

Star & Chronicle

O. N. WORDEN & J. R. CORNELIUS.

The Business Men... published on the 15th day of February...

Freedom, national; Slavery, sectional!

The six "Confederated States," which met in Montgomery, Ala., and only acting as "the Delegates," and not as "the People" of those States...

Jefferson Davis was unanimously chosen provisional President, and A. H. Stephens, Vice--each at heart anti-secessionists. Both (although in infirm health)...

John Tyler's Party in Washington have appointed a sub-committee of one from each State to hatch an egg that will suit everybody.

Last Monday, an immense crowd at Springfield, Ill., escorted the President-Elect from his now deserted home, to the railway cars...

There are about twenty friends, including his own family, with Mr. Lincoln. Especial pains are taken to provide, in advance, for their comfort and safety.

It is related that a half-baked Jonathan at Concord, Mass., A. D. 1775, when ordered to fire upon the British...

A williamport (Pa.) editor not long since boasted that "Everlasting State" had increased in population faster than the State of Maine...

A wild cat was killed by Daniel Ball and Peter Townsend, on the 21st inst., about three miles from Tunkhannock.

SHORT LIVED HONEYMOON.--A Miss White, of M'Kean, who was married to a gentleman from Mississippi a few weeks ago...

In the House, 11th inst., the following expression of views was moved by a Republican:

Resolved, That the Federal Government, nor the people of the governments of the non-slaveholding States...

Some of the secessionists fought this, but none daring to vote against it, it passed--Yeas 101, Nays none.

Congress has resolved upon the building of additional steam war sloops.

Mr. Boutigny, elected to Congress from New Orleans as a Union man, refuses to leave until those who elected him desire it.

Two more U. S. revenue cutters--the Lewis Cass and the Robert McClelland--have been surrendered to the secessionists.

The report of Mr. Morris, of Illinois, from the Special Committee raised to inquire into the facts in regard to the abstraction of bonds from the Interior Department...

The work of thoroughly preparing for any possible emergency is going on, at Washington, much to the dismay of those secessionists...

News Items from Other Counties.

Some persons shot a white swan, near Seltsgrove, in the river. It measured nearly seven feet from tip to tip of its wings.

George Merrick, Esq., had a "Bachelor's Party" in Northumberland last week, which was a pretty good make believe, considering as how 'twas a Bachelor's affair after all.

Hon. James H. Campbell, a member of the House Union-saving Committee from Pennsylvania, writes home to the Miners' Journal that he thinks the time for compromise has passed.

Mr. D. Meigie (some time in the University at Lewisburg, from Philad.) was last week ordained to the Gospel ministry, as pastor of the Baptist church in Milton.

About six weeks ago, James Welchans lost a heifer, and after the most careful search no trace of her could be found.

On Monday as another heifer was passing over a heap of straw she fell in and disappeared. Upon getting her out the missing heifer was discovered, alive and well, having eaten a large hole in the straw surrounding her.

It was the unpleasant duty of Judge Taylor to pass upon the conduct of some boys, brought before him at the late term of our court, charged and convicted of stealing chickens--a mean business at best, and which required his Honor to send a part of them to the House of Refuge.

James S. Dickerson, publisher of the Philad. Christian Chronicle, has been ordained to the ministry, and as pastor of the Second Baptist church in Wilmington.

One of the Editors of the Lewistown True Democrat has been obliged to leave the establishment, as it would not support two. Of 800 subscribers, only 83 had paid up to the time he left, and only 19 had paid a dollar in advance.

A notice of the "National" here, may be interesting to many of your readers. It is situated on the south side of Race street, just above Third, in a brick building, and a depth of 100 feet.

The attack on Fort Pickens is postponed--the U. S. Ship Brooklyn having come to the relief of Fort Sumter, and the undertaking being found too hazardous.

The last, "fierce" demand, of South Carolina for Fort Sumter being declined by the President, it was expected that it would be forthwith attacked, but it was not--that job being delayed for better preparations.

The Kentucky Legislature adjourned, without calling "nary" Convention, until the 24th inst. They did, however, recommend a National Convention to propose amendments to the U. S. Constitution.

The Kentucky Legislature adjourned, without calling "nary" Convention, until the 24th inst. They did, however, recommend a National Convention to propose amendments to the U. S. Constitution.

The United Presbytery recently held a meeting at Steubenville, petitioned Congress to reject all compromises to or extend slavery, or nationalize it, as to involve the free people of the North in the sin.

A Memphis editor, having asserted that Senator Douglas advocated the secession of the Border States, as the best way to obtain the passage of compromise measures, the Little Giant has written a strong Union letter, urging his Tennessee friends to stand by the Union under all circumstances.

From Philadelphia.

To-day the mercury is above temperature, rising towards summer heat. Last week it was in the 70's, and the sun's rays made the weather more than usually a subject of remark.

