Lewisburg, Pa.

FRIDAY MORNING, NOV. 30, 1860.

ADVERTISE.—Manufacturers, Merchants, Mechanics and Professional men in City and Country, who wish to reach the people of the Lewisburg circulating district, which has a large and increasing circulation, by an immediate publishing day, and extensive circulation, in a rural, prosperous, consumers community, as any in the State.

☞Railway trains up, now pass Lewisburg near an hour later than formerly.

☞"My NAME," on our first page, affords a fine chance for some of our poetically-inclined readers to reply.

☞The Lewisburg "Festival Glee Club" have appointed a Concert in the Seminary Hall at New Berlin for the evening of Thanksgiving day.

☞Thanksgiving in Lewisburg was well observed by a general cessation from business, and a sermon in the morning by *Prof.* Cattell in the Baptist house.

SAMUEL H BARNES, of Chenango Co., who was elected Canal Commissioner of New York at the recent election, died of erysipelas before his success was known to him. So uncertain are human honors.

☞On Monday of this week, a boiler in one of the Montour rolling mills, in Danville, exploded, instantly killing a workmen by the name of Joseph Reading, and seriously injuring several others. The mill sustained so much damage that operations are suspended for a few days.

☞"Lincoln is not our President," say some Democrats, "for we did not vote for him." We thought the true Democratic doctrine was submission to the majority. He may not be your choice, but he is as much your President as Polk, Pierce, or Buck were ours. Don't behave like spoiled children, now, but try to be men, and submit to these little ups and downs in politics as we have often done when we could'nt help it.

☞Pres Lincoln recently made a long deferred business visit, with his wife, to Chicago, and was met by admiring crowds at every stopping point. He made brief, appropriate, conciliatory addresses at nearly every depot, as the easiest way of satisfying the lookers on. At Chicago, he met Hannibal Hamlin for the first time, and the interview was very cordial. They visited the Wigwam (which is now to be taken down) and other important places together, and parted to meet again at Washington and assume those increasingly onerous duties to which the people of the Nation have called them.

☞"Lincoln hasn't a majority of all," say the Fusionists. Neither had Buchanan and many other Presidents. But Lincoln has probably a larger Popular Vote, and more Electoral votes, than Buchanan—a larger popular vote than any other Pres.

"Lincoln was chosen by a section," say they. So have other President been chosen and served. And so was Buchanan—the Northern section all against him, and the Southern section all for him—save a little mingling on the border States, as there is this year, where Bell and Douglas divide the vote between the two highest candidates.

☞One thing has happened in the election of President this year, which should set at rest all cavil. It is, that the States which elect the President, do so by a *clear majority for the successful man above all opposing candidates.* Polk, Taylor, Buchanan, and other Presidents, were elected through divisions of opponents—slipping in by a plurality vote of States. Not so with Lincoln. He has 34 maj of the Electoral votes—in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa, and Minnesota—in each of which he has an absolute majority *over all the opposing candidates*, and probably a plurality in New Jersey, Oregon and California, giving him 11 more Electoral votes—57 maj in all.

Another conclusive fact is, that in none of these 15 States were the majorities small, or secured by any suspicious of fraud. Polk's election, and Buchanan's, were marred by proven allegations of cheating at the ballot-box sufficient to render doubtful the fact of their real election by the People. But Lincoln's majorities are like himself—clear, above-board, magnificent, decided, and undoubted.

LOTTERY SWINDLE.—A grand swindling transaction was broken up in Philadelphia on Monday week. It seems that a gentleman living in the western part of the State wrote to Mayor Henry, asking if his name was used with his consent to recommend a certain lottery firm having its head quarters in that city. Indignant at the coupling of his official name with any such illegal enterprise, the Mayor placed efforts upon the track of the knaves. The concern was broken up, and Kendig was put under $2,800 bail. These lotteries, whether in Philadelphia, Maryland, or elsewhere, are swindling places, and they have been so frequently exposed by the newspapers, that we are led to believe it is only those who do not take the papers who are so ignorant as to patronize them.

Prentice, of the Louisville *Journal*, thus explains the secession movement: "The movements in the direction of secession want moral support, because the impression is general that the election of Lincoln is the *pretext* rather than the cause of disunion."

Gov Pennington, tho' defeated, ran far ahead of his ticket at home.

