of Property Recovered **During Raids**

150 prisoners were rounded up here last night by police and Federal

officers, many of them said to be known to the authorities as expert yeggmen and pickpockets. Stolen property valued at many thousands of dollars was recovered. Among

those arrested was a Detroit attor

those arrested was a Detroit attorney, whose name was withheld pending further investigation.

The raids were understood to have been decided on by Federal and local authorities as a means of checking the wave of crime that has swept the city and environs for several weeks. All the prisoners were registered on charges of violating the United States criminal code.

Some Hungarians do not hesitate to express their resentment over the employment of Czechs in government positions here formerly occupied by the Hungarians. Czechs and many Slovaks of the educated classes who hold office under the government, say this feeling is due to Hungarian and German propaganda and hos no real strength or extent. Also they admit the necessity of Czech officialdom, as Slovaks has little or no educated class from which to draw executives of ability.

It is hard to upset rudely the traditions of 10 centuries and talks with many persons, both in official and unofficial circles, would indicate that the antagonism dis played toward the Czechs is a natural condition of this period of transition and not deeply rooted. Probably it is stronger here in Pressburg than in the other parts of Slovakia where the change is not so apparent.

Ban Hun Languages

The school question plays a very prominent part in the situation here. The government has abolished the German and Hungarian languages in the schools and this means a general ousting of teachers and a reaction in households.

Many Slovakians and Germans now speak ostentatiously in Hungarian as do the peasants of this immediate vicinity as a sign of their feelings. A political speaker alluding to this development said that the Czechs had accomplished in six months what Hungary had tried to do for 50 years.

Well informed Slovakis, however, do nto feel that the racial question will result in any serious developments. They say that Slovakia must hold to the republic and with new elections and an elected, instead of a nominated, National Assembly such as last argument they point out that Slovakia cannot exist as an independent states and there is no other country than the Czecho-Slovak representation in offices and the stabilization of the economic situation, conditions will improve. Amazon Valley Gets the Attention of **European Countries**

Para, Mouth of Amazon River, Dec. 4.—The industrial development of the Amazon Valley is attracting the attention of European countries, British, German Italian, Norwegian, Swedish and Dutch capitalists, engineers and importers are making investigations of the mineral and forest resources of the valley or have obtained concessions to establish industries here. So far American participation in this development work is conspicuous by its absence.

English engineers are up river at the present time investigating the possibilities of vegetable oils; English experts are here studying the practicability of extracting starch and industrial alcohol from the root of mandioca; an English engineer has returned to this city from Iquitos for further equipment with which to extend the examination he is making in the mineral area of the Peruvian Amazon, on behalf of a British syndicate.

The Italian syndicate which has been operating a small experimental vegetable oil factory at the town of Cameta, on the Tocantins River, about 100 miles from Para, has applied for a concession to open a large factory in Para for the extraction of lubricating, illuminating and edible oils from the nuts of palms and trees which abound in the forests. A similar concession has been given to a group of local capitalists for the establishment of oil factories in certain municipalities throughout the state.

Alsation Is Now the Principal Language in Strasbourg Streets

Strasburg, Dec. 4.—The language most commonly heard on the streets here is not German nor French, but Alsatian, a patois not more dissimilar to French than is the patois of the Bretagne farmer or Brest longshoremen. Strasburgers are intent, however, to elimnate German as much as possible.

'Y" Will Extend Its Work in Philippines

Manila, P. I., Dec. 4.—That the Y. M. C. A. is preparing to broaden and extend the work it has been carrying on continuously in the Philippines since the arrival of the Third Philippine Expedition more than twenty years ago, is shown by the construction of a new building at Fort William McKinley, which will cost \$40,000 when completed. Situated about seven miles from Manila, Fort William McKinley is one of the largest military cantonments under the Stars and Stripes and is the headquarters of the Army "Y" work in the islands. Through the generosity of Mrs. Russell Sage a fully equipped gymnasium was built at the fort about the work of this building that the work of the new "Y" will be directed. Built of concrete, the structure is two stories high and will provide recreational, game and reading rooms for the soldiers stationed at the garrison. Funds for the new building have been furnished by The National War Work Council, Y. M. C. A.

