

### KANSAS MINERS RETURN TO WORK

#### Adopt Motion to Call Off the Strike; Affects 1,500 Workers

Pittsburgh, Kan., Dec. 27.—All striking miners in the Kansas district were expected to be at work today, following a motion last night calling off the strike.  
The action affects thirteen mines, in which approximately 1,500 men are employed.  
The conference yesterday was held in conformity with the promise given Federal Judge A. B. Anderson, of Indianapolis, by Alexander M. Howat, president of the district, that

he would use his influence in having the strike ended.  
No action was taken on the strike in effect on the Bronson, Rogers and Hunt mines since December 18. This strike was called because of the refusal of the men to work with a former member of the union who had worked with the State volunteers during the recent general strike. Howat stated that the board would not act on the strike.

### Whisky Ready to Be Shipped to Seaboard

Pittsburgh, Dec. 27.—Five thousand barrels of whiskey were being loaded here last night in the hope that it might reach the seaboard in time to be shipped abroad before national prohibition becomes an accomplished fact January 18.  
Distillers said it was the first of a large amount of liquor held in this district which had been sold in Europe, but they had little hope of getting more than one-tenth of it out of the country. More than ten million gallons, it was said, were still in warehouses in this vicinity.

### TO ADD OFFICES TO COURTHOUSE BELLEVUE PARK TO BE BOOSTED

#### Report of Big Addition With-in Short Time is Officially Denied

Preparation of plans and specifications for alterations to the Court-house have been started by C. M. Hershey, county engineer, it was announced to-day.  
The County Commissioners authorized Mr. Hershey to make plans for alterations on the east side of the building at the entrance. The east stairway to the second floor will be used by the contract. The elevator shaft and the front of the building, about eighteen feet in length and fourteen feet in width, two offices will be constructed.  
The office on the first floor will be used by Register of Wills Edward H. Fisher, and on the second floor by the county collector, who will likely be Frank B. Wickersham.  
As soon as the plans are completed, bids will be asked and, if not too high, the contract will be awarded at once. Increasing need for office room, particularly for the Register of Wills, who is now using a corner in the County Recorder's office, necessitates the action, the Commissioners said.  
The report that the county will employ an architect next week to begin at once plans for a big addition to the rear of the Courthouse was denied to-day by the Commissioners.

### Allison Hill Trust Company to Move Soon

Work will begin Monday on the two-months task of moving the Allison Hill Trust Company from its present quarters at Thirteenth and Market streets to the new building which it will occupy across the street. It was said this morning at the trust company that they expected to complete all moving and be ready for the transaction of business by March 1. The building is owned by the trust company, but only the first floor and the basement will be occupied for banking purposes. The other floors will be rented. The new quarters will be more convenient and better in every way. Three times the floor space which the present quarters afford will be used in the new building, and ventilation and lighting have been taken care of in a more efficient way than in the present quarters.

### Present Price Levels to Be Maintained

The real estate forecast for the spring of 1920, by Stanley Backenstoss, of the Backenstoss Realty Company, which appeared in the Telegraph last Saturday, has aroused a great deal of comment among men interested in real estate affairs. Due to an omission by the compositor, the name of Mr. Backenstoss was not published with the article, and many have inquired as to the time to find out the author of the forecast.  
While some real estate men are of a more optimistic opinion the statement that present prices will continue and probably go even higher has been subscribed to by many.

### Rebels in Eastern Siberia Win Victory

By Associated Press  
London, Dec. 27.—The rebels in Eastern Siberia says a Moscow wireless dispatch, have completely severed all communications on the Amur and Blagoviceshtensk has been completely cut off. It is said that Galician troops, intended for the defense of Kiev, have revolted against General Denikine, the anti-Bolshevik leader in the south and attacked the volunteer army in the rear.  
The Bolsheviks have captured Tomsk and also the towns of Pastoff, Vassilkov, Kremenchug, Izium, Belovodsk, Makeyevka and Kolskitcha, according to a wireless dispatch received from Moscow.  
The communication adds that after the capture of Tomsk the Reds advanced from Novo Nikolayevsk to the main line of the Trans-Siberian railroad and occupied the station of Talga, taking an enormous amount of booty and a number of prisoners.  
"The road to Krasnoyarsk and Irkutsk is now open and Admiral Kolchak's army in this region has ended its existence," says the communication.
