

### NO RELAXATION IN COAL RULES

#### Officials Warn of Further Need for the Fuel Regulations

Washington, Dec. 11.—Expressions by Government officials of satisfaction and relief at the settlement of the Nation-wide strike of bituminous coal miners were coupled, to-day, with warnings to the American people that early relaxation of the drastic restrictions on the consumption of coal must not be expected.

Fuel Administrator Garfield immediately on receipt of word that the miners in Indianapolis had agreed to accept President Wilson's proposal, declared that immediate removal of regulations on soft coal consumption was not to be considered.

Director General Hines in a formal statement asserted that dislocation created by the strike could not be remedied instantly. The public, Mr. Hines said, will be expected to continue conserving fuel until normal conditions are restored but just as soon as practicable restrictions will be rescinded or modified.

"As a preliminary to bringing back normal conditions," said the Director General, "coal mined will be allowed to run as billed except the

tidewater and export embargo will continue; orders placed for coal to western regions from Pocahontas and Allegheny regions will be cancelled, but coal billed on these orders prior to cancellation will be permitted to go and be expedited so that these cars can be promptly released for mines."

The Railroad Administration, Director General Hines announced, would aid in meeting the needs of other consumers by reducing its supply to a 10 days' margin. The administration has been maintaining a 15-day supply.

While these two Government agencies directly concerned with distribution of the available supply of bituminous coal—which it is estimated has been cut 36,000,000 tons by the 40-day strike—were issuing their warnings, White House officials indicated that steps would be taken immediately to carry out the provisions of the President's proposal relating to investigation of wages and working conditions in the bituminous fields by a commission of three. In fact, it was intimated that the President already had practically decided on the appointments to the commission and was awaiting only the return of Attorney General Palmer from Indianapolis before announcing the names of the three members.

**WED AT GREENCASTLE**  
Greencastle, Pa., Dec. 11.—Harry A. Grove and Mary E. Lovell, both of Shady Grove, were united in marriage yesterday at the Lutheran parsonage by the Rev. H. B. Burkholder.

### ANOTHER NOTE SENT TO MEXICO

#### It Deals With Interference of American Oil Properties

Washington, Dec. 11.—Another memorandum on the Mexican situation from President Wilson is on its way to Carranza to-day. It deals with the interference of the Mexican government with the operation of American owned oil properties in Mexico and was drafted by Chairman Payne, of the Shipping Board, after representatives of the Associated Mexican Oil Producers, headed by E. R. Kellogg of New York, had presented the situation to him.

At the same time Mr. Payne prepared and sent to Secretary Lansing a letter urging the importance of protecting the American supply of Mexican fuel oil upon which the Shipping Board is almost solely dependent for fuel for its 500 oil burning passenger and freight steamers.

It developed to-day that the State Department has been continuing to protest to the Mexican government against decrees forbidding the drilling of new wells on privately owned property in the Tampico fields and other decrees affecting the oil interests of American and other foreigners in Mexico.

**Makes Third Note**  
Three notes have been dispatched within six months, but it was said that President Carranza had not replied to any of them. The first went forward last June 18, the second on October 1, and the third on November 18. In the first two the State Department specifically protested against the action of the Mexican government in preventing the drilling of new wells on property owned by Americans and insisted upon more adequate protection of Americans working in the Tampico oil region.

The note of November 18 was dispatched after receipt of official information that Carranza soldiers had seized another American owned well on November 12.

It is intimated that Mexican military forces at various times during the past month have stopped drilling operations of American companies on the pretext that "permits" to drill had not been obtained. In order to obtain the "permits" foreign oil companies must agree in advance that such wells as may be drilled should become the property of the Mexican government. The United States has repeatedly protested against these decrees in particular.

Certain American owned companies desiring to increase oil production to meet the present fuel oil shortage in the United States, it was said, have drilled wells without admitting the loss of their property by such acts. The State Department, both in formal notes and in informal communications, was said to have informed the Mexican government that this action by the American companies was not in defiance of the Mexican authorities, but only the exercising of rights acquired under Mexican law.

### Admits Killing Man Three Years Ago

Scranton, Dec. 11.—Jesse Murphy, gangster and gunman of Boston, now serving a 12-year sentence in the Farview Asylum for Criminal Insane, to-day made what he declared was a confession of the murder of Edward J. Foley, manager of the store at Foxbury, Mass., three years ago. Murphy's statement was made freely, his only motive in admitting the crime being, he said, to free Charles Rollins, a young man who had been convicted and sentenced to life imprisonment for the crime. The confession was secured by a Boston newspaperman who was accompanied to the asylum by a former friend of Murphy's.

Rollins, who greatly resembles Murphy, was identified by a woman who witnessed the shooting. After Rollins' conviction former friends of Murphy told the court Rollins was innocent. The court suggested they get a statement from Murphy that might result in a pardon for Rollins.

### End of the Strike Pleases President

Washington, Dec. 11.—Intense gratification was expressed in official circles here yesterday afternoon over the settlement of the coal strike. This announcement was given out at the White House: "The President is greatly pleased at the settlement of the strike."

Frank Morrison, secretary of the American Federation of Labor, said: "It is gratifying to every one."

### Civilian Suits, Bought For British Soldiers, For Sale

London, Dec. 11.—The Ministry of Munitions is offering for sale 250,000 civilian suits, the surplus of millions which were acquired for the clothing of soldiers after their demobilization.

On being demobilized, a soldier had the option of a suit of clothes or the equivalent in money, \$12. Thinking they could get better value for the money, large numbers of them took cash.
