The only Amendment needed

To the United States Constitution, is, that no more Territory shall be hereafter acquired, in any manner, without the assent of the Legislatures of all the States. Then, and then only, can the Free States and Slave States feel alike secure. They could manage the present States—but to spend millions more to coerce and enslave Mexico and Central America, and to buy Cuba, the Free States can not and will not. And the South would revolt from adding Canada, &c. If we are a partnership of States, let no new Territory (soon to be States) come in, without the assent of all the present partners. Mr. KILLINGER briefly but forcibly touched this point, in his Speech in Congress on the 1st inst., as follows:

"But I may as well, in this connection, state an insuperable objection to the annexation of more territory, and the positive establishment of slavery there by constitutional provision. Instead of being a compromise, and settling the vexed question, such a provision would prove a fountain of bitter waters, for ever tend to filibustering forays on neighboring territory, and renew the warfare now raging so fiercely. In 1810, Mexico abolished slavery; and if it be our manifest destiny, as some contend, to absorb and annex that country, I will not agree, in advance, to blight it with slavery."

The unique National Convention now in session, Congress, and all the Compromisers, would do well to rally for that single amendment, and thus all fears of new Slave States on the South, and new Free States on the North, would be avoided. That provision would afford a plain but effectual ground for settlement of the main controversy: all lesser questions could conform to it.

UNION-SAVING CAUCUS.—Upon the invitation of Virginia, gentlemen appointed by the Governors of New Hampshire, Vermont, New York, Rhode Island, Connecticut, New Jersey, Pennsylvania, Ohio, Indiana, Iowa, Illinois, Delaware, Maryland, Virginia, Kentucky, Missouri, Tennessee, and North Carolina met in Washington last Monday, to "talk it over." Their meetings are not public, and their proceedings all guess-work. That miserable traitor, and Texas conspirator, John Tyler, is President—no compliment, and no indication of anything good coming out of the meeting.

Gov. Curtin commissioned, as members from Pennsylvania, James Pollock of Northumberland, Wm. M. Meredith of Philadelphia, Thos. E. Franklin of Lancaster, David Wilmot of Bradford, Thomas White of Ind., A. W. Loomis of Pittsburg, and Wm. M'Kennan of Washington.

HARTFORD CONVENTION, No. 2.—Delegates from the Cotton States (except Texas and Louisiana,) met in Montgomery, Alabama, 4th inst. Howell Cobb, of Ga., (who so effectually depleted the U. S. Treasury) was chosen President, and the fun-loving editor, Jack. Hooper, Secretary. On taking the Chair, Cobb took occasion to remark that "The occasion that has assembled us together is one of no ordinary character. We meet as the representatives of sovreign and independent States, who, by their solemn judgment, have dissolved all political association which connected them with the Government of the United States. *It is now a fixed, irrevocable fact. The separation is perfect, complete and perpetual.*"

The second day, they went into secret session, to see what to do with their Elephant.

Blackest Forgeries!

When the Slaveocracy sought to force Kansas into their deadly arms, they stuffed the ballot-boxes at Kickapoo, Oxford, &c., with hundreds of false tickets, under such bogus names as Buchanan, Greely, Douglas, Fremont, Calhoun, Beecher, &c. Since the people (in November) gave Three Million majority against them, they are now desperately engaged in nullifying that decision by pretended Petitions for the Breckinridge Slave-Code, now styled "Crittenden's Compromise"—the same wolf, under another sheep's clothing. A few days ago, one Pendleton, a Slaveocrat, presented in Congress, with a tremendous flourish, what he claimed as the petition of TEN Thousand men of Cincinnati, of all parties, for this new Slave dodge. Mr. Gurley, a Member from that city, well acquainted there, has since *examined* the Monster Petition: he finds but FOUR Thousand names in all (about one quarter of the Democratic vote in Nov.); among them are many persons unknown to him, and others are Republicans, who say they never saw the petition, never authorized their names to be signed to it, and disapprove of it totally!.....In New York city men are hired to stand at ferry-boats, &c., and get names of men, women and children to similar petitions, (all of which together do not reach the Fusion vote last Fall,) which they trumpet forth as "Public Sentiment!" So unfair, so vile, is Slavery to the last.

ANOTHER.—Just before the Virginia election of Monday, a forged letter, signed "*A Lincoln*," was circulated in that State, in which he is made to speak as though he measurably sympathized with John Brown. It was so glaringly mean and false, that, it would seem by the vote, it must have disgusted everybody, with a thimble-full of brains, against the party that used it!

More Robbery.

