Hickok's Patent Portable HEYSTONE CIDER & WINE MILL.

LEASE take particular notice that this is an entirely new Mill. No expense has been spared in its manufacture; the materials are the very best, and are used unsparingly. The cylinders are almost twice the length of the former, and all metalling the top without many. The reservitation inches in disameter, with a heavy 1/3 \text{\$V\$ thread cut on The beam of the press is car force instead of wordinate very learn, and the broken by any fair means. The means the treated and can not be broken by any fair means. The arrangement of the This, and other parts of the press, is expended. The beam and the press is all desclaved text between the summater of the This, and other parts of the press, is expended. The beam and the press the arrangement of the This, and other parts of the press, is expended. The force and hoper are all desclaved text before the press, is captured to the force of the first beam and the press of the similar true in long bearings; and, lasting the summater of the kind unatever—perfection being the aim, which is the arrangement and mechanical department. Improvements added this year: The frames are get the true of the form of the term of the beach has been changed, so as to make them rind moder and freet. Editively new gearing has been saided the standard of the standard of the term of the press of the standard much caster. With all these improvements, it half grind much caster. With all these improvements, it half grind much caster. With all these improvements, it half grind much caster. With all these improvements, it half grind much caster. With all these improvements, it half grind much caster. With all these improvements, it half grind much caster from more perfect manner. DLEASE take particular notice that this is

and is made in a better or more perfect manner.

All persons who have been colliged to use the old fashment and will, are aware how incovered it is, and esmade the will, are aware how incovered it is, and esmade the house who have not targe quantities of apples,
being the null on your plantation or farm, you can,
tany time, in a few minutes, make a few gallons of
west-cider for present use; or you can very expeditions
which making o to 12 barrels of cider a day, with
the little tande to run by horse, steam or hand-power,
of when the applies are ground, a boy of fourteen years
esse can press it in pomes with all case.

The following many he additioned as the desi-

The following may be adduced as the decied advantages of this Mill:

First.—It will make more rider than any other press, this agrees quantity of apples in a given time, and eith much less labor and capenes. Second—It will make change and sweeter chief than Fined. You can make the cider as you want it, and len you want it, and in quantities from one gallon to

ath. With it you can press your Currents, Cher-fe-ries, Cheese, hatter, Lani, and Tallow. (1).—With its use you can at all times have fresh everything. I exect rider.

With all the advantages resulting from the possession with all the advantages resulting from the possession that it is promptly attended to and use of such a Machine—at a price so low that it offens the reach of all—can it be that any intellige armer would do without it?

The annexed RECOMMENDATION is a necimen of the many scores received : pecimen of the many scores received:
Initing the past winter, I had several but leads of apto-make into cider, and precured one of "Birthea's
intract time Mints," and found that, with two hands,
and make cight and nine barriels of cider aday
the men only weeking by daylight in the short shay
stimes. The mill not only performed in the most perord and subfactory manner, but worked with remarksage and with a small anjoint of power. I tried othperfasts uplies but most that worked with half the
most ageed of "Biolox's Keptone Color Mill;" and I
to active recument it in preference to all others.
Harrisburg, June 16, 1859. GIABLES TUNIS.

Mr Challe, of Broome county, New York, writes that a with one hand, went from form to farm with one of the Willis, and made over one thousand barrels of eider I More than one auxonen Silver Medals

and Diplomas have been given to this Mill within the last four years.

The proneer in the line, we claim that this Machine is the BEST one in the Market on

1st. It will grind the easiest, fastest and in the most ricct manner.

21. The Press is the simplest and most powerful, and the kest handled. It is not hampered up with a numer of secroes and eog wheels, which create sough frients the destroy its utility. It is well made and sold at a reference.

The Mill occupies about two-and-a-half ov three feet, four feet high, weighs 370 lbs., very way portable and convenient. Price