Last Sabbath, thousands were attracted to the Arch Street wharf, by the Ship "John Trucks," just arrived from Liverpool. The vessel was in a sinking condition, and several crew-men and all the aid that could be procured, were immediately applied to save the ship and her cargo.

The Academy of Music, the most fashionable resort in Quakerdom, where prima donnas have enchanted thousands, has been turned into a stable for horses, and is now being used as a "Race" track.

Abel & Leland's Stereoscopic is a new and powerful apparatus, which magnifies photographs, and presents them upon illuminated canvases with all the effect of the Stereoscope.

A gentleman from this place, who has just returned from a journey of several months, through the Cotton States, informs us, that the disunion sentiment in those States is predominant to a fearful extent, and that the excitement is kept up by a constant supply of rum and bad whiskey.

The Groceries and Hotels were doing the only business just now in most of the interior towns. The few conservative men among them are overawed by the rabble, led on by the politicians who are trying to regain their power, in the Southern Confederacy, which they have lost in the Union.

A combination of the worst elements in a free country is keeping down the true sentiment of the honest, industrious and better class of people. Demagoguism and whiskey rule the roost under the pampered and policed dishevelled--Danville Democrat.

WHAT DOES IT MEAN?--The Charleston Mercury was very abusive of Gen. Houston because he would not call a special session of the Texas Legislature. It quotes from the patriotic letter just published by old San Jacinto, and remarks:

"Such is old Sam. We hope he will not at last die like old Zack Taylor, of a pain in the stomach."

We have often heard it hinted, in a quiet way, that Gen. Taylor was poisoned by some Southern fanatic, because of his hostility to pro-slavery schemes; is this reference of the Mercury to his death a hint to some enterprising Texan to put Gen. Houston out of the way in the same manner? If not, why refer to Gen. Taylor's death at all?--Tribune Gazette.

CAN AN INDIVIDUAL SEcede?--Some one propounds the following pertinent query to the Philadelphia Press:

I am a citizen of West Hempfield township, Lancaster county. Our taxes are heavy, amounting to about \$200 a year. I wish to know whether I have not as good a right to secede from South Carolina or New York? I desire to establish a nursery in small way, myself to be king, and to be entirely independent of the world. I have very many friends, in numbers about equal to the white population of South Carolina, two guns, three bull-dogs, six month's provisions, &c. If you think I am right, say so, and I will fight to the bitter end. WEST HEMPFIELD.

RIGHT OF SECESSION.--Here is a peep into the future. How does it look? January, 1870--United States vote to buy Canada of England, for \$25,000,000.

February, 1870--England assents, provided Canada is willing.

March, 1870--Canada votes yes.

April, 1870--Money paid--\$25,000,000.

May, 1870--Canada belongs to the Union.

June, 1870--Canada secedes under her reserved rights as a "sovereign State."

[And Democrats say, "It can not be helped--we must not coerce!"]

In Mobile, the Register says every branch of business feels the effect of the political crisis. That paper, in consequence of the loss of advertising from Northern firms, whose business does not warrant the expense, has been compelled to reduce its size. Secession appears to be a bad business everywhere.

THE CHEMISTRY OF MEDICINE.--Among the special delights which have so richly repaid our visit to New England was the inspection it was our privilege to make of Dr. J. C. Ayer & Co.'s Laboratory, at Lowell.

It was large, yet we were surprised when we came into view of the real magnitude of the establishment, and the execution of its truly immense business. The whole massive structure is in fact one vast chemical laboratory, in which the processes of this wonderful art are constantly going on.

Medico-chemical science has found that the curative properties of any substance exist in the smallest amount of its material parts. Thus the remedial effects of opium are due solely to the morphia it contains, although this is but one-eighth part of its weight; the other seven-eighths are gum, extractive and inert or offensive matter. Dr. Ayer's system separates the medicinal properties of each substance employed, and we are here shown the process by which the remedial agent is chased through the alchemies until they come out completely pure at last.

These concentrated, purified medicinal properties, or virtues, are finally combined together to produce the remedies which have made themselves a reputation for unrivalled excellence, and stand the test of time. Not only does the Doctor disclaim all secrecy in his art, and explain every particular, but he maintains that this is the only process by which the people can be supplied with the best possible remedies for the treatment of disease.

The Formula by which his remedies are made are published in his works, and the medical Faculty of the United States, and are constantly sent by mail to such physicians as apply for them.--Dialy Chronicle, San Francisco.

Buckeye Reaper & Mower, Manufactured by SLIFER, WALLS, SHRINER & CO., Central Foundry, Lewisburg, Pa.

The Buckeye Reaper & Mower was introduced in 1857, and so perfectly was it adapted to the work designed that at the Greatest Practical Field Trial ever held in this country, in July of the same year, at Syracuse, it triumphantly carried off the Grand Gold Medal and Diploma!

