or any thing else.

During late years the public have been misand by large bottles, pure adong to give a quart of latract of Sarsaparilla for one dellar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-nilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsuparilla which flood the market, until the name itself is justly despised, and has been a synonymous with imposition and chart. Still we call this a mpound Sorsoparilla, and into d to supply such a remedy as shall rescue the name from the lond of chicquy which rests upon it. And we think we have ground for believing it has virtues which are presistable by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions of the bottle.
