

5,000 SHADE TREES ENDANGERED BY PARASITE PESTS

Big Loss Suffered Each Year by Neglect, Forester Reports

That 5,000 trees in Harrisburg are in danger of being destroyed by various species of insects which infect trees is the statement made by City Forester Louis G. Baltimore in a bulletin issued on "Harrisburg's Shade Trees."

A Health Builder For Weakened Lungs

Where a continued cough or cold threatens the lungs, Boleman's Alterative will help to stop the cough, strengthen the lungs and restore health. 50c and \$1.50 bottles at drug-gists, or from

The Plainest Vaults or the most elaborately designed monuments can be ordered here with equal satisfaction. To every order we give our best skill and attention. We make them either after your own ideas or we will submit a variety of approved designs for your selection.

Cemetery Lettering I. B. Dickinson Granite, Marble, Tile and Bronze 505-12 N. THIRTEENTH ST. Harrisburg, Pa.

city are lost each year by the ravages of insects, storms, accidents, building operations, street openings and paving. Mr. Baltimore asserts that less than ten per cent. of these are replaced by the property owners or by the city.

Harrisburg's loss from neglect, improper pruning and repairing is more than four hundred trees a year, representing a loss in money value of over \$15,000. Mr. Baltimore says: "A shade tree should be pruned at the very least, once every five years, better every three years. Under the present annual appropriation Harrisburg's shade trees cannot be pruned once in fifty years. The average life of a city tree is forty years, and according to our annual appropriation our trees could not be pruned once in their whole period of life."

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

College Professors' Union Meets With Wide Favor

New York, Dec. 10.—The new college professors' union, bound by its constitution to display only an academic interest in strikes, not only has taken root in sixteen of the city's institutions of higher learning, but has caused so profound an interest in other colleges and universities in the east that branches are likely to appear soon.

Dr. Henry R. Linville, president of Teachers' Union No. 5, in this city, and editor of the American Teacher, the publication of the American Federation of Teachers, said to-day that communications have been received indicating that college faculty members throughout the country are considering the advisability of unionizing.

2,000 Steel Strikers Will Return to Work

Wheeling, W. Va., Dec. 10.—Two thousand steelworkers at the Belaire plant of the Carnegie Steel Company last night voted to declare their strike off and return to work at once. The mill will be reopened within five days, it was reported. The workers at last night's meeting heard the report of the Belaire strikers' committee on operation of steel plants throughout the country, and then the vote to return to work was taken.

By a vote of three to one more than 2,000 employees of the Benwood mills of the Wheeling Steel and Iron Company also decided to return to work. It was expected that Benwood works would resume operations within a week.

Camp Hill American Legion Meets Monday

Camp Hill Camp No. 43, American Legion, will meet in the Ancania Club Monday evening for the annual election of officers. The meeting scheduled for Friday evening has been postponed.

MRS. CRAIG TELLS SOME GOOD NEWS

Giving evidence of a real cheerfulness, Mrs. B. Craig, 5412 Lancaster ave., Phila., says: "I suffered from catarrh of the stomach and was weak and run down. There were discharges from my throat and nose, and I had distress from the gas that formed from fermentation. I started to take Tanlac. It surely helped me wonderfully. Tanlac seems not only to relieve that hacking cough, sniffling, watery eyes, bad breath, sleeplessness, full head, and remove the catarrhal excretions, but it is blood-improving, appetite-giving, food-assimilating, nerve-quieting, strengthening and upbuilding. The genuine J. I. Gore Co. Tanlac is here sold by all leading druggists."

To Be Continued

SPROUL ASSAILS MEXICAN POLICY

Development of national resources, including the public land, was declared by the Governor of prime importance. He pointed to the railroad question as forming one of the most difficult problems awaiting solution.

Governor Sproul also declared that the people wanted relief from "the interminable meddling of government departments in their private and personal affairs."

Mrs. McCormick declared the women's division of the Republican party said women would support the Republican party because it is "the sole instrument for the preservation of nationalism and liberty."

Governor McKelvie, of Nebraska, who delivered the last of the keynote speeches declared Americanism was the outstanding issue and charged that the Democratic administration had used the slogan "make life safe for democracy" in such a "cunning way as to make possible a Government like that in Russia, rather than for edification of the ideals of the republic."

The Republican Congress, he said, had given a demonstration of adherence to national ideals "the like of which has not been seen in 50 years."

The farmer, Governor McKelvie declared, had borne the burden of the war and still was carrying more than his share. He said every effort of the Democrats to aid the farmers had been founded upon unsound economic measures which only made matters worse.

The governor predicted overwhelming success next year and said that in Nebraska, where there recently had been a Democratic state administration, the people were "praying for a closed season on Democrats in order that the party may not become wholly extinct."

After the address the committee formally confirmed the selection of Frederick S. Peck, of Providence, as national committeeman from Rhode Island, and H. O. Bursum, of Socorro, N. Mex., as national committeeman from New Mexico, and transacted other miscellaneous business.