On Friday last, the State authorities of Louisiana took possession of the Mint and Custom-House at New Orleans. The officials continue in their positions, having taken the oath prescribed by the Ordinance of Secession. The Superintendent of this Mint has refused to pay a draft of the U. S. Treasury Department for Three Hundred Thousand, saying that the money in his custody, amounting, it is said, to about One Million, *"is no longer the property of the United States,* but of the republic of Louisiana."—*Washington Globe, Feb 4.*

☞Now let every white freeman get down on his belly and beg those thieves to "compromise," and take all the public money in New York, Philadelphia and Washington, if they'll only come back like dear, noble brethren, into the Union!

The Baltimore *Sun* is using influence to stir up a mob to seize upon the city of Washington and prevent the inauguration of President Lincoln, thus breaking up the Government. The *Sun* is said to be owned by the same men who own the Philadelphia *Ledger*.

Another loan of Twenty-Five Millions of Dollars is required by Congress to keep the Government going, after Cobb's managing and Floyd's stealing. The National Debt is already Sixty Millions of Dollars, under four years of Buchananism! Slavery is an awfully expensive curse. Let us all compromise and extend it!

Upper Canada is settled mostly by Americans, and it is said is ripening for admission into the Union. Its location makes it very desirable. We might exchange it for South Carolina which certainly needs a strong government, and had always a Tory people, who loved England and the monarchy. The blacks in Canada could be colonized to Liberia. (A good thing all around.)

A vessel from Charleston with the Palmetto flag tried to enter a Cuba harbor last week, but was stopped, and had to "up with the Stars and Stripes" before she could get in.

The Atlanta (Ga.) *Confederacy* says that there never was such bullying practiced since the days of Sodom as in the recent State campaign. Thousands of citizens were dragooned into voting for secession.

One of the Vigilance Committee, a fierce Secessionist, named Dodge, has been sent out of Charleston on suspicion of writing for the New York Tribune!

Mr. Dundas, the able, esteemed and faithful second assistant Postmaster General, died in Washington, on Thursday, after an illness of several months.

It is stated that the President is getting a little weak again. He is holding conferences with leading Secessionists. It is a pity that the old gentleman can not be properly bolstered up until the 4th March.

The laboring classes in New York have, in the Savings Banks of that city, Four Millions of Dollars more than the entire valuation of the city of Charleston, negroes included!

Davis, Breckinridge, Hunter, Cobb, and how many others, are promised the first Presidency of the Slave Government, which is to admit none but Slave States, and expel all that become Free.

The snake has been appropriately adopted as the device on the Secession banner. It is the shape which the Devil took to cause the loss of Paradise to our race.—*Preston.*

Williamson R. W. Cobb, one of the oldest Members of the House, remained in Congress, from Northern Alabama, as a Union man, until receiving a copy of the Secession act, when he thought proper to retire. In his respectful and manly parting address, he said he had *not* drawn his pay in advance. Most of the Secessionists have (under false pretences) in fact taken Uncle Sam's own money to kill him!

The Locofocos talk of "compromising" the present difficulties. Not one of them proposes a single point of concession by the South to the North. What they want is, that the North shall concede everything.

It is proposed to repeal the present Personal Liberty laws and adopt the Virginia act, which is represented as perfect. It guarantees the right of trial by jury where the question of Freedom is concerned. Would that satisfy the South?

The States which have stolen Uncle Sam's powder, should be deprived of his mail-bags until they repent, and return the stolen goods or the value thereof.

Only last week, a South Carolinian paid for a Patent from the U. S. Office at Washington. This, with buying U. S. postage stamps, indicates a very singular kind of independence!

The Virginia Election for a State Convention resulted in a very large majority of both Members and popular votes, for the so-called Unionists, whose creed is to have all they want, or else "secede." Among the open Secessionists is crazy Wise.

Judge Black is nominated for a Judge of the Supreme Court, and John Petit for Kansas.

Each House of Congress has appointed a committee to prepare for the usual counting of votes for President and Vice.

Mr. Breckinridge, it is stated from Washington, is now in full counsel with the conspirators, and is relied on by them as one of the effective managers of the movement.

A son of a high official was arrested at Harrisburg last week in a disreputable house, but afterwards released. This is a great error in the administration of justice, as, instead of the poor devils who too often find themselves in jail here and elsewhere, it would be far better if those called respectable were committed to that institution as examples to others.

Among the list of patents issued by the Patent Office in December, is one to M. F. Noracouk and Daniel Hoats of Milton, for an improvement in a machine for hulling Clover.

Senator Ketcham of Luzerne, said very truly in his speech that Pennsylvania has found out that Slavery is hostile to the interests of this State.

A deer weighing four hundred and two pounds, (says the Telegraph,) was recently shot near Big Pond Furnace, on the South Mountain, in Cumberland county. The animal was supposed to be about seventeen years old, and no doubt its meat equalled in toughness some of the beef sold in the Harrisburg market.

