The High Cost of Home-Baking Not only does home-baked bread cost you more, in money, than does baker's bread, if you put any money value on your own time—but it costs you things more valuable than money. It costs you opportunity to do some of the things that help to make life worth while. Why this needless drudgery when HOLSUM is as good and pure as the best loaf ever baked in a kitchen? Better bread isn't baked than HOLSUM Schmid's Bakery THE HOME OF HOLSUM

Direction For Buckwheat Coal 50 Per Cent Buckwheat: 50 Per Cent Larger Size IF possible keep Buckwheat and large size coal in separate bins. If you have a good bed of fire, put on larger coal first and then add a smaller amount of Buckwheat coal. If fire is low, put on a little Buckwheat coal and after a good bed of fire is formed, add Buckwheat and large size in equal amounts. We advise consumers to put into their cellar one or more tons of Buckwheat coal at \$6.90 per 2000 lbs. and thereby make the larger size last for a longer period. It's a good plan to keep a supply of Buckwheat coal and when your fire gets low put on several shovelfuls—see how quickly the radiators get warm. United Ice & Coal Co.
