

Women Sewing Garments For Needy Children Here

Regardless of the inclement weather, a large number of women of the borough turned out to-day to sew garments for needy children of the borough at the home of Mrs. C. A. Alden, Harrisburg and Pine streets. Every Tuesday afternoon until further notice women of the borough who assisted the Red Cross in sewing during the war are requested to meet at Mrs. Alden's home to sew material into garments for the needy children. There is an urgent need for clothing for children between the ages of 9 and 13, and failure of residents to contribute clothing has compelled Red Cross workers to take immediate action to alleviate the suffering of the needy children.

Discussing Merger of Local Charity Bodies

Although feeling that charity work of the borough should be conducted under one head, the Associated Charities members at a meeting last night decided to conduct its work in the borough in conjunction with the borough Civic Club. No nurse was selected at this session, officials of the body expecting to secure the services of a nurse in the next few days to replace Miss Winship, whose resignation becomes effective December 15. Officials of the Civic Club and Associated Charities are openly expressing their opinions favoring a merger of the organizations, and it is altogether likely some action will be taken along these lines in the near future.

PROF. M'GINNES IMPROVES

The condition of Prof. L. E. McGinness, superintendent of the borough schools, was reported by physicians at the Harrisburg Hospital late to-day as "improved."

Better to Be Safe Than Sorry

If the people in the West who are suffering from the coal famine had the chance again to fill their bins they would buy all the coal needed to keep them comfortable till Spring. We in the East are more fortunate and should not wait till some calamity compels us to act. If you haven't enough coal to last you through the Winter, for your health's sake buy it now and be safe. Better to be safe with enough Kelley's Coal than be sorry with empty bins.

LEAGUE WILL OUTLINE WORK

Businessmen Invited to Attend Meeting of Municipal Body Friday

As a move toward the upbuilding of a "Bigger and Better Steelton" during the coming year, President F. A. Robbins, Jr., and officers of the Municipal League, have decided to hold a special meeting Friday evening for members and non-members to secure suggestions as to the work of the welfare organization can do during the coming year which will be beneficial to the borough. Work of the year will be outlined according to suggestion made at last month's meeting, including improvements of condition of the old canal below Locust street; improvement of Buser's run and bettering other conditions in the borough.

DEFER ACTION ON DAYLIGHT SAVING

Members of Council to Await Developments in Other Districts

Feeling that it was up to business men and declaring that it was not in Council's power to draw up an ordinance making a daylight saving issue a borough law, councilmen in monthly session last night deferred action on a resolution suggesting to employers of labor in the borough to make a schedule of hours to give employees an hour additional daylight during the summer months.

QUINCY BENT ON INSPECTION TOUR

Former Local Plant Manager Spends Day in the Borough

QUINCY BENT

Quincy Bent, a vice-president of the Bethlehem Steel Company and former general manager of the local plant of that concern, was in the borough during the larger part of the day and with officials of the plant was on an inspection tour during the afternoon. Rumors that Mr. Bent was here to outline improvement plans for 1920 prevalent in borough streets during the day were denied by local plant officials. Commenting on Mr. Bent's visit they said he was here on one of his usual visits and that an inspection tour of the plant during the day was altogether likely. During the morning Mr. Bent was in touch with some of the business men of the borough, chatting with them about conditions in the borough and other topics. Mr. Bent, being a Steelton man, is widely known here and his visits to the borough are always welcomed by his friends. Officials of the local plant will not discuss 1920 improvements, although it is generally understood that some changes will take place in sections of the plant early in the year.

Coal Situation at Plant Is Unchanged

Officials of the local steel plant this morning said that the coal situation was unchanged. Officials said that shipments of coal were coming in about the same as usual, consequently there being no immediate danger of any further curtailment in operations. The shipments of fuel, it is understood, is exceptionally low. One day last week but sixteen cars arrived when the plant's usual consumption is about sixty cars daily, it is said.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Luster at Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Beauty Answers

My MADAME MAREE. STRENGTHENING and enlarging the roots of the hair is one of the real secrets for forcing hair to grow, something which has heretofore not been fully realized. Merely stimulating the surface tissue of the scalp will not stimulate the hair growth to the extent desired. By the new method, hair can be forced to grow several inches a month. Hair will stop falling as fast by magic. The new vigor of the hair will be quickly noticed, and all bald spots will be soon entirely filled out with new sprouts. This can all be easily obtained by the simple use of beta-quinol, which can be secured at any drugstore in the original one-ounce package for 50 cents. This can be easily mixed at home with half pint of bay rum and a half pint of water. It contains no oil whatever.

BOROUGH LODGES ACTIVE

Action on proposed changes to the by-laws will be taken and arrangements will be made for a mass initiation at a meeting of Steelton Council No. 162, Order of Independent Americans, to-morrow. Election of officials will take place at a meeting of Steelton Council No. 923, Royal Arcanum, to be held to-morrow evening. After the business session refreshments will be served. A masquerade social will be held by Susquehanna Council, Sons and Daughters of Liberty, in G. A. R. hall, 114 North Fourth street, on Thursday evening.

OPEN MEETING

The open meeting of the Civic Club in Trinity parish house last night was well attended. Prof. F. A. Robbins was the speaker. Mrs. J. M. Heagy, president of the club, announced the appointment of Mrs. Keister, Mrs. Charles Beidel and Mrs. Bethel as members of a nominating committee. Officers will be elected in January.

Cho-Cho, Health Clown, Appears in Borough

Hundreds of children from all the schools in Steelton and Highspire saw and heard Cho-Cho, the famous health clown, at the Steelton High School auditorium this afternoon. Cho-Cho was brought to Harrisburg by the Anti-Tuberculosis Society of Dauphin County to conduct health meetings for children and to aid them in selling Red Cross Christmas Seals. Because of the recent epidemic of tuberculosis among the school children of Steelton and Highspire, it was decided to give them an opportunity to see the clown. Cho-Cho told the children what to do to be in good health so that they would not need treatment to prevent tuberculosis and other diseases which boys and girls often suffer from because of malnutrition. Early reports indicate that the sale of seals in the two boroughs will break all records.

WOMEN, SAVE \$10 BY DRY CLEANING

Save five to ten dollars quickly by dry cleaning everything plain. You can dry clean, brighten and renew children's coats, suits, caps, woollens, Swiss, lawns, organdie and chiffon dresses, kid gloves, shoes, hats, ribbons, ribbons, and silk waists, draperies, rugs—everything that would be ruined by soap and water. Place a gallon or more of gasoline in a dishpan or wash boiler, put in the things to be cleaned, then wash them with Solvite soap. Shortly everything comes out looking like new. Nothing fades, shrinks or wrinkles. No pressing needed. Do not attempt to dry clean without Solvite soap. This gasoline soap is the secret of all dry cleaning. A package of Solvite soap will direct you for home dry cleaning costs but a few cents at any drug, grocery or department store. Dry clean out of doors or away from flame.

The Quick Way to Stop a Cough

This home-made syrup does the work in a hurry. Quickly prepared, and saves about \$2.

You might be surprised to know that the best thing you can use for a cough is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Lately a family supply of cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it's a pure and good.

Pour 2 1/2 ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup. And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma. Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.