The number of "trampers" passing this winter through the country, is less than in any winter since 1857. A slave in Missouri, named Anderson, in attempting to gain his freedom killed his master, and reached Canada, where he was adjudged to be delivered up, not for escaping, but for the killing, under the extradition laws between Great Britain and the United States. In England, however, a superior Court has issued a habeas corpus, and Anderson will be taken over seas to have his fate determined upon. It is there claimed that a slave has a right to escape if he can, and any one hindering does so at his own risk. Canada does not like this interference, and it may turn out a very important case. Buckeye Reaper & Mower,

Manufactured by

SLIFER, WALLS, SHRINER & CO.,

Central Foundry, Lewisburg, Pa.

THE Buckeye Reaper & Mower was introduced in 1857, and so perfectly was it adapted to the work designed that at the Greatest Practical Field Trial ever held in this country, in July of the same year, at Syracuse, it triumphantly carried off the

Grand Gold Medal and Diploma!

At the Indiana State Trial, held at Laporte, in 1858, nearly as many machines were represented and as thoroughly tested as at Syracuse, and the

Buckeye was again the Victor!

And so also at nearly all the field trials and exhibitions in 1858, '59 and '60, when it was a competitor. At a number of exhibitions it received the First Premium as a Mower, First Premium as a Reaper and First Premium as a Combined Machine. These numerous awards prove conclusively the correctness of the decision at Syracuse.

The combined opposition of the manufacturers of Mowing and Reaping Machines and their efforts to crush and to bring into disrepute the Buckeye, only served to prove its SUPERIORITY; and the fears they entertained of its final success and triumph were evidences of the real worth and merit of the machine.

The Machine has now passed through four harvests, and during the last three over Nine Thousand have been built and sold—and the farmer may judge of its reputation by the numerous awards made by committees both at field trials and at State and County Exhibitions, as well as from the numerous demands, which the manufacturers have never yet been able to supply.

THE ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR RESTORING

THE BALD AND GRAY.

MANY years the great discovery of Dyeing Wood, have attempted universally to restore his hair to its natural color, but perfect restoration has been unknown, that would produce a beautiful head of hair, that would not soil pillow cases, or stain the hands in the operation. I feel that I have at last succeeded in discovering a preparation that will restore the hair to its natural color, and have named it the

Restorative Wood Dye.

Every bottle is warranted to produce the desired effect, or the money will be refunded. Call and see me, or send for a circular containing certificates from many of the most eminent physicians and others, showing the effects of my discovery. Respectfully yours,

R. P. ALLEN, Rochester, N. Y.

Rochester, April 19, 1858.

PROF. O. J. WOOD & CO.: Gentlemen—In reply to your letter I would say that I have used your Restorative, and which you have published to the world so many and extraordinary cases, between the hair of my head and that of a boy seven years old. The hair in the case of the boy was originally black, and that of my head originally red. The experiment was first tried upon the boy's hair, and in the course of a few weeks it became of a beautiful brown color, and to the delight of the boy's mother, and to the astonishment of many others, the hair of my head, after the use of two bottles, became of a beautiful brown color, and has remained so ever since. I have not used any dye for my hair for over two years, and yet my hair is as good as ever, and has actually been increasing in quantity. As I am now of years old, and not a gray hair on my head or in my face, and to prove the fact, I send you a lock of my hair taken from the back of my head. I have used about two dozen bottles of your Restorative, for which I am very grateful. I gave it to my friends and they indorsed them so highly that many were constantly calling, and their patronage and good will with success. I will say as a favor, that you would confer a favor on me by letting me know what is the ingredients used in your Restorative, as many of my friends would like to know. I remain, dear sir, yours, A. C. RAYMOND.

Auburn, Erie, Co., N. Y., Nov. 30, 1858.

PROF. O. J. WOOD: Dear Sir—I would certainly be doing you great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using the Restorative of your Hair Dye. Having suffered for the loss of my hair for a number of years, and having used many articles recommended for the restoration of the hair, without success, and having become disgusted with the use of any thing of the kind, I was finally induced to try a bottle of your Hair Restorative. Now, sir, under any previous circumstances I am unwilling to acknowledge that I have become a new and beautiful growth of hair, which I procured before and has become more than the original was. I am therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of it.

Respectfully yours, ELIJAH ALLEN BROCK.

P. S. This testimonial of my hair speaks more for your valuable medicine than you are aware of. It is unsolicited—but if you think it worthy a place among the rest, insert it if you wish; if not, destroy, and say nothing.

Yours, &c., Rev. S. A. B.

The Restorative is put up in bottles of three sizes, viz large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent. more in proportion than the small; retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3.
