How To Drive Away The Pains and Aches of Rheumatism

Woman Tells of Remarkable Recovery

In Three Days' Time After She Spent Hundreds of Dollars and Tried Almost Everything Under the Sun Without Getting Relief.

Only one who has suffered the terrible agonies of rheumatism, neuritis, sciatica or other inflammatory conditions can realize the feeling of joy and relief that came to me when first I realized that my pains and inflammation had disappeared and I was able to walk and work with perfect ease and comfort. I am a woman 53 years old and before using Cell-O-San, which produced such a marvelous change in three days' time, I had been flat on my back in bed for more than two weeks, unable to lift my arms or move my limbs without the most intense suffering. During two years I had been doctoring with all sorts of internal and external remedies, electricity, salts, poultices and plasters, but each thing I tried, if it gave even temporary relief soon left me in a worse condition than ever. I had reached a point where I thought my maladies were incurable, and completely lost faith in everything. Yet, within twenty-four hours after beginning this new process I was so encouraged by the improvement that I kept right on. In three days' time the pains had gone, and now after more than a month not only has there been no sign of their return, but I feel better than I have in years.—Mrs. C. M.
