

Jap Bankers Plan New Domestic Loan

Tokio, Dec. 13.—A syndicate of Japanese bankers had decided to issue a \$25,000 domestic loan so as to absorb the funds derived from redemption of a similar amount of British treasury funds which mature December 15. The new loan will be reckoned as part of the \$60,000,000 war loan and is expected to check an inflation of currency.

This 'Ad' is For Women Only

Mrs. Motorist. You no doubt have often been inconvenienced on the road when a tire blew out and you were unceremoniously asked to get off the seat and out of the way so that hubby could get the jack and the pump. You didn't like it, did you?

Had hubby brought that tire to us before it went so far as to blow out, he would have saved a lot of trouble and expense. As it is, now he must pay for a whole new section in that tire.

By our new method of retreading we give a guaranteed job. We not only put on a heavy tread of first quality rubber, but we place two layers of fabric on the inside, and we only charge the regular price for retreading.

So you can see why it is wise for hubby to bring his tires to us.

GOOD NEWS FOR FORD OWNERS

The Ustus LIMOUSSETTE Makes your Ford a Sedan at a very small expense.

By the addition of side curtains, applied in such a way that they act the same as the windows and doors of the Sedan, you can readily make your car rain proof, cold proof and an ideal winter car.

Let us show you the Ustus Limousette. It will convince you it is just the thing for your Ford.

Keystone Sales Company Announces New Policy

LOWER PRICE ON ACCESSORIES

New Prices Take Effect at Once; All Articles Included

The Keystone Sales Company, who have been selling automobile accessories and supplies for more than a year at 108 Market street, have announced a new policy in the sale of these accessories. Through arrangement with the manufacturers of automotive equipment they have secured a larger discount than heretofore, enabling them to increase the volume of their sales and very substantially lower the prices on every article.

This firm is composed of Harrisburg men—E. L. Cowden, G. G. Golling and W. T. Grove. They are also the distributors for Apperson Eight and Scripps-Booth Automobiles. They carry a complete stock of automotive equipment, tires, oils, gasoline, etc. The new prices that go into effect are in no wise of the order of a special sale. They will be maintained every day.

SWISS EXPEL ITALIANS Rome.—Among the Italian Socialists recently expelled from Switzerland was Gustavo Sacerdote, correspondent in Zurich of the newspaper Avanti, who came to Italy last September intending to settle here. When he attempted to return to Switzerland for his wife he was stopped at the frontier by the Swiss authorities and refused permission to enter.

MANY QUESTIONS IN NEW LICENSE APPLICATION

Lenses, Horsepower, Candlepower, Etc., Among Important Items

The man who makes application for a 1920 license for his car gets all the questions answered right the first shot about the box, knows something. Under the new motor law which applies to all 1920 licenses, the applicant is asked to give a minute description of the car, the body, the motor, the lights, whether it is a new car or a used one, when he bought it, whether it is used for pleasure or for commercial purposes, what kind of lenses used, the candlepower, etc., the name of the motor, the horsepower, the bore, the stroke and everything. On the reverse side of this application is another application, which if you can honestly answer every question contained therein you will be permitted to operate your car. In fact the many questions to be answered are of somewhat the same length as in the questionnaires sent out to drafted men during the war.

You are asked whether you have ever been held up for violating any traffic laws anywhere, the time, place, the offense, the verdict and the penalty. There is room for you to give information regarding these items. The details provided you haven't been pinched more than three times. The new clause in the new motor law makes it necessary for an applicant who has purchased a used car since July 1 to answer a few more questions. The amount of fee required to secure the license is somewhat different from last year, it being based on the horsepower. Forty cents per horsepower with a minimum of \$16.00 being charged this year. That means that the fee for a 17-horsepower car will have to pay \$10.00 for his license and the fellow with a 20-horsepower car will pay \$32.00. The penalty for any misstatement of facts in the application for one year or both. So get your application straight.

