

MARTIN NAMES 8 INSPECTORS

Commissioner of Health Extending Organization in Rural Schools of State

Appointments of eight inspectors of schools in various parts of Pennsylvania were announced today by Col. Edward Martin, the State Commissioner of Health...

The medical inspectors named were Dr. Raymond P. Wivell for Heidelberg and Rossing farms boroughs, Leet, Findley and Moon townships, Allegheny county; Dr. W. L. Henderson for Milfin and Scott townships, Allegheny county; Dr. Emerson Schultz, Danville; Dr. L. C. Brown, Lawrenceville borough and Lawrence township, Tioga county; Dr. R. B. Varden for Peters township, Franklin county; Dr. W. R. McClellan, Garrett borough; Dr. John Hardenberg for Huston, North and Taylor townships, Centre county.

Registrars named included: D. S. Norton, Newton Hamilton and Wayne townships; Ambrose J. Carey, Winton borough; Mrs. Doris R. Reed for Bradford, Lewis Run and Bradford, Foster, Corydon and Lafayette townships, McKean county.

According to State Game Commission reports it is believed that close to 100 deer were killed by hunters of the State during the deer season, 50 arrests having been already made by game wardens on charges of illegal shooting of deer and fawns. In most of these cases heavy fines were imposed. In some instances, carcasses in some instances.

County officials of Pennsylvania will be called upon by the State Department of Agriculture to vigorously enforce the dog license code of 1917 during the coming year. All registration will expire this week and many thousands of dogs must be registered. In some sections of the State complaints have been made of dogs running at large and destroying sheep and of districts where the license law is not enforced very strictly. The State will call upon counties for reports as to the manner in which the law was carried out, including the shooting of unlicensed dogs in rural districts.

Numerous applications for certificates for the operation of jitneys in Philadelphia and Pittsburgh will be disposed of by the Public Service Commission during the coming week and some will be rejected because the applicants will not have satisfied the Commission as to responsibility in case of accidents or because of failure to take out citizenship papers after long residence in this country. The latter feature has been brought out at a number of hearings. The Commission will also insist upon posting of the scale of charges.

Automobile license tags are being sent out by the State Highway Department at the rate of over 5,000 a day and applications are coming in almost at the rate of 10,000. The force will work day and night this week and with additional help it is expected that the first of the year will find shipments well advanced. The rush for automobile licenses is causing heavy receipts, virtually all of which is in the form of certified checks. Thousands of dollars are taken in every day. The department has renewed its warning that persons who display only 1920 tags in advance of January 1 are liable to arrest as the 1919 tags must be used until the end of the year.

The Attorney General's Department has started proceedings to close up the various receiverships of financial, insurance and other concerns which have been hanging fire for years and has called up receiverships and auditors to file reports. Some of the receiverships are understood to have run over five years and the State will likely collect fees in certain cases. In event that action is not taken, it is possible that rules to show cause why reports should not be filed will be asked for. A drive is being made in Philadelphia for recruits for the old First Regiment. Meetings are being held at the armory and veterans of the organization are being enlisted. Governor Sprout has been asked to call the new Philadelphia-Camden bridge the Victory bridge. The next Legislature will make an appropriation to start construction.

Officers of the State Department of Public Instruction have gone to Philadelphia to attend the opening of the annual sessions of the State Educational Association. The organization will meet here next year. J. William Morgan, of the State Fire Marshal's office, is on a tour of inspection throughout the State. Governor Sprout is expected to name the Westmoreland county orphan court judge within a few days. The Governor will be here tonight. United States Senator Philander C. Knox appeared as attorney for the Henry C. Frick estate today in a complaint before the Public Service Commission against the classifications of Pittsburgh steam heating companies which involved Frick buildings in that city. The matter is one of wide importance as it would affect most of the office buildings and stores in Pittsburgh. It was Mr. Knox's first appearance here in years.

State Health Department officials were to-day engaged in gathering all information possible regarding cases of wood alcohol poisoning following Christmas sprees and said that all facts would be certified to Federal authorities. The powers of the State government in such matters, beyond the usual police powers, are being looked up. For the present the State is co-operating with the United States officials.

Bryan Weaving Web to Make 1920 Issue 'Labor Against Capital'

Washington, Dec. 29.—William Jennings Bryan, the radical, the preacher in politics, a popular figure in Democratic ranks, is to the front seeking to make the chief issue in 1920 the war between labor and capital.

Inspired by a desire for vindication against the Wilson Administration, the "Commoner" is working for a situation which will give him control of the party and make it possible to stampede the convention for himself or pick the nominee.

As the politicians and leaders in public thought scan the horizon for Presidential candidates and appealing platforms for the 1920 platform, it is becoming more evident that the issues which will divide the two parties will be industrial aspects which the country faces, the fight for supremacy between capital and labor as evidenced in the steel and coal strike and the demands of railroad employees for increased wages.

Better Times Coming With Prohibition

The Rev. E. E. Snyder, pastor of St. Matthew's Lutheran Church, last evening predicted better times for the new year with prohibition reigning in America. The Rev. Harvey Klaer, pastor of the Covenant Presbyterian Church spoke on the League of Nations, deploring the playing of politics and pleading a gospel of selflessness for nations and individuals. The Rev. W. E. Dougherty, pastor of the First United Brethren Church, spoke for "New Year's Resolutions, made in good faith and kept."

