Sensational Claims of Air Victories by Marine Results in Dismissal

Washington, Dec. 8.—Sentence of dismissal imposed by naval court-martial on Captain Edward George Chamberlain, an aviator in the marine corps on charges growing out of his sensational claims of having defeated a vastly superior force of German airships with a western front, was approved to-day by Secretary Daniels.

Chamberlain is a native of San Antonio, Texas. His case became one of unusual interest in Washington and officials of the Navy Department and Marine Corps were sent overseas to investigate every point involved.

Chamberlain claimed that on July 28, 1918, on a trip over the British front, he had fought with twelve German planes, destroyed five of them, damaged two others and sweeping earthward with a damaged machine, scattered a detachment of German soldiers. He said that after landing he took a German prisoner by pretending that a compass was a bomb, and then carried a wounded French officer back to safety.

Denial of the exploit by British officers led to an investigation. Chamberlain contended that the failure of the British flyers to corroborate his story was because the admission that an American officer had used in their air-fighting witnesses in Chamberlain's behalf testified that he had landed in a British plane on the date mentioned in his official report.

Chamberlain's case now goes to President Wilson for final decision.

Train Hits Auto and Kills Minister

Baltimore, Dec. 8.—The New York and Washington express on the Pennsylvania railroad which was due in Baltimore at 9 o'clock last night, struck an automobile at Bengles, Md., about 15 miles from this city. The Rev. William H. Dell, a minister of the Methodist Episcopal Church, who was in the machine, was instantly killed. The engine of the express turned over and four coaches left the tracks. Railroad officials say that no passengers were injured. All four tracks of the Pennsylvania are blocked by the upset locomotive. A relief train brought the passengers to Baltimore.
