

### FINNISH WOMEN DO MUCH WORK

**Do Heavy Work in Fields and Serve as Skilled Mechanics**

Helsing-Fors, Dec. 3.—An astonishing sight for the stranger in Finland is the number of women engaged in almost every field of employment. In England during the war one became accustomed to the sight of women performing various kinds of work in which previously only men were engaged. But in Finland the visitor gets the impres-

sion that the women are doing everything. They even serve as porters on sleeping cars. Not only are they at heavy manual work in fields and factories, but they have become skilled as mechanics and have invaded business offices to an extent that is probably undreamed of in any other country. In banks the proportion of women employees to men appears to be about 10 to 1. In the biggest financial institutions in Helsinki for women hold positions involving great responsibility and calling for exceptional ability. At the Finnish Office, the Associated Press correspondent noticed that women were holding offices that would be entirely beyond the aspirations of their sisters in the State Department at Washington or the British Foreign Office.

## NO MORE RHEUMATISM

"When I see a man limping with Rheumatism, I feel that he needs a guardian to force him to get well."—MUNYON.  
Rheumatism can be cured. The free distribution of Munyon's Rheumatic cure has resulted in our receiving hundreds of letters endorsing Munyon's 3X Rheumatism Remedy. This remedy has cured more rheumatics and relieved more endorsements than any other medicine ever known. If you have stiff or swollen joints, try it. If you have a lame back, try it. If you have sciatica, try it. If you have shooting pains in the arms, legs, sides, breast or back, try it. Munyon's 3X Rheumatism Remedy relieves nearly every form of rheumatism in from one to three hours and generally cures before one vial has been used.  
It is a surprise to the medical profession. It is a boon to suffering humanity. There is no "perhaps" it will cure, or "if may" or "guess" it will cure, but it cures and cures permanently; doesn't put the pains to sleep, only to break out again more violent in the future, but it exercises the blood, neutralizes the acids, drives out every vestige of rheumatism from the body.  
If you are suffering from any form of rheumatism, purchase a bottle of Munyon's 3X Rheumatism Remedy, and if you are not satisfied with the results at the end of forty-eight hours send us your empty vial and we will refund your money.  
MUNYON'S H. H. REMEDY COMPANY, 54th and Columbia Ave., Philadelphia.

This change has come about almost overnight. Finland's man power has been greatly depleted, and a large part of what is left is required for military service. The Finnish business woman is remarkably keen and intelligent. She has a kind of masculine interest and absorption in her work that seems to admit of no margin for sentiment or frivolity. She dresses simply and smartly, as do the majority of the city-bred women of this country. An American walking through the principal streets of Helsinki might well believe, judging from the costumes and brisk walk of the Finnish women, that he was in the heart of Chicago.

### Elks to Pay Tribute to Memories of Dead

Plans for the annual memorial services of Harrisburg Lodge, No. 12, B. P. O. Elks on Sunday, December 7, were completed last night. Elks all over the country will hold sessions of the Lodge of Sorrow on that date. This year the local committee has arranged an interesting program.

The orator will be Samuel B. Hare, a prominent attorney of Altoona, and a member of Altoona Lodge of Elks. The services will be held in Majestic Theatre, and seats will be reserved for the Elks and members of families of deceased members. There were eight deaths in Harrisburg lodge during the year. On the list are:

John E. Nicholas, William W. Bates, Augustus Wildman, J. W. Di Dil, Jere B. Douglas, Thomas P. Moran, Warren L. Conn, Harry H. Hoffman. Admission will be by ticket until 3:15 P. M.

**DRIVE AWAY HEADACHE**  
Rub Musterole on Forehead and Temples  
A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do.  
Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).  
30c and 60c jars; hospital size \$2.50.

### Victim of Torpedoing of Arabic Will Speak at Covenant Church

The Rev. Dr. George A. McAlister, of Chambersburg, will lecture at Covenant Presbyterian Church tomorrow evening at 8 o'clock on the "Sinking of the Arabic."

