

OXFORD ASKS FOR AID FROM STATE

Cambridge, Too, in Need of Money; Big Change in Old British Schools

London, Dec. 12.—Oxford and Cambridge universities have applied for financial assistance from the state. The government has responded by appointing a commission to inquire into the matter. The chairman of the commission is the former Premier Herbert H. Asquith. There is no doubt in the public mind that both the famous universities are hard up but so also is the state and the present is not considered the most suitable time for obtaining any considerable grant from it. Meanwhile many of the undergraduates are finding it difficult to make both ends meet owing to the inflated cost of living. Efforts are being made by invoking the pro- teering act to enable them to procure necessities at less cost. Before the war it was possible for an unusually gifted youth to win scholarships which almost if not quite maintained him. Now when the minimum sum on which he can support himself while at either of the universities amounts to from \$1,300 to \$1,500 a year he cannot live on scholarships. The very narrow bridge by which the poor man might pass into the old universities has broken down. It is alleged that an education at Oxford or Cambridge has become again the exclusive privilege of the well-to-do.

HALL CAINE'S TITLE
Sir Hall Caine has written to a Manx paper which had familiarly addressed him as "Sir Thomas." "Thereby going back to the name by which I was known among my kin folk when I was a boy." He wishes to hall-mark his name, which stands for forty years of friendship and success which have been sweet, and perhaps for some failures that have left no sting. So he adds: "Please let it be Hall Caine, with or without the prefix."

London, Dec. 12.—Flat irons and saucepans are replacing the Pekingese pup and lunch basket of the touring actress now-a-days. Pastor Takes Job in Shop to Gain Living

Poughkeepsie, N. Y.—There is a merry row in the First Baptist Church in Beacon street, because the pastor, the Rev. Howard J. Kingdon, whose salary as pastor is \$1,000 a year, has taken a job in a local factory. The pastor explained that he was no longer able to live on \$1,000 a year, over in Beacon, and that his high cost of living has driven him to take up hat making as a side line. The protests against the pastor's action is led by a score of members of the church who went on strike at the hat factory a few months ago. The strike is still on. Pastor Kingdon is characterized by his enemies as a strikebreaker.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England several persons for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate passages and force the disease into the middle ear which frequently means total deafness. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions. Secure from your druggist 1 ounce of Furmint (Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Closed nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Furmint used in this way acts directly upon the blood and mucus surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

Mr. Kingdon claims that he can be a factory worker and preacher at the same time if the members of his church will let him. In addition to his salary as pastor, Mr. Kingdon has the free use of the church paragon. As a hat maker he can double his income. He says he will not resign his pastorate unless forced to do so.

BOOT-MENDING AT HOME
The calling-up of the village boot-maker or "cobbler" has seriously affected domestic convenience in many rural districts. His importance is suddenly recognized, and his loss has, in several isolated Mid-

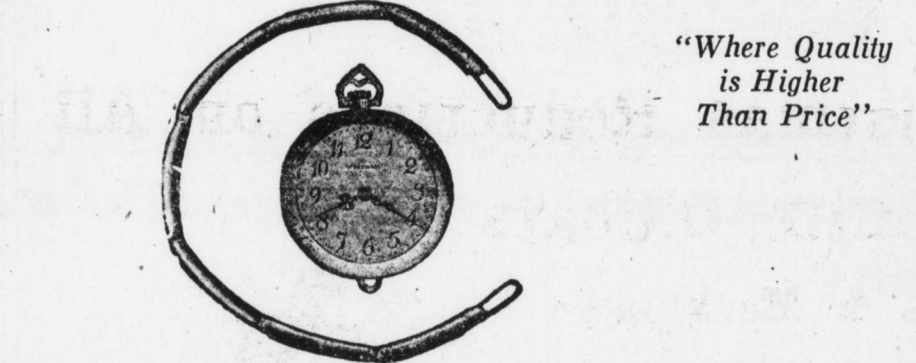

land hamlets, given a remarkable stimulus to boot-mending at home. Technical classes in soiling, heeling and patching have been arranged, and country women are rapidly acquiring the art of cobbling. Lady Petro declares that it should be as natural to do this at home as to darn stockings.
