Lewisburg, Pa.

FRIDAY MORNING, JUNE 22, 1860.

ADVERTISE!—Manufacturers, Merchants, Mechanics and all who wish to buy or sell—would do well to employ the columns of the Lewisburg Chronicle, which has a large and increasing circulation in a community containing a large proportion of active, without producers, consumers and dealers, as any in the State.

☞ **See New Advertisements.**

4th of July, 1776-1860!

A CELEBRATION, under the direction of the EUREIAN and TRIPTA ALPHA Literary Societies of the University at Lewisburg, will be held in the University Hall, on the morning of Wednesday, July 4, 1860.

Exercises to commence at 9½ o'clock, A M.

☞ The Faculty and Students will meet in Chamberlin's Hall, at 8½ o'clock, A M. The gentlemen of the different Professions—and Citizens in general—are respectfully invited to participate. Those in attendance will form in Procession in the following order:

BAND
Faculty of the University.
Eurelian Society.
Tripta Alpha Society.
Phi Rho Society.
Professional.
Citizens.

Marshall for the Citizens—WM. H CHAMBERLIN.
do for Eurelian Society—JOHN WHITNEY.
do for Tripta Alpha Soc—WM. H SLIFER.

The procession will proceed down Market St. to Third, out Third to the Hall, where the audience will be entertained by the following Programme:

Music.
Prayer.
Music.
Declaration of Independence—Prof. LEWYNN.
Music.
Oration—S. F. WHARTON.
Music.
Poem—JAS CHAMBERLIN.
Music.

Citizens of the vicinity and neighboring Towns are respectfully invited to be present.

J. K. WEAVER, } Committee
W. H. HUTCHISON, } of
T. L. JONES, } Arrangements.

☞ Above we present the Lewisburg bill of fare provided for the coming Anniversary of the Declaration of American Independence, in the freedom of that day. The afternoon and evening are left open for social and private observances. No general celebration having been proposed by our citizens, they should feel gratified that the young men on the Hill have taken upon themselves the trouble and labor of providing speakers for the memorable occasion—Messrs. Wolverton of Northumberland county, and Chamberlin of Union. Let the people, in both town and country, lay out their time to attend and hear them. The room is large and airy, and the celebration we have no doubt will be pleasant.

Judge Kelley, of Philadelphia, is engaged to deliver a Speech at Dansville on the 4th of July.

Gen. Robert Fleming is the Orator for the 4th July celebration at Williamsport.

Maj. Charles H. Shriner, and other distinguished gentlemen, are announced as Orators at Mifflinburg, same day.

Dr. Horlacher is to prove, at New Berlin, the Divinity of Slavery, on the "glorious 4th."

HAIL STORM IN CHILLISQUAQUE AND LEWISBURG.—Shortly after noon on Tuesday last, a shower prevailed for half an hour in this vicinity, the rain and hailstones flooding the surface for some moments, and destroying much of the grain, knocking off half the fruit, and stripping garden vegetables in a manner to cause temporary and in many cases permanent injury. It was light at the west end of the Borough, and did no harm in the Townships of this county, but over the river, especially opposite the Borough, as far east as the Sodom school house, the destruction was more severe, and the loss is heavy. Several hundred panes of glass were broken, but happily there was no wind to aggravate the evil. Above Jos. M. Nesbit's, and below Esq. Housel's, in Chillisquaque, the storm was light. In the center of its effects, stones fell as large as hen's eggs, and we found them in our garden 20 hours after their fall. The storm seemed to move in a somewhat circling form, and to persons at a distance the evolutions of the clouds were quite distinctly seen, and a novel spectacle. Old citizens assure us they never saw so powerful and injurious a storm in the Borough. A cloud from the N. W. seemed to meet one from the S. E.

☞ Our naval correspondent "G" has sent us No. 1 of *The Cuban Messenger*, a seven-column weekly, at $5 per year, in Havana, by "E J Gomez (Director)—J W. Bryant and J L Wyman, Publishers." It is the first English newspaper ever issued in Cuba, and we should suppose would win a good support.