### Proposes League for Latin-America

Mexico City, Dec. 3.—The Secretary of Foreign Relations of Colombia, according to information reaching here, has addressed a communication to all Latin-American countries suggesting that a league of such countries be formed which shall "maintain the sovereignty and integrity of the countries which form the league." It is explained that the chief purpose of the union is to provide a means for settling all disputes that may arise among Spanish speaking countries in North, South and Central America.

### British Physicians Want Bigger Fees

London, Dec. 3.—British physicians have long been complaining that, as nearly everything had advanced in price owing to the war, there should be a proportionate advance in their fees. The justice of this contention has been officially recognized by the Minister of Health. Being of opinion, he states, that the present minimum fees of 60 cents and 84 cents for primary vaccinations at private houses are inadequate he has issued an order, which comes into force in December, to increase the minimum fee to \$1.25.

### Death of Bronze Coins in London

London, Dec. 1.—The dearth of bronze coinage with which London is now faced is attributed to the approach of Christmas when many articles that cost a few cents are bought. Shopkeepers with no banking account, are in the habit of hoarding the coppers until after Christmas.  
An official at the mint said that they were pouring out more coins than ever before but that seems to make no difference for the demand is constantly growing.

Use McNeil's Cold Tablets. — Adv.

### NEW MAP TO GUIDE FLIERS

### Device of California Man Has Been Adopted by Aerial Derby Commission

San Francisco, Cal., Dec. 1.—Flying in the proposed 1920 world-encircling air derby will not travel by Mercator's projection but by a new "butterfly" map devised by B. J. S. Cahill, of Oakland, Cal., which has just been adopted by Major Charles J. Glidden, executive secretary of the Aerial Derby Commission, now on his way to the Far East and who gave the map his approval before leaving here.  
Mr. Cahill, who is the originator of San Francisco's \$12,000,000 "civic center" plan, said that an aviator using the Mercator projection as a guide, would go 1,000 miles out of his way in a trip from Panama to Yokohama. "If the North Pole were an island a mile wide," he said, "it would appear on Mercator's projection to be 25,000 miles wide, or nearly the total circumference of the earth at the equator."

"Internationalism, now a sporadic and occasional thing, but destined in the future to be the keynote of all human endeavor, plays an important part in the science of statistics and meteorology," said Mr. Cahill. "Graphical statistics are self-contradictory and ludicrous on Mercator's chart and as for indicating the progress of high and low pressure rings in weather charts, the ever changing scale on Mercator's was simply bewildering to the forecaster who had to use them. The new map, by showing all lands in their true proportion and form, he declares, would help materially in solving peacefully problems dealing with the world as a whole."

### Italian Boys and Girls of the East Side Taught How to Bathe

New York, Dec. 3.—At San Salvatore Mission of the Episcopal Church, one of the principal New York beneficiaries of the church's Nation-wide campaign, lessons in bath taking have been instituted for the Italian children of the neighborhood.  
Twice a week the children line up, take off their dirty little clothes, and enter into the mysteries of bathing as taught by an expert in a real bathroom.

**Sir Walter Scott**  
Planned his Novel while he shaved

workers, which will come to a climax on December 7. Classes in English and citizenship for adults, church services, clubs for young people, mothers' meetings, gymnasiums, sewing, kindergarten, all these keep life interesting for the needy Italians of the neighborhood, who have nothing, not even the essentials, to make living comfortable and happy. San Salvatore serves about 700 persons a week.

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all grippe misery.  
The very first dose opens your closed-up nostrils and the air passes freely through them; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.  
"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, no quinine.

