Santa Claus Drops His Package of Toys at Bowman's Door

In a real, honest-to-goodness airship, Santa Claus delivered a package of toys to Bowman's this morning. Over the treetops from his Castle in the Woods, the aeroplane came sailing like a huge bird from Fairyland. Circling about the city and around the Capitol dome, the airship swooped down within two hundred feet of Bowman's store and dropped a package right in front of the door.

On his next trip we will notify you in time so you may see how easily he delivers his toys by the most modern methods to the Christmas Store.

These and thousands of other pretty toys are now to be seen in Toyland at Bowman's. Of course, they are going fast. It's only nineteen shopping days until Christmas.

Yes, We Now Have Vyella Flannel And And Wool Challies

For several seasons it has been practically impossible to obtain Vyella flannel, as it is an English product and during the war the makers were busy with government contracts, thus cutting off the general supply. And our customers have certainly been demanding this make of fancy flannel, as its use is so general. For instance, they make most elegant and warm shirts for men, as well as women's dresses, sacques or kimonos, children's warm and dainty dresses. They are specially mixed with a slight percentage of cotton yarn to prevent shrinking; 30 inches wide; \$1.80 yard.

28-inch Printed Wool Challies. Another fabric supplied before the war by Alsace-Lorraine. For five years the supply has been unobtainable until England began early this year in making a very satisfactory Challie with the same dainty printings of old. Now they are here and will help you to think of something unusual for Christmas giving. A garment pattern of this material will please mother, sister or sweetheart; 27 inches wide; \$1.50 yard.