The *Key of the Gulf*, at Key West, is a small affair from the same friend, issued by Wm H Ward at $3 per year. It has a list of 66 vessels (worth over Three Millions of Dollars) wrecked on the Florida Reefs and Shoals in 1859—the Rules of Wrecking—and the following astounding, original, amusing, fresh, undoubted, apocryphal, political bit of news:

"A Union League has been formed in New York, and from all we can learn the principles of the league will, *like a tornado of living fire, sweep with irresistible fury* not only over the Empire City but over the Empire State, destroying in its course every vestige of the abolition higher-law factions that have hitherto made many of the Northern States a byword of scorn and reproach." (!!!!!!!!)

SURGICAL OPERATION.—On the 11th inst., Dr. Thornton, assisted by Drs. Wilson, Leiser, Christ and M'Neal, with a knife removed a fatty tumor, weighing over eight pounds after its excision, from Mrs. Wm. Searles of Lewisburg. The subject was first put under the influence of chloroform—felt no pain whatever during the half hour required for the operation—and this week feels quite well by this relief from an unsightly and heavy excrescence, which had been growing sixteen years, between the neck, left breast, and shoulder.

☞ It is often gratifying for old-time friends to greet each other again in the flesh while still in the enjoyment of all their faculties. Of this character, doubtless, was the visit in Kelly Tp. last week, after *fifty years'* separation, of Dr. Thos. T. Smiley (of School Book memory) of Philad., with Mr. Flavel Clingan—and in Lewisburg, this week, met James M. Kuester (of the New Castle *Journal*) and Hon. Jesse Beaver, who together here, about 1828, were boys together in the printing-office of Mr. Carothers of the *Union Hickory*.

☞ The Catalogue of *Dickinson College*, Carlisle, gives 132 in the Collegiate and 35 in the Preparatory Department—168 students in all—for the present year.

The *Middlebrookville* (Juniata Co.) *Academy*, in No. 2 of the "Students' Quarterly," enumerates 106 in their first session and 96 in their second session this year.

The *Union Seminary*, New Berlin, Catalogue 1859-60, report 7 Instructors and 241 pupils.

☞ The Japanese having finished Philad., have undertaken to fathom the gullibility of New York, where they now are flourishing. Their exodus from Phuad. by "S. H. F.," we will give next week.

☞ "Our Musical Friend," formerly a $5 weekly publication, will hereafter be issued on the first of each month, at $1.50 a year. C. B. Seymour & Co., 167 Nassau st., N. Y.

☞ Our last lot of Envelopes, is a very neat and superior assortment from the "Eagle Works," Harrisburg—W. O. Hickok, Agent—at $1.50 per 500, $3.00 per 1000.

☞ John Kessler, of New Berlin, is *not* a candidate for County Commissioner, as recommended in the last Star & Chronicle, by "Buffaloe."

The Iowa and Illinois Tornado.

[ROSS M'CLURE, late of Union Co., Pa., now of Ogle Co., Ill., in a private letter to a friend in Lewisburg, Pa., gives the following details of what he saw and heard of the late terrible devastation in a part of the above named States:]

