to-day opened for traine several sec-tions of State highway which have been under repairs, including the part of State route No. 1 between Dauphin and Clark's Ferry in Dau-phin county, over which the William Penn and Susquehanna trail high-wars reach the State capital. This section has ben closed since early summer. This shortens the time to Duncannon from Harrisburg by twenty minutes. The Hugh Nawn Company several months ago was awarded a contract for the construction of approximate-ly six-and-one-half miles of con-crete and Hillside brick highway between Dauphin and Clark's Ferry bridge. All of the concrete surface has ben completed except for a short distance in the borough af Dauphin. As a result there is a short detour at this point. Not all of the Hillside brick has been laid and, consequently, the travel is over the concrete foundation at points where the brick remians to be put down.
