

**German Millionaire Sentenced by British**

Duesseldorf, Germany, Dec. 18.—Herr Scholze, a German millionaire of this city, which is in the occupied area, has been sentenced to six months imprisonment by the British

Summary Court for insolence to a British officer, and for failing to supply adequate heating in the rooms of his house in which British officers were billeted.

**ORIGIN OF "PUSSYFOOT"**

It was by his work in protecting the Indians in South Dakota, by the strict enforcement of the United States statutes against introducing liquor into

Indian reservations, that William E. Johnson, now working for prohibition in England, acquired his title of "Pussyfoot" according to former government officials who knew him well in this state in 1919.

Mr. Johnson was at that time employed by the government to watch the Indian reservations of the West and had his headquarters in Denver. His vigilance in following up the constant importations of liquor into

the South Dakota Indian reservations brought him much publicity. It was asserted by his detractors that he used "pussyfoot" methods, and the name was promptly applied to him in the newspapers and stuck to him.

Mr. Johnson made scores of arrests in this state in his campaign. He never hesitated to ride day and night to reach his destination, whether by automobile, train or horseback. After leaving this section he went

into Northern Minnesota, where he carried on the same energetic campaign on behalf of the Indians against the liquor traffic.—St. Paul, S. D. Dispatch in Christian Science Monitor.
