District Engineers Are Transferred and Other Changes Announced

A reorganization of the field force of the State Highway Department...

W. R. Wolfinger, district engineer with headquarters at Allentown, is promoted to be assistant construction engineer...

Under the reorganization, as announced by the State Highway Department, the 18 districts of the State are in charge of the following district engineers:

District No. 1, composed of Clinton, Centre and Clearfield counties—D. C. Stackpole, with headquarters at Bellefonte.

No. 2, composed of Dauphin, Lebanon and Lancaster counties—C. W. Erisman, with headquarters at Harrisburg.

No. 3, composed of Columbia, Snyder, Montour, Northumberland, Union and Sullivan counties—H. G. Erisman, with headquarters at Harrisburg.

No. 4, composed of Venango, Mercer, Lawrence and Butler counties—C. H. Buckius, with headquarters for the time being at Franklin.

No. 5, composed of Northampton, Lehigh, Berks and Bucks counties—

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds in the influenza declare a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and croup and keeps the nasal passages and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

Senrecos is the dentrifice that contains the properties recommended as ideal by United States Army dental surgeons

The title of all the new men placed in charge of districts is "Acting District Engineer."

The Public Service Commission today ordered abolition of four grade crossings on the State main highway east of Erie and the construction of a subway at Harbor Creek Station. The opinion, which was written by Commissioner John S. Rilling, disposes of proceedings which were begun when complaint was made against crossings of the New York Central, Nickle Plate and other railroads and the Buffalo and Lake Erie traction company and East Erie Commercial railroad desired to make certain crossings. The opinion relocates highways and makes various orders for changes which will amount to approximately \$315,075.90. The Commercial line is to pay \$24,640; traction company, \$14,744; State Highway Department, \$20,502; Public Service Commission, \$10,000; New York Central, \$97,622; Nickle Plate, \$44,332; Harborcreek township, \$15,400 and Erie county, \$101,319. The commission also orders payments by the various parties to the county for shares of the improvement.

Men appointed mercantile appraisers by Auditor General Charles A. Snyder, last night, will be sent instructions immediately by C. W. Myers, chief of the county bureau, to whom they will report. One of the prime requisites will be a prompt report. The appraisers will start their work within a few days and collections will begin about the same time as heretofore.

Attaches of the State Highway Department's automobile division have had so many applications for license tags in the last twenty-four hours that there may be an extension of time granted.

Senator Max E. Leslie, of Pittsburgh, was a visitor here yesterday. The first complete compilation of the production of alfalfa in Pennsylvania by counties shows that Cameron, Clinton, Forest, Lackawanna and Union are the only counties which did not raise this type of hay during 1919 and that the aggregate production for the State was 176,773 tons against 9,154 tons in 1909, the acreage being 62,214 in 1919 and the average production 2.84 tons per acre. Chester is the leading alfalfa county with 6,995 acres and 26,985 tons, Berks being next with 15,734 tons and Northampton and Lancaster following in the order named. Dauphin raised 2,793 tons; Cumberland, 6373; Perry, 1,966; Lebanon, 6,513; Juniata, 114; Franklin, 5,255; Adams, 315; Mifflin, 499, and Snyder, 85.

The State Highway Department has revoked the paid driver's automobile license of Clark Cover, Shippenburg, for a year because of conviction of reckless driving.

According to figures issued by the statistical bureau of the Department of Agriculture, Pennsylvania is a close competitor with Wisconsin and Minnesota for third place as a potato raising state. New York is first

and Michigan second. This State is credited with 26,000 bushels.

Charles Lee, of Wood Hill, Bucks county, who pleaded guilty to charges of having violated the automobile law of June 29, 1919, has been sent to the penitentiary for three to five years on several indictments. The Bucks County Court in pronouncing sentence told Lee that if he were again brought into court on similar charges he would be sent to the penitentiary "for the rest of his natural life."

Pennsylvania Courts are uniting in inflicting the punishment on those who violate the automobile law. The particular sections of the automobile law violated by Lee were those requiring that dealers in second-hand cars have a license issued by the State Highway Department; and, second, having in his possession a motor vehicle on which the identification number had been removed, as covered by Section No. 7.

From what is said at the Capitol, Frank B. McClain will assume his duties as fair price commissioner with very little delay. The mayor's recommendation has been concurred in by the Attorney General at Washington.

"Tony" Freire, who has been ill, has been taken back to the Capitol by officials and attaches of the legislative offices.

Berks county commissioners have sent word here that they have secured word over a quarter of a million for road improvements.

Immediate steps are to be taken to inspect the engine of the Lancaster, New York and Southern Railway, in Lancaster county so that if possible the road can be run until formal permission to abandon it can be given.

Governor Sproul's advice to teachers to take a greater interest in politics in the address he made to the State educators yesterday attracted much comment and the teachers are likely to follow it.

