In One Month

Dealers---

Turning the leaves of the calendar back until we reach the first month of our business in Harrisburg, we find that 286 dealers enlisted with us to sell Gunzenhauser Bread.

Of course the following weeks brought the total to well over the 300 mark.

It's not the total number we got then that pleases us, but rather the total we have maintained up to the present writing that counts with us—and with you.

It's a mighty fine indication that our bread pleased at the start and the dealers were glad to serve their customers with it—and have continued to serve them.

Why do the people stick to the dealers and why the dealers to us? Easy to answer. We have attained a uniform high quality that we have maintained and which we shall continue to hold.

Our superintendent (an expert in the baking business) has one main thought before him all the time—namely our ideal—uniformly high quality bread.

It is not necessary for you to entirely take our word for what we say about our bread. Get a loaf of Gunzenhauser's Bread and see for yourself how it compares with other kinds. We want you to eat Gunzenhauser's Bread because it meets with all the require-

If your grocer does not have it—telephone us, 4976 on the Bell or Dial, and we will tell you the nearest grocer to you where you can get Gunzenhauser's Bread.