Many dealers and accessory stores are in the habit of telling you to answer the many questions. This is almost necessary due to the fact that the names of the manufacturers of the car, the lenses and other parts are required.

Middletown Few Arrests in Borough With Many Bars Closed Since July 1 only a few arrests have been made by High Constable Charles Houser, most of the hotels having closed. At a few bars light beverages are being sold but with no intoxicating liquor on sale few drunks have been found. The funeral of William Koons, Sr., who died suddenly at his home in Swatara street Tuesday evening, was held from the home of her son, William Koons, Jr., in Pike street, this afternoon, with services at 2 o'clock. The Rev. O. M. Kraybill, pastor of the Church of God, officiated. Burial was in the Middletown cemetery. The pallbearers were six members of the Rescue Hose Company, of which Mr. Koons was a charter member.

John Detmler has the contract to concrete the basement in the local shoe factory plant. Miss Eva Mae Keiffer, daughter of Mrs. John Keiffer, of Raytown, and Harry H. Geesey, son of Mrs. Grau Geesey, of town, were united in marriage at the Methodist parsonage, North Union street, Thursday evening, by the Rev. James Cunningham. The groom recently returned from France, and was mustered out of service.

The Middletown Auto Club held its regular monthly meeting at the office of A. H. Luckenbill, North Union street, Thursday evening. A. H. Lau, president of an auto insurance company, was present and explained the details of the insurance. Charles Berrier, H. S. Rothland, D. W. Huntzberger were appointed as a committee to go into details concerning better road construction, to assist the committee of the borough council.

MORTGAGE ON A CAT There was filed in the office of the recorder of deeds in Stockton, Mo., the most unusual chattel mortgage ever presented at the office. The articles mentioned to secure a debt of \$46 were as follows: One shotgun, one Winchester rifle, two violins, one black tomcat with white feet, named Tom. It was not specified that the guns had hammers nor the fiddle with bow, but the identification of the tomcat was not left in doubt, indicating that the cat was considered by the mortgagee the most valuable part of the security.—St. Louis Republican.

HOPE ABANDONED "Conscription has, maybe, saved the country," growled the Tommie, "but what I object to is the company it drives a man into. I'm a plumber by trade and an honest workman, yet I'm compelled to suffer the society of such professionals as a lawyer, a minister and an auctioneer." "Not a bad selection at that, Bill," remarked his friend. "Oh, maybe not in a way, but when the minister and the lawyer start an argument on Egyptian law in the middle of the night across a half dozen beds what chance has even a plumber of stoppin' the gas leak?"—Minneapolis Tribune.

New Realty Firm Established Here

George W. Hauck, of 221 Emerald street, has organized the real estate and insurance firm of G. W. Hauck Company, with offices at 202 Calder Building, 16 North Market Square. In speaking of the aims of the new company, Mr. Hauck said: "We are not anxious simply to do business with the people of Harrisburg so much as we are anxious to give service and satisfaction to every one. We aim to give our undivided attention to each property placed with us for sale.

"The high cost of materials and labor and the consequent action of the law of supply and demand have made the housing situation acute all over the country. "The only solution, of course, is in production. In the spring we hope to do our bit in solving the problem for Harrisburg by erecting a number of dwellings. No, nothing extraordinary, but it will help, and we believe it is a step in the right direction."

WORST IS LAST. On the Bassans docks at Bordeaux, France, an old-time sergeant of a negro regiment was having trouble with a detail of men of his own race, who seemed inclined to loaf on their work of loading box cars with provisions for the army of occupation. Addressing one negro, who was especially lazy, he exclaimed: "Come on, you. Git to work, dar!" "Shucks, sergeant," replied the lazy one, "Ah 'listed foh de wah, an' hit's over." "Yo' all's a durn fool," the sergeant yelled. "Yo' 'listed foh de wah, Y-a-s-s! An' also foh de duration of de wah. Now, nigger, de wah hit's over, but de duration, hit's jes' done begun."—Ernest Hamilton Baxter, Fifth-eighth Artillery, in Judge.