At the Indiana State Trial, held at Laporte, in 1858, nearly as many machines were represented and as thoroughly tested as at Syracuse, and the

Buckeye was again the Victor! And so also at nearly all the field trials and exhibitions in 1858, '59 and '60, when it was a competitor. At a number of exhibitions it received the First Premium as a Mower, and the Farmer may judge of its reputation by the numerous awards made by committees both at field trials and at State and County Exhibitions, as well as from the numerous demands, which the manufacturers have never yet been able to supply.

Slifer, Walls, Shriner & Co., Manufacturers of Bullock's Patent Mower and Reaper, Buckeye Reaper & Mower, Darling's Patent Horse Power, Willson's Patent Fodder Cutter, Rich's Patent Iron Plow, and Michigan Patent Plow; also, Stoves and Castings of all kinds. LEWISBURG, PA.

Central Foundry and Machine Shop, Corner Sixth and Market streets, Lewisburg, Union Co., Pa. Rev. 9, 1860.

AGRICULTURAL SOCIETY.

NOTICE.--A meeting of the Executive Committee of the Union County Agricultural Society will be held on THURSDAY, the 15th day of February next, between the hours of 10 and 11 o'clock, A. M., at the office of J. A. Mertz, in Lewisburg, for the purpose of making arrangements for the present year.

ELECTION.--A general meeting of the Members of the Union County Agricultural Society will be held at the office of J. A. Mertz, in the borough of Lewisburg, on THURSDAY, the 15th day of February next, between the hours of 10 and 11 o'clock, P. M., for the purpose of electing Officers for the ensuing year.

Real Estate. THE large Double Brick House and a fine house on upper Market st., a public house. It will be rented as a public house, or may be occupied by two private families. Inquire of BENJ. CAWLEY, Agent, or JOHN O'NEIL, near Milton.

FOR RENT. THE large Double Brick House and a fine house on upper Market st., a public house. It will be rented as a public house, or may be occupied by two private families. Inquire of BENJ. CAWLEY, Agent, or JOHN O'NEIL, near Milton.

Sheriff's Sale. BY virtue of a writ of Fieri Facias, issued out of the Court of Common Pleas of Union county and to me directed, I will expose to Public Sale on Thursday, the 21st day of Feb'y, 1861, at the Public House of D. Brewer, in the borough of Lewisburg, Pa. All that two-story frame Building and lot of ground, situate on Old Market street in the borough of New Berlin, adjoining lot of Joseph Shaffer on the west, Plum street on the east and Church alley on the north, containing in front on said Market street thirty-six feet, and in depth thirty feet, with the lot or piece of ground and curtilage appurtenant to said building &c. as the property of Mary Mamma, JOHN CROSSGROVE, Sheriff.

FOR SALE. THE subscriber offers for sale several BRICK HOUSES, and other Buildings, situate in the Borough of Lewisburg, Pa. He will sell to the purchaser, who will please call on Mr. Jonathan Mertz, who will give them such information as they may desire. July 5, 1859 G. SCHNABLE.

FOR SALE. THAT valuable Brick Yard property situate in Buffaloe township, adjoining lands of Jacob Durr and William Cameron, with everything complete for the manufacture of Brick &c. Also BUILDING LOTS, Terms Easy. Apply to JOHN C. MURPHY, Philadelphia, or Mr. Atty. W. H. CARROLL, Jr. Lewisburg, Oct. 17, 1859.

THE ONLY DISCOVERY THE BALD AND GRAY. MANY since the great discovery of Prof. Wood, have attempted not only to imitate his discovery, but to improve upon it, but all have failed to produce a permanent result, and have only succeeded in carrying away by the wonderful results of Prof. Wood's Preparation, and have been obliged to leave the field to the real discoverer. Read the following:

Prof. J. Wood, of New York, writes: "I was cured in 1856 of my hair falling out, and I have since published in this vicinity and elsewhere, a full and complete description of the facts in this case. The preparation, as I said, is not a secret, it is a discovery, and it is a discovery that will cure every case of baldness, and it is a discovery that will cure every case of gray hair. My hair is now as thick and as black as ever, and I have been able to keep it so for many years past. I have tried every other preparation, but all have failed to produce a permanent result, and I have only succeeded in carrying away by the wonderful results of Prof. Wood's Preparation, and have been obliged to leave the field to the real discoverer. Read the following:

Read the following:

Prof. J. Wood, of New York, writes: "I was cured in 1856 of my hair falling out, and I have since published in this vicinity and elsewhere, a full and complete description of the facts in this case. The preparation, as I said, is not a secret, it is a discovery, and it is a discovery that will cure every case of baldness, and it is a discovery that will cure every case of gray hair. My hair is now as thick and as black as ever, and I have been able to keep it so for many years past. I have tried every other preparation, but all have failed to produce a permanent result, and I have only succeeded in carrying away by the wonderful results of Prof. Wood's Preparation, and have been obliged to leave the field to the real discoverer.
