

UNION COUNTY STAR & LEWISBURG CHRONICLE--NOVEMBER 23, 1860.

Lewisburg, Pa.

FRIDAY MORNING, NOV. 23, 1860.

NOTES.—Manufacturers, Mechanics, Merchants, &c., have a right to sue, and will sue, for the debts of the business, which have a legal existence in a country where there is no personal property or personal effects, consumers and debtors in the state.

See New Advertisements.

Editor's Overlook. has opened a Cigar Shop on North 2d St near Market, (in R. M. Miller's building.)

Mr. Samuel Harsh continues business at the old stand of Harsh & Hutchinson, Ammon's Block, corner of Fourth and Market Sts.

Our legal young friends, Hayes & Chamberlin, offer their services to all, in the law of the land and its profits. Office in the second story of Chamberlin's block.

Mr. Newbold, on the right principle, White Deer Mills—choice Woodland in West Virginia—and other matters of interest, may be found among our new advertisements this week.

J. Wilson Shaffer, formerly of this bank, is elected Clerk of Stephenson Co., Ill., by large and easy.

Benj. F. Harding, Esq., late of Tasker, now of Lewisburg, Charles Pease, Martin Breisch, Philip Blumeyer, Daniel Long.

They have some immense counties out West. Sioux City, Iowa, gave 175 votes for President, and the whole county 525—Sioux county 12 votes, O'Brien 21, Oberon 12, and Clay 21.

THE "SECESSION" MOVEMENT.

Another "compromise" in embryo!

It can not be too thoroughly understood and realized by our People, that the financial crisis through which we are now passing is purely a Political Panic—that there is no possible cause for it outside of the councils of the defeated Fanatics of 1860.

Mr. Tammie, from the other side of the River, leaves us two specimens of foaled turkeys of his raising, but three of our office-paper-givers say they have good seven-pounds. Good year for turkeys.

Thanksgiving, Thursday of next week. Our persons would do well to inform our neighbors who may not take the spirit of this fact, so that they may not be disappointed in attempting to receive us on that National semi-Sabbath.

To PREVENT TOE-NAILS GROWING INTO THE FLESH.—A friend who has tried it recommends paring the middle of the nail until it can be split in two, when the nail will pull up and grow to the center, causing the sides from the pressure. He says it is worthy of being re-published.

Warder & Wells, 309 Broadway, New York, have published a Book—"The Farmers' Manual"—designed to teach rural penmanship to schools and apprentices, by a business penman. It comes, stout book form, and sold at 50 cents per single copy.

A little son of Robert Neff, living on Foothills farm in Kelly town, Tuesday last, was in a stable with three, and moved towards its heels, when he struck the boy in the face and said afterwards stamped on his breast, biting dreadful wounds, under which festered some hours, when death came to visit.

It will be remembered that the Central Bank for the south half of Union County declined to return the names of residents in New Berlin and the South End. In each place, however, qualified substitutes. Here, the adverse opinion of such honest officers gives us persons who are not rated even as substitutes.

A correspondent writes us from the Town of Perry: "News is a scarce article in this place, or I would send to you more news. The excitement at election time has subsided—now the interesting questions are, 'What Lincoln's majority?' and 'Have all your corn in?'" We believe "sub-treasures" among our farmers generally, this pleasant weather. But little rain in the mountains yet.

P.S. Snowing this morning.

The Williamsport "Battalion" has enlarged one column, and is here to be published weekly instead of monthly, by Van Gelder & Campbell. Daily "Times" has again suspended part of its encouragement. The "Democrat" to be enlarged and improved... will leave four respectable weeklies Williamsport—two Republican and two Democratic—full enough for the benefit of printers or of the public. With the one at Muncy, and the one at Lycoming county is well and judiciously served with newspapers. What six would so arrange that would be better for all and enable them to sell news.

Mrs. Tax Payers and Collectors should pay heed to the official Treasurer's and Commissioner's Notice in another column. All Jurors, &c., will want pay, in cash, at the two coming Courts; but how can they get it unless the money is in the Treasury? Our officers are trying to meet all dues and sweep off all indebtedness, this year; and they can, if prompt payments are made of the taxes assessed. It must be remembered that the expenses of two Elections have been paid since last Court, and that two Courts occur in Decr., followed quickly by one in Feb., and then in May again. A little determined effort to pay up, collect, and pay in, (to pay out at once,) would account well around, and save trouble and costs. Remember—and act!

BANK DIRECTORS.

Bank of Northern Indiana—John B. Parker, Wm. F. Foy, Wm. H. Walker, A. E. Kapp, Jas. C. C. Brown, Daniel Burman, Jas. K. Davis, Charles R. Paxton, Sam'l. T. Brown, David Brown, Philip Gray, John C. Smith, John D. Brown.
