs and will raise its cigarette prices to about the same average as that of the Reynolds Company. If figured on the dollar basis this will mean a difference of approximately \$14,000,000 annually to the American Tobacco Company.

**AGRICULTURAL
WEEK PLANNED**

Eleven Organizations Arrange Programs for Session in January

Committees representing the eleven State organizations which will meet here during the week of January 20, when the State Farm Products Show will be held, met last evening at the Department of Agriculture and planned for the programs for the week.

The annual mid-winter farmers' week which has heretofore been a feature of the year at State College, will be transferred to Harrisburg during show weeks. Arrangements have been made for four meetings at the Capitol, two in Chestnut Street Auditorium, three in the Penn-Harris Hotel and Fahnstock Hall, Cameron Hall and the Municipal Band halls have been secured.

The farm show promises to be the largest agricultural display ever held in the East and one of the features will be the dairy display which will occupy an entire floor of the Emerson Brantingham building. The potato show will also be a big feature. The tractor and corn showing may be moved to another building.

The Chamber of Commerce will co-operate in the housing of the visitors during the week and between 2,000 and 3,000 rooms are to be listed and made available by the housing bureau.

The organizations which will hold annual meetings here during the week are:

State Horticultural Association, Potato Growers, Bee Keepers, Breeders and Dairyman, Holstein-Friesian Association, Sheep Breeders and Wool Growers, State Poultry Association, State Veterinary Medical Association, Tobacco Growers, More-Sheep-More-Wool Association, Inter-State Milk Producers and Dairyman's Co-operative Association.

The show is under the auspices of the Department of Agriculture with State College and the Department of Public Instruction assisting.

**Don't Spoil a Good Meal
With a Bad Stomach**

If a physician, a specialist in stomach diseases, came to you and said: "I will fix up that miserable, worn out stomach for you or money back. I will make it as good as new so you will not suffer from any distress and can eat what you want without fear of suffering, or money back. Would you turn down his offer?"

Write, are you going to be narrow minded and continue to suffer from indigestion, or are you going to be fair to yourself and try Mi-o-na on the money-back agreement.

Mi-o-na stomach tablets are offered to you on this basis, that if they do not put your stomach into such good shape that there is no dizziness, sour stomach, biliousness, sick headache, and stomach distress, your money will be returned. For sale by H. C. Kennedy and all leading druggists.

HYOMEI
(Pronounced HIGH-O-ME)

Ends Catarrh or money back. Just breathe it in. Outfit including Inhaler \$1.50. Extra bottles 50c. Druggists.

**Burleson Regime
Is Hotly Assailed**

No justification can be found for making the rates forced on the Bell Telephone system by the Burleson regime a permanent charge on the people of Pennsylvania and the company should be required to return to its 1917 rates, argued James Francis Burke, counsel for the Pittsburgh Chamber of Commerce, in protesting against the approval of the "war-time" rates after December 1, before the Public Service Commission last night in closing the famous case which has occupied attention for many weeks. The city of Pittsburgh also registered protest in the final argument and the company sought to secure approval of the rates on the ground that they were essential to operation and the fair return.

Mr. Burke's address attracted much attention about the Capitol and the Commission sat late to hear him. He said that it had been established that the Federal Government could not operate a public utility as well as the competent men who had grown up with it and that the mistakes of Burleson management would be found costly. Federal con-

trol, he argued, should not be considered a basis for any permanent rates. It had done little except muss things up and the company's officials should be grateful for the manner in which it had exploded Government ownership ideas. Mr. Burke insisted that the rates of two years should be restored and Burleson management forgotten as much as possible.

Mr. Marye's request for an 8 per cent return on \$90,000,000 and his analysis of the figures produced in the examination of President L. H. Kinnard here were attacked by C. K. Robinson, counsel for the city, who said that \$20,000,000 should be taken off the value because it was reinvestment; that there was a \$12,000,000 surplus and that 7 per cent was all that should be allowed. He also criticized the inclusion of the Federal income tax of \$270,000 and found fault with the estimate of \$4-

485,000 as 1919 revenue. His opinion it would be more than 600,000.

**THE MOST PLEASANT
WAY TO TAKE IRON**

Force, vigor, energy, the kind that simply overflows with rich red blood is produced by the special compounding of iron and quinine into the Famous Make-Man Tablets. Make-Man Tablets create new, pulsating, disease-resisting red corpuscles, strengthening the tissues that have become weakened by long overwork or sickness.

Easy and pleasant to take and contain no injurious drugs or habit forming chemicals. Nothing but iron and quinine. Increase your weight. Watch the scales from the day you start taking Make-Man Tablets.

Make-Man Tablets are sold at all reliable drug stores. Price 50 cents a box. Only genuine if our monogram—M-M-T—appears on each box. Distributed by Ashland Supply House, 325 W. Madison St., Chicago, Ill.—Advertisement.

The Happy Woman Takes

life pleasantly because she has learned to seek the aid to health all women need at times. Headaches are hard to bear; destroy enjoyment; lassitude makes life a burden; extreme nervousness is pretty sure to make a woman a nuisance to herself. If you have these unpleasant symptoms get help; but be sure to get the right sort.

Beecham's Pills are absolutely harmless. They are made of best and purest ingredients. They act quickly and safely and they do correct the derangements of stomach, liver and bowels in which most troubles of women have their beginning. Beecham's Pills will make you feel better, stronger and more cheerful; they will also make you look better—they will give you the bright eyes, the clear complexion, the charming color of youth and health.

You will feel the improvement after a dose of these renowned pills. Then an occasional use will prove to you the value of

\$37.50 \$37.50

This unusual offering for **THANKSGIVING WEEK** means a saving to you of at least 25 per cent. Don't fail to take advantage of it.

THE GLOBE

Quick starting in cold weather

Frigid weather puts the burden of proof on the motor-fuel. Sluggish gasoline floods the carbureter, coughs and spits—does everything but run the engine. And that's what you bought it for.

Guard against this annoyance of cold-weather motoring. Use Atlantic Gasoline regularly and have the assurance of quick starts, no matter what the thermometer says.

Atlantic Gasoline is sold by good dealers all over the State. You can get it anywhere. The important thing is to GET it and be sure it's Atlantic.
