LARGE PANTHER, SHOT .- Abraham Nivling, of Janesville, and Amasa Smith, They soon struck the trail of a very large one, which they followed for four success ive days, camping at nights by a large fire, without shelter of any kind, during very cold weather. On the fourth day, 27th Dec. the animal caught a rabbit, after devouring which, it proceeded about 200 yards and laid down. Here the dog found it, when it took to a tree, ascening to the height of about 70 feet. Niv. ling raised his gun and brought it down the first fire, the ball entering the nostril, and, after traversing the neck, lodged in the breast. The "varmint" measured 12 feet 6 inches, from end of nose to tip of

The Kansas Legislature bave split on the question of the State Capital-a large majority having gone to Lawrence, and the remainder staying at Lecompton This local issue we fear may greatly damage the Republican cause in the embryo State. ANOTHER TRIUMPH:

To the President of the Fennysyamia Agricultural Scinty:—The substrikers, your committee to examine the contents of a Salamanaker Seie, of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for sight hours, respectfully represent—
That after seven couls of only word and three of pine had been consumed around the Sale, it was opened in the presence of the committee, and the contents taken out, a little warned, but not even scorehol.

Several Siver Medials heretofire received by the manufacturers, and a large quantity of decoments were in the Sale, and came out entirely unsigned.

The experiment satisfied us of the capacity of fade of this kind to protect centents from any first which they may be exposed.
