## POWER OF RIVER HELPS IN STRIKE

York to Feel Garfield Fuel Order of Nation But Lightly

York, Pa., Dec. 11.—Enforcement of the restrictions on lighting and heating issued by Fuel Administrator Garfield to conserve the dwindling coal supply will fall so lightly on York that attention is once more called to the loss of the cities along the Susquehanna through the non-use of the full power of that stream.

All the current used in lighting and heating York, and running its machines, is not that generated by water power at York Haven, but so generally is it used, that with nearness to the anthracite field, to supplement it, this city expects to pass through the present fuel crisis with practically no hardship, and with little or no interference with manufacturing.

A big percentage of the factories is operated under power, and the main business houses, and the city in large part are using current for lighting generated at the falls at York Haven.

The plant there also furnished current for points in Lancaster and Dauphin counties, including Steelton and Harrisburg, but not to such large extent as here, where lines are being extended which will greatly enlarge the territory where water-generated current will be used for both light and power.

This is in line with the policy advocated by Secretary of the Interior Lane, and it will not be surprising when the effects of the present coal shortage have been fully felt, that some of the big engineers of the country, will give the Susquehanna and its possibilities as a heat, light and power source, closer examination. Experts have pointed out what might be done, by the river for the cities of the State can be gauged by what is being done already by the plants at McCall's Ferry and York Haven, for Baltimore, Lancaster, Harrisburg and York.

## Important to all Women

Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

## CARS CRASH ON MOUNTAIN ROAD

Machines Badly Wrecked and Occupants Strewn Over Highway in Adams

Gettysburg, Pa., Dec. 11.—A head-on collision between two Overland cars occurred on the Lincoln Highway about midway between this place and New Oxford. The occupants of both machines were thrown out and both cars are almost total wrecks. No one was hurt because of slow speed at which both machines were traveling. But the people in the cars were scattered all over the ground. The cars were the property of J. Lewis Topper, of Emmittsburg, and H. J. Stambaugh, of Hanover. The Stambaugh car had as its occupants four hunters returning from the deer camps in the mountains, while the other machine was occupied by Mr. Topper's family.

Foggy and misty weather prevailed and as the Topper car came toward Gettysburg, a machine was seen coming toward them on the left hand side of the road. Thinking the other car would go to the right, Topper came on but the driver of the other car evidently failed to see anything in his path, and it was not until Topper steered his car to the wrong side to avoid a collision that they were seen.