PROGRESS.—It is but thirty years since our President's Annual Message was taken across the ocean in a sailing vessel and published in London eight days before it had reached and been issued in St. Louis, which city is very near the geographical centre of our present republic. And now the result of our Presidential Election, which took place on the 6th inst., was transmitted, mainly by Pony Express, to San Francisco on the 14th, and published there by 9 o'clock on the morning of that day. The people of the entire Pacific coast had doubtless heard of Lincoln's election before it was known in Europe.

A bill has passed the House in the Vermont Legislature requiring every attorney at law, on the request of his client, to give his opinion in writing upon the point bearing directly in a given case, and holding him responsible when, through incompetency, neglect or mismanagement on his part, the client suffers damages.

The census of Maine shows a population for the State of 615,137, which is an increase of 61,805 over that at 1850. The greatest increase is in the Aroostook, which shows a gain of 9,960. Vermont also shows not a decrease, as has been stated, but an advance of from two to three thousand.

An attempt was made to enter the Grocery Store of D. P. Bogle, in upper Milton Mr. B. heard them, and taking a six-shooter well charged, he took his stand behind the door, so that in case they should open it, he would be ready to receive them warmly. The thieves did not get in, consequently they did not get the dose they so richly deserved.

Salt Lake is probably the saltest body of water on the globe. Three barrels of this water are said to yield a barrel of salt. The water is of a light green color for about ten or twenty rods, and then a dark blue. No fish can live in it, and but a few birds are seen dipping in it.

There was a large and spirited meeting at Providence, R. I., on Monday night, to adopt measures to relieve the people suffering from famine in Kansas. Gov Sprague presided. Several speeches were made, and a handsome sum was subscribed.

KIDNAPPERS SENTENCED.—The trial of Francis Wilson and Gilmore Hall, for kidnapping a colored man named John Brown, some months ago, took place at Lancaster last week. They were convicted, and sentenced to five years each in the prison of that county.

Hon. Henry King Strong, a native of Massachusetts, for a long time editor of the Harrisburg Intelligencer, and some years Member (and once Speaker) of the Assembly of Penn'a, died in Philadelphia, suddenly, Wednesday of last week, aged 63 years. He was a well-informed, influential man.

Neville township, Allegheny Co., Pa., gives Breckinridge no votes. Over sixty years ago, the Secessionists of the Whiskey Insurrection were led by a Breckinridge, and opposed by the Nevilles, from whom this township was named.

On the 29th ult., Benj Warner, Jr., of Muncy Tp., shot a rare golden eagle, seven feet from tip to tip, which was secured in such good order that it was presented to the Academy of Natural Sciences in Phila.

The Methodists of Danville intend holding a Fair on Thanksgiving day, in that place.

A despatch from Washington, of the 19th, says that a letter was received at that place from Judge Wayne, of the Supreme Court, writing from Savannah, Georgia, in which he states that four-fifths of the people of Savannah are opposed to disunion.

About five o'clock Wednesday morning a frame house at the west end of Williamsport, owned by Langdon & Diven, and occupied by Reuben Green, was destroyed by fire.

Thomas H. Clay, son of Henry Clay, writes that there is no man in all his acquaintance in Kentucky who justifies South Carolina in her course.

SOUTH CAROLINA.—This fountain-head of nullifiers, rebels, hotheads, fools, and traitors, furnished the main body of forces in the Revolution. They supported Aaron Burr for the Presidency instead of Thomas Jefferson, the author of the Declaration of Independence and founder of the Democratic party. The next characteristic step was to nullify the laws of Congress and draw the sword against a Government presided over by such men as Jackson, Clay, and Webster. Ever since then the turbulent and disunion sentiments of the Government have made their headquarters in South Carolina. They were maddened when Calhoun failed to effect the fell scheme of secession, and have ever since made their patriotism subservient to revenge. The State has no cause for complaint. No slave can escape from her far southern borders. The tariff pays the expenses of the Federal Government and there is nothing lacking but to keep up a State Government to her liking. The Federal Government, then, does not lay the weight of its little finger upon her, but has to endure her Congressmen who swim in whisky and bully all Washington.—*Southern Standard, Trenton, Tenn.*

PETERSBURG, Va., Monday, Nov. 26 1860.—Senator Clingman has been nominated by the Democratic caucus at Raleigh, N. C., for U. S. Senator.

The Hon. M. E. Manley was elected Supreme Court Judge by the Legislature of North Carolina on Saturday. There was considerable talk among the members of secession.