The roll then was called for nominations for the convention city. Selection of the city was expected to be made later in the day.

Chicago the Favorite When the committee met Chicago still was the favorite, but St. Louis was making a stubborn fight for the honor.

Before adjournment a plan will be adopted for the formation of an executive council of the committee and of another body to work continuously until the convention on questions of policy and platform.

RECEIVED BY SUPERIOR Tokio, Monday, Dec. 8.—Admiral Albert Gleaves, commander of the U. S. Asiatic fleet, was with his wife and daughter presented to the emperor and empress to-day. An imperial duck hunt in honor of Admiral Gleaves has been arranged.

Congressional Probe of Conditions in Unorganized Fields Asked by Miners

Charleston, W. Va., Dec. 10.—Congressional investigation of conditions in the unorganized coal fields of West Virginia requested by officials of district No. 17, United Mine Workers, was the subject of letters received from several Senators and made public to-day by William Petry, district vice-president of the union. The communications, from Senator Charles L. Townsend, Michigan, and Senator Joseph France, Maryland, acknowledged receipt of resolutions adopted by the executive board of district No. 17, condemning conditions in the valley.

Senator Townsend, in his reply, declared the facts in the case should be presented to government authorities, and added that "I think that I can assure that if you make out your case you will obtain such relief as Congress has power to grant." Senator France said: "I greatly regret that such a condition should be prevalent in this great country."

Fordney Bill Is Passed in House

Washington, Dec. 10.—Without a record vote the House yesterday passed the Fordney bill designed to prevent foreign manufacturers from flooding American markets with products sold at a lower price in the United States than in the country of manufacture. The measure would authorize the Secretary of the Treasury to send agents to inspect the books and plants of manufacturers of exports to the United States, and to study prices of such merchandise abroad.

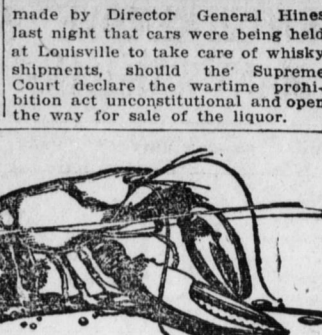

Hines Denies Cars Are Being Held For Shipments of Whisky

Washington, Dec. 10.—Denial was made by Director General Hines last night that cars were being held at Louisville to take care of whisky shipments, should the Supreme Court declare the wartime prohibition act unconstitutional and open the way for sale of the liquor.

DON'T BE A "LOBSTER"

Don't be a lobster, because he goes backward when he wants to go forward! Improve your health and cast out the poisons in the system, keeping yourself inwardly clean with a good laxative. If you can't sleep nights, if your head feels dull and thick, it may be due—and probably is—to auto-intoxication. This is the time to heed the warning, do not hesitate to take castor oil or that well-known tiny pellet made up of May-apple, aloes and jalap, and sold by every druggist in the land as Dr. Pierce's Pleasant Pellets.

The body is a highly organized machine of complicated parts in which the stomach, liver and kidneys work for the common good. If you clean the stomach, liver and bowels occasionally with Dr. Pierce's Pleasant Pellets you can keep well.

To keep the kidneys clean, drink plenty of water between meals; also, if you wish to escape half the ills which cause early deaths from kidney disease, affections of the heart, rheumatism and gout, drink a pint of hot water a half hour before meals. This with regular out door exercise, sensible food and occasionally taking "Anuric" (anti-uric-acid) before meals for a few weeks at a time, there is no reason why a man or woman should not live to be a hundred. Doctor Pierce's Anuric stimulates the kidneys, causing them to throw out the poisonous uric acid which causes us to have pains in the back, lumbago, rheumatism or gout. "Anuric" can be obtained at almost all good drug stores; or send 10 cts. to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. It always benefits and often cures the cause of kidney disease, as well as rheumatism and gout.

Young and Old-- EVERYBODY LIKES GOLDEN CROWN TABLE SYRUP because of its superior quality and delicious, rich flavor. GOLDEN CROWN TABLE SYRUP (blue label) adds the "finishing touch," the appetite appeal to those steaming hot griddle cakes, pancakes or waffles that make breakfast so welcome on brisk, cold, wintry days. GOLDEN CROWN TABLE SYRUP improves the flavor and taste of any food—it's healthful—it's nutritious—it's delicious. What Are YOU Doing to Overcome the SUGAR SHORTAGE? You can help a great deal by using GOLDEN CROWN WHITE SYRUP (red label) in place of sugar—in your cooking and baking—in tea or coffee—in candy making of any kind—or for table purposes. GOLDEN CROWN WHITE SYRUP is practically neutral in flavor—does not affect the color or taste of anything—but you can flavor it if desired. Your grocer sells both kinds of Golden Crown—White Syrup—red label Table Syrup—blue label Buy a can of each kind TODAY from your grocer. Steuart, Son & Co., of Baltimore
