

### STATE BUYS BIG MONT ALTO TRACT

Enlargement of Institution Is to Follow; News of the State Capitol

The State of Pennsylvania has purchased several hundred acres of land contiguous to the State Department of Health sanatorium at Mont Alto and now controls virtually all of the properties abutting on the institution. The purchase included holdings of William L. Forney and \$20,000 is involved in the transaction which was concluded by Col. Edward Martin, the State Commissioner of Health.

In a statement issued Col. Martin said that the purchase would enable the State to carry out its comprehensive program for the rehabilitation and enlargement of the institution, already the largest in the country. It is under charge of Col. Theodore L. Hazlet, formerly of the 28th Division who has doubled the personnel of the staff in recent months. Col. John D. McLean, deputy commissioner of health, has direct charge of all sanitoria.

The addition of the Forney property enables the Commissioner to provide quarters for the working force at the sanatorium and apartments for the physicians and attaches who are married. An electric lighting system is being installed and new highways are being constructed from the base of the mountain to the institution. A co-operative store has been established and the patients and the attaches have the benefit of all modern conveniences. When the work has been completed, Mont Alto Sanatorium will not only be the most complete free institution maintained by any State in the Union, but it will compete with many of the larger private institutions, carrying on a similar work.

State Commissioner of Fisheries Nathan R. Buller has sent word to a number of persons who took out licenses to catch fish and eels in special devices that unless they file the returns required by law to show their catches he will refuse to issue licenses to them next year. Many of the men who operated such devices have ignored this provision of the law and may have trouble fishing next year, says the Commissioner.

A special committee named by the State Industrial Board to consider the State regulations for the making and sale of ladders has been summoned to meet in Philadelphia on Friday. A number of changes in the code are projected on the ground of safety and stability.

New forms of commissions for the officers of the Pennsylvania Na-

tional Guard are being prepared by Adjutant General Frank D. Beary and will be issued to all of the officers and commissioned for the new Guard. Over 60 are now being prepared for signature by the Governor when he returns to the city.

Edward Windowmaker and George Geesey, convicted in Can-

berland county in 1906 and sentenced to from five to ten years for maliciously damaging a railroad car have applied for pardon.

Chief Engineer W. D. Uhler, of the State Highway Commission, is at Louisville attending the Highway convention.
