"Gets-It" Peels Your Corns Right Off

Two Drops Will Do It Without Fuss or Trouble. Never Fails. There's only one way to get rid of a corn and that is to peel it off as you would a banana skin. There is only one corn remover in all the world that does it that way, and that

There's No Corn "Gets-It" Will Not 'Get' is "Gets-It." It is because of this fact that "Gets-It" is the biggest seller among corn-removers on this planet. It means the end of "corn-kidding." For hard, soft corns, very old corns, young corns, corns between the toes and calluses, it means a quick certain finish. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As usual to do as signing your name. It does away forever with tape, blisters, bandages, knives, corn-diggers, scissors, files and blood-bringing razors. Ease your corn-pains, be corn-free at last. "Gets-It," the only guaranteed, money-back corn-remover, costs but a trifle at any drug store. M'G by E. Lawrence, Chicago, Ill.

Combing Won't Rid Hair of Dandruff

Do this to-night, and by morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