And this lovable, simple country gentleman used a razor which justly rewarded his skill—that old time model whose perfect balance makes it seem part of your own hand—a long, keen blade that can lie on your cheek at only one—the right—shaving angle. All that Scott's fine old razor needed to make it a perfect shaving tool was the double-edged, guarded, detachable blade of the

**DURHAM-DUPLEX**  
A Real Razor—made Safe

Lay this real-razor-made-safe against your cheek. It feels as comforting and shears as smoothly as the old-time blade—only—it won't cut your face. And because it has two edges, it naturally doubles your blade mileage. In addition it has the longest, strongest, keenest, best-tempered blade on earth—a blade that you can instantly detach and strop or hone and so save money. These vital improvements on what hitherto has been the best of all razors have led seven million men to change to the Durham-Duplex, a real razor made safe. Why not have these extra conveniences for yourself—today?

### America Holds Balance of Influence Over Future Peace in the Near East

Alfred, N. Y., Dec. 3.—Only the tremendous influence that can be wielded by the United States over affairs in the Near East will save the world from another Balkan War, the Rev. Dr. Caleb F. Gates, president of the American Educational Society, declared in an address to the students of Alfred University, assembled to celebrate Founder's Day and the opening of a drive for a million dollar endowment. The Rev. Dr. Gates outlined the problems of the Near East, telling his hearers that America's decisions regarding her articulation in the administration of reforms there can force peace and prosperity or loose chaos. He stated that the future of the eight American educational institutions in Turkey depends on the terms of the Treaty of Peace with the Turks.

### Live on 11 Cents a Day, Says Wiley

Philadelphia, Dec. 3.—Cost of food need not add to the terrors of the high cost of living. Every man can live well on eleven cents a day. This was the assertion of Dr. Harvey W. Wiley, former chief chemist of the United States Department of Agriculture, last night at a banquet given by the City Business Club in the Hotel Adelphi.

Cornmeal mush and plenty of it is the solution to the high-cost-of-eating problem, according to him. Skill applied to the "starch-eating" will bring down its cost, he declares. "Eating is an industry in which there are fewer skilled laborers than in any other," he told the guests after all had shown considerable skill at eating a sumptuous menu. "We all draw a day laborer's pay, which is a short life. If we were trained laborers we would live much longer."

"If we were really skilled in eating we could lengthen our lives by many years, by the proper selection of our food. We could add fifteen years to a child's life if it were properly fed during its childhood." Referring to a statement he made some time ago that a person could live well on thirteen cents a day, he said he had made a mistake. "Any man can live well on eleven cents a day," he said. "A pound of corn meal a day, at the rate of \$1.50 a bushel, would amount to three cents, and added to this eight cents' worth of milk to give sufficient nourishment."

### To Walk From Rio to San Francisco in 18 Months

Rio De Janeiro, Dec. 3.—Carl Dericks, a Hollander, 37 years old, arrived here a few days ago from Amsterdam and announced his purpose to walk from this city to San Francisco, Cal., in 18 months in order to win a purse of 100,000 florins offered by a party of Dutch sportsmen. Dericks said his route would be from Rio to Montevideo, to Buenos Aires, then across Argentine and the Andes to Santiago and Valparaiso, up the west coast to La Paz, Lima, Quito, Bogota, through the republics of Panama, Nicaragua, Honduras and Mexico, through southwestern Texas, into California.

## Famous For Its Marvelous Motor

### Cars of Comfort in ALL Seasons

**YOU** may laugh at the rains and the snows and the winds—if you have a Chandler Sedan or Coupe. In fair weather or foul there are no more pleasing cars than these two.

Both are of handsome lines and finish, luxuriously upholstered and uncommonly restful in the comfort of their cushions. The Sedan seats seven persons, when the auxiliary chairs are used, and the Coupe seats four.

The highest development of the modern coachmaker's art is seen in these two handsome Chandler closed cars. Yet, mounted on the standard Chandler chassis, distinguished above others for its really marvelous motor, they are most fairly priced.

The Chandler Sedan and Coupe are the selection of discriminating purchasers. May we show you these beautiful cars?