RICHMOND VA., Monday, Nov 26, 1860—The Hon. Edmund Ruffin of Virginia arrived here to-day from South Carolina, having failed, so far, to hitch Virginia to South Carolina. Mr. Ruffin is an honest disunionist. He admitted this evening, in the presence of several gentleman, that he was for disunion, *no matter who had been elected.*

AUGUSTA, GA., Monday, Nov. 26, 1860—The Hon. A H Stephens and Dr Perkins have been unanimously elected as Delegates to the State Convention from Talasfero County. Mr. Stephens made a characteristic conservative speech.

Hon. John M. Botts writes to a friend that "Virginia is sound to the core on the Union question, and has no idea of being hitched to or dragged into any movement that looks like one of disunion."

Gov. Magoffin, of Kentucky, has written a strong letter in opposition to the scheme of the secessionists. He regards the election of Lincoln as no cause for "secession or rebellion," and alludes to the alleged wrongs sustained by the South at the hands of the North. Yet he says he is opposed to secession.

Herschel V. Johnson, 16th inst., writes a public letter, saying, "Lincoln's election is an event which I confidently anticipated from the disruption of the Charleston Convention.....I do not think his election a sufficient cause for secession."

The precinct of Harper's Ferry, Jefferson county, Virginia, voted as follows: For President: Douglas 378, Bell 275, Breckinridge 17. So it appears that the Democracy of Harper's Ferry, which place bore the brunt of John Brown's raid, were not afraid to trust Douglas.

Fisher (Lincoln and Bell) has 248 maj for Congress, in the State of Delaware. The Legislature is a tie.

☞Preaching in the Presbyterian Ch next Sabbath, morning and eve, by Mr. Finney.

The regular monthly meeting of the Society for Moral and Religious Inquiry will be held next Sunday afternoon, at half past two o'clock, in the Baptist church. A Report on Africa will be read by Mr. W. P. Hellings, of Philadelphia.

DR. WISTAR'S BALSAM OF WILD CHERRY.

When this article is known it is a work of supererogation to say one word in its favor, as well it is established as an unfailing remedy for Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Pleurisy, diseases of the Throat, Chest, and Lungs, as well as that most dreaded of all diseases, Consumption, which high medical authority has pronounced to be a curable disease. Those who have used this remedy know its value; those who have not have but to make a single trial to be satisfied that of all others it is the remedy.

From WM VANGIZER, Esq.

LAWRENCE, Union Co., Pa., May 7, 1860.

This certifies that my wife has been afflicted with Consumption for the last four years and had become so reduced that she was unable at times to walk across the room, and a good part of the time unable to be out of bed. She would be seized with violent attacks of coughing, until she would be almost exhausted and helpless. She received the attendance of no good physicians as could be found in the city of Philadelphia and Pennsylvania, but to no effect; it was at last recommended to try Dr. Wistar's Balsam of Wild Cherry, which she effected for the better by using it according. Before she had taken two bottles she felt and appeared almost as well as ever, so much so that it is entirely unnecessary for her to use any more, except occasionally from having caught cold from exposure or from sudden and unfavorable change of weather. I have always been opposed to Patent Medicines, and pronounced them humbugs; but I must say that Dr. Wistar's Balsam of Wild Cherry is an exception. I unhesitatingly recommend it to the public as decidedly the best and most effectual remedy in cases of Consumption. WM VANGIZER.

☞Caution to Purchasers. The only genuine Wistar's Balsam has the written signature of "I. Butts" and the printed name of the proprietors on the outer wrapper; all other is vile and worthless.

Prepared by SETH W. FOWLE & CO., Boston, and for sale by F. S. Caldwell, and J. Wade & Co., Lewisburg.

DYSPEPSIA.—What is it? how cured? This question is fully answered in the pamphlet issued by Dr. O. Perkins Brown, and to be obtained of the sole authorized agents. It is a plain, straightforward, unmistakable essay, in itself of no, small, merit and interest. Dr. O. Perkins Brown also prepares a remedy which is unexcelled in its efficacy. The AMERICAN BALSAM. In cases of Consumption, Asthma, Bronchitis, Coughs, Colds, and Nervous Debility where death seems the manifest destiny of the sufferer, the world can show no parallel to the efficacy presented by the AMERICAN BALSAM. Each person of the family finds its beneficial influences. From pain and lassitude, the patient springs up to a cheerful enjoyment of life and a plentiful share of solid nutriment. The AMERICAN BALSAM is sold at $1 per large bottle by J. BAKER & CO., Lewisburg, Sole Agents, who has also a small number of trial bottles, price 25 cents each, so the proprietor wishes to introduce this invaluable remedy in such a manner as to preclude all doubts of its being a genuine article.

A number of specimen bottles, price 25 cents may be obtained, as above, if speedily applied for.