JUNE 10.—Last Monday morning, we found scattered over the prairie pieces of boards, shingles, &c., that had evidently belonged to some house. About noon, we heard that a tornado had passed through Twingrove, 15 miles south-east of us, and I went to see its effects. The first house I saw near its track, had lost only the roof and both ends of the main building, but an addition to it was blown away, and with it one man, sleeping, was blown 15 rods and lodged, badly hurt, in a small grove of locusts; while a man sleeping with him was blown 30 rods and not hurt. The next building, a blacksmith-shop, was gone, and a buggy and lumber wagon had both axles broken and mostly mashed to atoms. Of the next house, 1½ stories high, not two boards have been found together—the family, 6 persons, were blown into the grove, and all badly injured. In passing through the grove it blew down or twisted off almost every large tree—but broke the force of the wind so that the next house in the edge of the grove, lost only the roof and porches, and the windows blown in, but no one hurt. Next, stood a house and blacksmiths shop, of which scarce a vestige remains—even the cooking stove was broken in pieces, and its bottom plate carried nearly a mile. Of the family of 4, one child was blown a mile, and all were badly hurt. The occupants of the next house were out visiting, and coming back found no home, nor have they yet heard from it. On the county line, was the house of Mr. M'Conachy, who, with two children, was killed, Mrs. M'C's bones were broken, and the other child injured—horses, cows, sheep, and pigs, were killed—and a stone weighing 12 or 15 hundred pounds was moved 40 rods. Three miles east of this the tornado seems to have spent its force, or rose from the earth. Its general course was easterly, in a zig-zag manner like the little whirlwinds we often see, varying from 15 to 40 and 60 rods in width. In its sweep, there is not a sign of corn left, while grass looks withered and muddy. Every fence is gone; in some cases, fence posts were lifted out of the ground, and in others driven half their length into the ground. Persons who saw it agreed that there appeared to be balls of fire in the air, and trees, logs, and every imaginable thing whirling up and down. An old sailor said he knew all day there would be a "cyclone" or "waterspout," as he had seen hundreds—that the air was full of fire balls—he was as sure of a storm that he had his well prepared to retreat into. A gentleman of Twingrove said they had unusually heavy thunder, and hail about two minutes—it ceased suddenly, and there was a dead calm for a moment or two, when the crash came which seemed to last but a few seconds. Another said it seemed as though the clouds struck the ground, and the next instant it had passed, with a noise like a train of cars on the rails in a cold frosty morning. No less than a thousand persons came to Twingrove to see the effects.

[We read elsewhere that the wife and four children of Rev. J. Edminster (formerly of White Deer Valley, Pa.) were among those wounded by this storm in the demolished city of Camanche. Money, provisions and clothing are liberally contributed to the North-west for the relief of the sufferers.]

FOR THE STAR & CHRONICLE.

The Turnpike Road to get at that Timber Trade.

The Commissioners appointed by act of Assembly to open books for stock to the Brush Valley Turnpike Company met at Rudy's on Friday last, and organized by appointing John Reynolds, of Brush Valley, Chairman, and Martin Rudy, Treasurer. They fixed the amount to be paid upon subscription, for each share of stock, at one dollar. A subscription was opened, and fifteen hundred dollars were at once subscribed. It is supposed that five thousand dollars and less would complete it. The road, under the charter, will extend only from one end of Brush Valley to the other, a distance of fifteen miles. Were the people of Lewisburg and vicinity awake to their interests, they would at once take hold of this, and get a charter passed, extending the road to the River. Every improved road to a town, is a facilitated avenue of wealth. Now, we go to Williamsport or Lock Haven, and see those places fairly humming with business. We come back to our quiet home and wish—vainly wish—we had "their facilities." We *have* facilities, as well as they: the only difference is, that, with an enterprizing spirit, they energize their arms, and reach out and gather them to them. Opportunities for enlargement are around us as well as there—yet our lack of effort prevents our reaping from them. But, what's the use of saying anything? When a town can't raise a sprinkler for their streets, but, day by day will have their houses, stores, lungs, and everything else coated with vile mud—can you expect them to build a turnpike? Milton has a sprinkler, and it is at least inferable that they will take hold and build that pike to Milton. It will be a road of easiest access, to Brush Valley and Sugar Valley, and whoever makes the road, will get the trade, which is very valuable. And, then, the immense Timber tracts which will be thereby opened, and find its market at the terminus of the road, wherever that may be. Lumber is building up Lock Haven and Williamsport, and would also aid Lewisburg in keeping its onward march. Who, in this Borough and the Townships, will help make and extend the Turnpike? OBSERVER.

☞ The first Census return we have is the population of Jonestown, Lebanon Co., 777. Warren, 1742.

☞ Judge Wilson will hold a Court in Lewisburg, for Arguments, Thursday of next week, June 28th.

☞ The Christian Church will have the services of Elder E. Fay, of Yellow Springs, O. on Sunday at 10 A M. and 7½ P M. All are respectfully invited to attend.

☞ The Children's Freewill Society of the Ger. Ref. Ch. will give an Ice Cream Entertainment, in the rooms of R. Snyder, on West Market St., on the afternoon and evening of the 4th July, 1860. The proceeds will be devoted to benevolent purposes. All are invited to attend.