Arrests in Toledo

Toledo, O., Dec. 4.—More than 100 arrests were made and several thousand dollars worth of narcotics and alleged stolen property was seized in a raid conducted by 75 federal officers here.

One of the men arrested is C. E. Rogers, a city councilman. He is charged with conducting a fence for stolen property.

Following the raid it was announced that bank safety boxes of men known to be prominent criminals, were attached through an order of United States District court.

As fast as the suspects were brought in they were questioned and finger prints were taken of them. They were then locked up.

The raiders came from all over the country. Sixteen places were visited, the majority of them being saloons and cheap hotels. Large quantities of liquor were seized also.

The investigation which led to the arrests to-day started more than a month ago when it became known that Toledo was the headquarters of a band of interstate shipment thieves, drug sellers and safe blowers. In a raid conducted by 75 federal officers here.

and power of endurance."

Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensatory as being an excellent tonic and nervine and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with any of the secret hostrums, so-called tonics or widely advertised "cure-alls."

CAUTION:—Although Bitro-Phosphate is unsurpassed for relieving nervousness, aleepleasness and general weakness, owing to its tendency to increase weight it should not be used by anyone who does not desire

Christmas Shopping to Advantage---

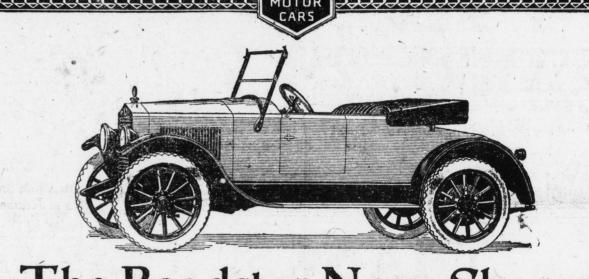

Aside from economic points, there are many reasons why Shopping on North Third street, between Boas and Reily streets, can offer you untold opportunities.

In the first place, this busy Shopping Center is not really Uptown after all. It is just a continuation of the down-town shopping district, for there are but few blocks on North Third street, below Boas, unoccupied by business houses.

However, this so-called Uptown Shopping Center, because of considerably lower rentals is enabled to trade on much narrower profit margins. What these merchants save on low rents they pass on to you in bigger value.

The Essex Roadster is particularly suited for salesmen, visiting representatives, inspectors and

others who must make widely scattered calls. Though not large, the Roadster is commodious. There is plenty of room for passengers, and special arrangements for carrying sample cases unseen, and even a trunk if desired.

Consider comfort too. Men who use a car much in business appreciate the value of riding ease. They know how motoring fatigue takes the drive out of a man, towards the fag end of the day. They appreciate the riding comfort of the Essex. It is comparable to no other light car. Only among

The Essex Roadster is not only a favorite with large, high-priced cars, owners tell you, will you find such smoothness of action.

But for such a car as might give you the speed, power and endurance of the Essex, you would pay far more. And you would not get the Essex advantages of nimbleness, low upkeep, tire and gaso-line economy, which result from its light weight.

Big Car Comfort Light Car Economy

The size of the Essex makes parking space easy to find. It allows free handling in crowded traffic, both important these days. The quick pickfic, both important these days. The quick pick-up easily escapes "pocketing" behind slower cars. Whether for long tours cross country, or for the nimbler requirements of city use, the Essex Road-

ster has proved itself worthy in endurance, hillclimbing, acceleration, speed and comfort. Its place is established among the fine cars of motor-dom, not only as a jaunty, graceful car for pleas-ure for sport, but also as dependable transportation that squarely meets the test of business.

Keeps Its New Car Appearance

Despite its pleasing grace the Essex is solidly built. Thorough care is detail of finish and appointments. The Essex keeps its appearance. Even after months of service its smartness of finish is practically unimpaired, and its performance as true, smooth and quiet as when
