School Children of England Raise Big Sums in War Savings

London, Nov. 25.—There are now in the United Kingdom 12,500 schools which have War Savings Associations regularly affiliated to the National War Savings Committee and the returns show that the children have raised huge sums of money by the sale of War Savings Certificates to help their country in its time of financial stress. In addition, there are 1,500 other schools which are working by means of other schemes, making a total of 14,000.

The authorities state that these associations have contributed very materially to making known not only in the schools but through the children to their parents and the public generally, the aims of the National War Savings Committee. In several counties the school associations have sold from $375,000 to $1,000,000 worth of certificates. Several single schools have made sales of over $50,000 credit, and a very large number have raised more than $5,000.

Presidential Campaign in Germany Hot as Elections Draw Near

Berlin, Nov. 25.—Candidates for nomination for the Presidency are making their appearance, though the next presidential elections in Germany are presumably some months away, certainly are not set as yet. The latest to be mentioned, by himself, is Adolph Damaschke, of Hamburg, who has announced that he will accept a call to run for the office if he hears it from men and women of all camps."

To further the "call" Herr Damaschke has affixed a list to his declaration of willingness, to be signed by all those who favor him. The Berlin Tageblatt says he is not only ill-advised, but will set a bad example, and that candidates for the presidency will grow up like mushrooms after a fruitful rain.

Herr Damaschke formerly was a school teacher but gave up teaching to devote himself to social political studies. He is the author of many pamphets on social political subjects.

Aviators Drown in the Delaware

Philadelphia, Nov. 25.—Lieut. Robert Stocker, Washington, D. C., and Fred Thompson, Dover, Maine, a civilian aeronautic inspector, lost their lives yesterday when a naval airplane of the "NF" type, piloted by Lieutenant Stocker, dropped several hundred feet into the Delaware river six miles below Chester. The cause of the accident has not been determined, but officials at the Philadelphia Navy Yard said it probably was due to bad air currents. The men were testing the machine.

Lieutenant Stocker was the son of Capt. R. Stocker, of the Bureau of Construction and Repairs, Navy Department.

U. S. Marine Tonnage Totals 11,773,000

New York, Nov. 25.—The American merchant marine has expanded from four ships in deep-sea commerce before the war to a fleet of 9,773,000 tons in ocean service, according to figures made public by the National Marine League. In addition, Great Lakes shipping measures 2,000,000 tons, giving a total of 11,773,000, against Great Britain's 18,000,000 tons.

To stimulate the interest of the country in the shipping program, with the ultimate object of surpassing England as a maritime nation, a national marine exhibit will be presented in Grand Central Palace April 12 to 17 of next year, under the direction of the league.

The solution of the problem of distributing foreign goods that will flood this country in payment of debts, without demoralizing American industries, will be one of the big questions before the exhibition, according to August Belmont, chairman of the board of trustees of the league.

The average price paid for first choice live turkeys was 46.75 cents. Last week the first choice average was 48 cents. The slight drop will have little effect on the retail price of these turkeys. The retail price for dressed turkeys of the first choice is from 65 to 70 cents a pound.

Chicago, Nov. 25.—The Society of Manufacturing Confectioners, in convention here, have denied that the candy industry was responsible for the shortage of sugar. Mexico Prohibits Old-Time Fiestas on Old Souls' Day.

Mexico City, Nov. 25.—A new municipal law forbids Mexicans to hold fiestas in cemeteries over the graves of their grandmothers or other relatives, as has been the annual practice of the poorer people on All Souls' Day. This action has been taken at the request of the church authorities.

For years one of the most popular holidays in the long calendar of such days in Mexico has been All Souls' Day which by regulation of the Catholic Church is dedicated to the dead and as such should be observed as a solemn occasion. The poor class of natives, however, had turned it into a day of hilarity and general rejoicing and it was no uncommon thing to find a happy group drinking pulque and singing songs over the grave of some dear and deceased relative.

The merry-making was stopped this year by order of the city council.
