First and Refunding Mortgage Gold Bonds (6% Ten Year Series A)
Dated December 1, 1919 Due December 1, 1929

TAX PROVISIONS: These bonds will be free of the present Pennsylvania Four Mill Tax. The Company will agree to pay interest without deduction for any Federal Income Tax to an amount not exceeding 2% which it may lawfully pay at the source.

Earnings
(Gross Earnings)
Operating Expenses, including Maintenance and Taxes
Net Earnings
Annual Interest Charges on Funded Debt in hands of public, including interest on above \$4,000,000 First and Refunding Mortgage 6% Bonds

Approximately 85% of the above net earnings were derived from the Company's electric light and power business. It is estimated that there is now available sufficient additional electric business in the territory to permit the Company to more than double its present load as soon as the increased power facilities requisite therefor are provided.

The First and Refunding Bonds will be secured, in the opinion of counsel, by a first mortgage upon all the property in Cambria and Somerset Counties formerly owned by the Penn Electric Service Company together with the Company's large new office building in Johnstown, and upon the balance of the property by a direct mortgage subject to \$3,612,000 underlying divisional bonds (closed mortgages). These bonds will be further secured by the deposit with the Trustee of \$1,535,000 additional of said underlying divisional bonds.

TAX PROVISIONS: These bonds will be free of the present Pennsylvania Four Mill Tax. The Company will agree to pay interest without deduction for any Federal Income Tax to an amount not exceeding 2% which it may lawfully pay at the source.
For further information regarding these bonds, attention is called to the letter of Mr. F. T. Heppburn, President of the Company, copies of which will be furnished on request, and which states that:
The Penn Public Service Corporation owns and operates an electric light and power system serving over fifty communities in Cambria, Somerset, Indiana, Clearfield, Centre and Westmoreland Counties in western Pennsylvania. It also does some incidental artificial gas and steam heating business, and through a subsidiary renders natural gas service in Johnstown and its suburbs. The territory served by the Penn Public Service Corporation has an aggregate population estimated to exceed 390,000, the principal cities being Johnstown, Somerset, Clearfield, Indiana, Philipsburg and Blairsville.

Net Earnings Over Twice the Above Interest Charges
Approximately 85% of the above net earnings were derived from the Company's electric light and power business. It is estimated that there is now available sufficient additional electric business in the territory to permit the Company to more than double its present load as soon as the increased power facilities requisite therefor are provided.

These bonds will be further secured by the deposit with the Trustee of \$1,535,000 additional of said underlying divisional bonds.
The replacement value, as determined by independent engineers, based on pre-war prices, of the present physical property of the Company is substantially in excess of the amount of First and Refunding Mortgage Bonds for which it may be made the basis of issue, and of all underlying divisional bonds outstanding with the public.
The Company operates under the supervision of the Public Service Commission of the Commonwealth of Pennsylvania.
Bonds are offered for delivery when, as and if issued and received by us, and subject to approval of counsel of the legal details of the transaction. It is anticipated that temporary bonds will be available for delivery on or about December 29, 1919.
