What kind of material has been taken and when it was taken could not be learned definitely to-day 'from the probers.

His tribunal," consisting of the "hine ablest men available, five representing the public, two the operators and two the miners" is the only competent commission to handle the difficulty.

Declaring that the operators had not changed their attitude toward arbitration. Mr. Watkins asserted, however, that they objected to the "three-man commission" because it consists of two men "personally personally in the controversy, and only

Accomplices Suspected

It is 'understood, however, that practically all kinds of the many goods handled at the depot have been included among the loot taken from the supplies. These have been sold, it is said by persons at the depot to accomplices on the outside for resale.

The operations of the looters are understood to have extended over considerable time. It is the method of operations, however, that are puzzling to the investigators. It was hinted to-day that goods in certain instances were not checked when received.

It is also thought that Pennsyl-

received.

It is also thought that Pennsylvania railroad employes may have co-operated in the thefts. This could have been worked, it is explained, by permitting quantities of goods to remain in the railroad cars and afterward removing the cars to some other point where the material might safely be unloaded and removed. Color to the theory of participation of railroad employes in the case is lent by the fact that railroad police are taking an active part in the investigation.

The investigation is in charge of Colonel Charles J. Simmons, He is being assisted by ii. C. Arnold, Ira E. Gaynor and Major G. V. Peters, of the Military Intelligence Department. United States Deputy Marshal Harvey T. Smith and railroad police are allo giving all assistance possible.

Despite some newspaper reports, the investigations have not involved the Middletown Aviation Depot.

A THRIFTY SUITOR

Wilson and authorized to investigate miners' wages and working conditions, and increase coal prices if necessary.

Indianapolis, Dec. 22. — Declaring that violations of the Federal court's injunction under the Lever act against furthering the coal strike in Kansas must stop, if persons guilty have to be put in jail and kept there, U. S. District Judge A. B. Anderson to-day permitted Alexander Howat, president of the Kansas district of the United Mine Workers until next Monday to prepare his defense of charges of contempt of court.

Henry Warrum, chief counsel for the international organization of the miners, and Howat were given until 2 o'clock this afternoon to present to the court some evidence that violations of the injunction charged against the miners' district official will not be continued during the interim from now until the hearing on next Monday. Otherwise, Judge Anderson declared, "has openly and defiantly disobeyed the law.

"This court and the law has been defied and flouted. I've got to stop it, if the law is to be upheld. Either I must do it or we must acknowledge that the organization for which he stands is supreme to the government. This man's violation must stop or I will put him in a cell and keep him there."
