## MINERS BACK AT TASKS IN STATE

### Operations Are Still Delayed in Broad Top and Two Other Regions

Altoona, Pa., Dec. 16.—With the exception of two or three districts, the miners throughout the Central Pennsylvania bituminous field have settled down to work, at many places 100 per cent strong. The chief points at which the resumption of operations has been delayed are the Broad Top, Osceola and Houtzdale districts.

The Pennsylvania Coal and Coke Company, which operates 47 mines at various places over the field, reports operations resumed at practically all points, including Barnesboro and Amsbury, where some local difficulties have been adjusted. At Spangler and Bakerton fully 90 per cent of the men are now at work and South Fork reports a 100 per cent return to the mines on the part of the men.

The car situation is good now, as the sidings everywhere were filled with empties. However, thousands of cars were sent out of their normal latitude during the strike, particularly to the west and by another week, especially if the weather proves severe, there may be some trouble experienced in getting the cars back to the lines where they belong and there may be some loss of production due to lack of cars.

## OLDEST BUCK IS STILL AT LARGE

### North Mountain Hunters Fail to Bring Down 12-Pronged Deer in Franklin County

Fort Loudon, Pa., Dec. 16.—"Apple Jack," 12-pronged monarch of the North Mountain forest and the leader of the deer herd, again escaped the guns of the scores of hunters who roamed the mountain in the season that closed yesterday. One hunter said yesterday that this monarch of the herd has been shot at 13 times and bears no wound marks except many he must have received in his flight over and through barbed wire entanglements. From bunches of hair left at different places hunters say this particular old 12-pronged buck carries with him not enough good hide to make a cut for a pair of buck skin gloves, but that ever his tanned skin be procured.

It is proposed that a tablet be placed on the huge boulder named the Dry Tavern on the road to Mount Parrish in memory of "Apple Jack," the chieftain of the hunters' tribe, from which place a pointer shall direct the weary hunter toward the big rocks in one of which is a basin said to be always, even in dry season, filled with water for the thirsty, and where, tradition says, Tuscarora chiefs bathed their weary limbs when heated in the chase. Hunters may speculate on what nimrod is to have his name on the Dry Tavern in the last drive at "Apple Jack."

## SADLER APPROVES FINE STATE ROAD

### Stretch of Chambersburg-Gettysburg Pike Thrown Open to the Public After Six Months of Detouring and Inconvenience; Motorists Enthusiastic

Chambersburg, Dec. 16.—The seven miles of the Lincoln Highway between this city and the eastern terminus of the road, which since last April because of reconstruction into a concrete road, was reopened to the traveling public yesterday without ceremony. Highway Commissioner Lewis S. Sadler made a thorough inspection and expressed satisfaction with the work as completed, confirming the enthusiastic verdict of all who have seen and tried the new road. The bed is 18 feet wide and is of concrete with steel netting re-inforcing and ditches on both sides. Engineers say there is nothing newer or better in roadways and the job as finished shows the very best and latest thing in that line of public improvement. While the entire road has been thrown open to the public the Downey's Hill section is not yet finished. A bridge may be built over the Waynesboro branch of the Susquehanna River from the Downey's Hill to the hill reaching up into Fayetteville, thereby removing a dangerous grade crossing where but recently a death occurred when a train hit a state of wagon. Tourists and those living along the highway have been compelled to make long detours for six months and have done so without much grumbling and now they are highly delighted with the magnificent stretch of highway, better than most city streets.

# DIAMONDS

To those who are thinking of giving a Diamond this Christmas, this will be of special interest.

- (1) We said that we knew of no other stores selling Diamonds of equal quality with ours, at such low prices.
- (2) We stated that in our seventy years in business not one customer has ever said to us, "this Diamond is not as you represented it."

Whether you intend to spend \$25.00 or \$2500.00, you have a right to receive full value and to feel confident that you have received it. For seventy years that is the confidence our customers have been placing in us, and not once has that confidence been betrayed.

If you are going to buy a Diamond this Christmas the most important thing to do is to yourself. "Can I afford to buy a diamond elsewhere than Boas?"

**Ends Stubborn Coughs in a Hurry**

For real effectiveness, this old home-made remedy is easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared and really there is nothing better for coughs.

Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant — children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guarantee to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.