McCaig's Tribute to John S. Fisher

Col. George Nox McCaig writes in the Philadelphia Evening Ledger:

"Candidates for the various State offices to be nominated next year are springing up like tulips in April. John S. Fisher, Commissioner of Banking, is among those talked of in connection with the office of Auditor General. He is a member, as the State knows, of that exceptional body of men which comprises the cabinet of Governor W. C. Sproul; exceptional in the fact that every one of them, who has occupied public office prior to his appointment as a cabinet official, had the reputation of being a 'clean' man. I mean 'clean' in the sense that no infirmation has been made that affected their personal integrity or political cleanness."

Fisher was raised on a farm not far from that on which John P. Elkin was born and raised. Like most farm boys, he attended county school, then taught, and finally, when he was 17 years of age, entered the Indiana State Normal School. It was a clear case of making his own way in life and for seven years after graduation he taught school, reading law at nights and at such odd times that he could spare from his duties as a teacher. His opportunity came when he was chosen principal of the Indiana high school, which afforded him the opportunity of reading law with Samuel Cunningham, who was then one of the leading members of the bar of that county.

Later on he formed a partnership with his preceptor, began taking an interest in politics, and in 1900 was elected State Senator from the Thirty-seventh district. He was re-elected, then went back to the practice of law in 1908.

"The State Banking Commissioner is quiet, unassuming and distinguished to the spotlight. In this respect he is like most of the other members of Governor Sproul's cabinet."

Foster and Maurer Attend Banquet Where 'Red' Songs Were Sung

New York, Dec. 31.—The Inter-collegiate Socialist Society closed its three-day convention last night with a banquet at which revolutionary songs and addresses were made by well known radicals. There were about 450 members of the society present, who claimed to be graduates from seventy different colleges throughout the country.

The popular song of the evening was "The Red Flag," sung to the air of "Maryland, My Maryland." William Z. Foster, secretary of the National Steel Strike Committee, and James H. Maurer, president of the Pennsylvania State Federation of Labor, in addresses appealed for funds for the striking steel workers.

An attack on various colleges on the ground that they have established a censorship to prevent students learning "the truth about the great mass movement toward industrial democracy," was the feature of the executive sessions of the convention, according to a statement issued by Harry W. Laidler, secretary of the society. He said delegates reported that the college of the City of New York had refused permission for Frederick C. Howe, former immigration commissioner at Ellis Island, Oswald Garrison Villard, Dudley Field Malone and the Rev. John Haynes Holmes, to address the students.

Auditor General Charles A. Snyder last night appointed the first mercantile appraisers under the new act of 1919 for service during 1920 and they will qualify at once.

"In almost every instance I have followed the recommendations of the Republican organization of the counties," said the Auditor General last night.

The Philadelphia appraisers were named recently and the first list announced last night was of Allegheny as follows: Harry L. Hutchinson, Pittsburgh, chairman, former clerk in the House of Representatives; David Hardy, McKeesport; John A. Schraeder, Allison Park; A. W. McMillan and R. F. Bigham, Carnegie.

Others appointed were: Adams, William J. Eden, Gettysburg; Beaver, Royal M. Lewis, Rochester; Bedford, J. S. Hoover, Fishertown; Berks, Richard D. Bechtel, Reading; Blair, Walter W. Martin, Altoona; Bradford, William P. Crandell, Towanda.

Columbia, W. C. Vought, Bloomsburg; Cumberland, Joseph H. Beattie, Shippensburg.

Adams County Man May Appeal For Appointment; Elected But Has No Brief; Herr Street Line Is Delayed by Park Plans

Gettysburg, Pa., Dec. 31.—Although he was the only candidate for justice of the peace in Highland township and was elected with 69 votes, J. Larry Hill, who lives near Fairfield, has received no commission and may have to go so far as to secure a gubernatorial appointment before assuming his duties.

Directions issued to each election board state that the justice of the peace returns must be sent to the office of the prothonotary, but in spite of that fact the Highland township board filed the return of Justice Hill's election with the clerk of the new arrangement.

Nothing can be done towards laying a track through Herr street until a decision is made about the Fourth street line in the Capitol Park extension, said President F. B. Musser, of the Harrisburg Railways Company today.

The company has promised the people that they will have a line through Herr street, but this line must be linked up to the Fourth street yard, and the officials of the State have not yet decided where the latter line is to be placed in the new arrangement.

Westminster's Choir Renders Famous Cantata

Sunday evening an augmented choir rendered the famous cantata "Immanuel" in the auditorium of the church at Green and Rely streets. Practice for this special service was held for several weeks previous to its being rendered and the many parts were sung most beautifully.

L. M. Barnitz is the leader of the regular choir of the church and he was assisted by Mrs. Miller, Mrs. Romberger, Miss Sellers, Mr. Mech and Mr. Entry. The music by the regular organist, Miss Dorothy Jenkins, blended most beautifully with the singing.