Speaking at the Central Y. M. C. A., the Rev. Dr. Robert Bagnell, pastor of Grace Methodist Church, declared that the new year was not the time for post-mortem and alibis, but the time to pick out the weak spots of the past year and strengthen them. He compared life to golf, saying that if people would only stay on the fairway, in the straight path, they would be bound to succeed. The Rev. Irvin E. Deer, State supervisor of the Pennsylvania rural survey for the Interchurch World Movement, spoke last evening at the Paxton Presbyterian Church. He declared that not enough young people were giving themselves to the church, and that no encouragement was given in the home for young men to go into the ministry. As an example of the way the church deals with her servants, Dr. Deer said that in one state every county almshouse has at least one aged preacher in it.

Governor's Troop to Seek New Recruits

Plans for a recruiting campaign for the Governor's Troop will be made tomorrow evening at an organization meeting to be held in the Hope Enclave, North Second street. The complete organization will include 72 men. One-third of this number, who are all others, will be recruited for only one year if they had been in the service previously, while all others enroll for a period of three years. Many applications have been received from former servicemen.

The catechetical class will meet in Friday evening. Milton Bardsenlager, of Dundee, Mich., is spending two weeks as the guest of his parents, Mr. and Mrs. Joseph Bardsenlager, at Buck Lock. This is Mr. Bardsenlager's first visit in 12 years. The holiday dance held in Krauss Brothers' Hall on Friday evening for Miss Dorothy George, was attended by more than one hundred guests.

New York Robbed of \$25,000,000 by Criminals in 10,000 Separate Thefts

Washington, Dec. 29.—Criminals in 10,000 separate thefts, robbed the people of New York of cash and goods amounting approximately to \$25,000,000 during 1919, according to the New York Tribune to-day. The estimate was given to the Tribune by officials of thirty-two burglary insurance firms in the city. The insurance men say the year just ending has been the most disastrous in their history. The number of robberies increased by more than thirty per cent. over last year and the value of the goods stolen was almost doubled.

The principal losses, as itemized by the Tribune, are: Silk industry, \$2,000,000; jewelry, \$1,500,000; trucking firms, \$1,500,000 and jewelers \$1,000,000. The total of Liberty bonds and other securities appropriated by youthful bank messengers will exceed the \$1,000,000 mark the paper says.

Norway Is Suffering From German Competition

Christiania, Dec. 29.—Norway is beginning to suffer from German competition, say leading Norwegian businessmen. Prices for machinery and steel construction are said to be 40 per cent. cheaper in Germany than in Norway. The finished product imported from Germany costs only about as much as the raw or unfinished product would cost in Norway. Reports from Germany say that industry there is growing rapidly. The low rate of German exchange, it is pointed out, makes Germany's competition in foreign markets much keener.

Norwegian electrical power plants now under construction are buying their turbines in Germany because they are so much cheaper there that they cannot afford to buy them at home. It is claimed that at present Germany is able to beat any competition here on the products for which she herself can furnish raw materials. Lack of shipping facilities is said to be the only thing that prevents Germany from dumping her products on Scandinavian countries at prices so low as to kill all competition. Leading Norwegian businessmen have been made rather pessimistic by this condition.

Y. M. C. A. Plans Big New Year Entertainment

New Year's Day is going to be one of the biggest days of the year at the Central Y. M. C. A. for something has been planned for practically the entire day. The program will include volleyball and basketball games and physical drills under the direction of C. W. Miller, with teams from the various classes participating. In the afternoon the social committee of the "Y" has planned an entertainment for the children from the various homes about the city. They will be brought to Fahnestock Hall and shown a program of the funniest "movie" that C. Floyd Hopkins was able to secure; a magician who is said to out-thurston Thurston himself and a dozen other acts. In the evening the members and their guests will spend the evening in Fahnestock Hall, in the social rooms and in the gymnasium.

Coal Operators See Price War in Spring

Chicago, Dec. 29.—Coal mine operators here fear a price-cutting war next spring, due to the fact that it is easier to keep the mines operating at cost or even a little below rather than shut down. Operators declared the only step which will prevent a price-cutting war will be amendment of the Sherman antitrust law allowing operators to establish a sliding seasonal scale of coal prices and to arrange for sliding freight rates with the railroads.

Compiling History of 79th Division

Philadelphia, Dec. 29.—Announcement to the effect that Seventy-ninth Division Association was going to erect a monument to members of the division who lost their lives in France at Montfaucon has caused much discussion and awakened interest in the affairs of the association. So lively has this interest become that increased impetus has been given to the project of publishing the history of the division. Under the direction of Major General Joseph E. Kuhl, commander of the division and president of the association, this history was written by two officers of the division.

BRINGING OLD WINE OUT Rheims, Dec. 29.—Labyrinthine wine cellars beneath the cities of Rheims and Eperny are being rapidly put in order by the big champagne firms of the two cities. These cellars which would form a subterranean gallery 60 miles in length, hold hundreds of millions of bottles of precious vintages, and notwithstanding the fact that this region was for four years under fire from German or Allied guns, they suffered comparatively little damage. Losses incurred by the wine industry, while they will place a heavy burden on firms for a while will be recouped in a short time according to statements made to the Associated Press correspondent who is visiting the former battle zone under special permission from the French government.

CARNEGIE TO AID EMPLOYEES Youngstown, Ohio, Dec. 29.—A comprehensive plan to help the employees of the Carnegie Steel Company improve their condition was announced to-day by J. H. Grose, general superintendent of the Youngstown district. The plan includes building homes for the workmen, loaning the men money at lower rates than those charged by the banks, with which they can build their own homes, establishment of schools in which foremen will be trained in the art of handling men and establishment of a bureau to give legal, financial and social advice.

OHIO PAPER ADVANCES PRICE Cincinnati, Ohio, Dec. 29.—Effective January 1 the Cincinnati Enquirer's Sunday edition will be increased to 5 cents, due to the advancing cost of newsprint, it is announced.