LITERARY SOURCE.

One of the most interesting and useful publications which come to our sanctum is the Scientific American, a weekly publication, devoted to popular science, new inventions, and the whole range of mechanic and manufacturing arts. The Scientific American has been published for fifteen years, by the same Proprietors (Messrs. Munn & Co.), at Park Row, New York; and has gained a high character and circulation, both at home and abroad, as a publication of the first class, which is the best of its kind in the world. The publishers have published in the Scientific American all the most important inventions of the day, and have illustrated them by numerous splendid engravings. Every number contains from one to two original engravings of new inventions, and also of the most improved Tools, Engines, Mills, Agricultural Machines, and Household Utensils; so that, in the course of a year, it contains 52 pictures, with descriptions, &c., which would cost many times the price of the paper to procure in any other form. The Scientific American is published every week, and each number contains 16 pages of letter-press, and 5 or 6 original engravings of New Inventions, and also of the most improved Tools, Engines, Mills, Agricultural Machines, and Household Utensils; so that, in the course of a year, it contains 832 pages, and 260 original engravings. The paper is a form especially for binding, and all the 52 are uniform.

A New Volume commences on the 1st of July, and we have a large number of new inventions which will then appear for the general information of subscribers. By remitting $2, by mail, to the publishers, Munn & Co., 128 Park Row, New York, the paper will be sent for one year, at the end of which time you will have a volume which you would not part with for twice the cost. The publishers have also a fifteen years' experience as solicitors of patents, and are constantly receiving from inventors the most exalted encomiums for the rapidity, care, and ability with which they transact business entrusted to their charge. See prospectus in another column.

THE OXYGENATED BITTERS.

Purgative, Antiseptic, Blood Purifier, Blood Builder, Nerve Stimulant, Diuretic, Alterative, General Invigorator, and a ready relief and speedy cure in the worst remedy.

THE OXYGENATED BITTERS

are believed, by many who have long proved of the above compounds, to be the only medicine which the human system absorbs for their restorative cure. It is not an alcoholic preparation, which, while giving a momentary stimulus, reduces the system in the same ratio; but one entirely different from any medical preparation ever compounded, and which will, in most cases, extract the disease by the roots and restore the patient to positive health. In proof of which, I name any of the very highest and unexceptionable character to prescribed.

EXILLABLE TESTIMONY.

We call the attention of the reader to the following letter from President Smith, of Western University:

MESSRS. SETH W. FOWLE & CO.—Gentlemen: I have made use of the Oxygenated Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was aggravated with a nervous headache, on an average of two times in the day in a week, I was induced, by the unsolicited recommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use." The use of one bottle wrought a change in my health that I did not think possible. I was with a special observance of the accompanying directions. The result was an almost entire relief from the head dyspepsia symptoms and their depressing, painful consequences. I believe these bitters to produce an entire change in the tables of the system, and upon the entire organs of the digestive system. I now claim myself to be entirely free from dyspepsia. You are at liberty to make what use of this you may deem necessary for the benefit of my fellow-men.

Very respectfully yours,
AUGUSTUS W. SMITH.

Prepared by SETH W. FOWLE & CO., Boston, and for sale by CALDWELL and WALLS & CO., Lewisburg.

ADVANCE OF SCIENCE!

Modern Improvement in Dentistry!

TEETH inserted on AMBER BASE, (which is now taking the entire preference in Eastern, Southern and most of the Western cities, and in many respects is considered preferable to gold or any metallic base) at reduced prices, thus enabling all who need them to avail themselves of Dental Substitutes for mastication. Also, Teeth mounted upon Gold, and all the various Metallic Plates in use, in the latest approved style.

Special attention will be paid to Filling Teeth, which is decidedly the most important operation pertaining to the profession—but very frequently abused by unskilful and inexperienced operators; but when properly performed, will preserve the natural organ, so much desired by all.

Irritable Teeth and Exposed Nerves treated successfully.

Being in possession of a choice set of Instruments, and having had now twenty years constant and extensive practice, and at present in possession of all the latest improvements pertaining to the profession, the subscriber would say, with confidence, that entire satisfaction will be given in all cases.
