Freedom, national; Slavery, sectional!

Spring Election to-day, Friday, March 15

The Tasks before Them.

The President, and most or all of the Members of the new Cabinet, have entered upon the duties of their Departments, and begin to realize the actual dangers and difficulties of the country. They find matters much worse than they even feared—much worse than the country generally is aware of.

A merchant whose stock of goods is exhausted, whose clerks have peculated upon him, whose assets are worthless, whose accounts are deranged, who is deeply in debt, and whose credit and standing are everyway impaired—is a fit representative of our Government, passing from the hand of Buchanan to Lincoln. Or it may be likened to a Farm whose fences are down, stock starved and unruly, implements broken and lost, soil exhausted and covered with pernicious weeds, and going to ruin generally. Such is our condition as a Nation—and the best Merchant, or the best Farmer, can no more restore their credit and prosperity in a day, than our Administration can undo past evils and put the Nation again upon the track in one year.

The President and Cabinet find the Departments and Offices demoralized by the presence of Secessionists of the worst sort—men acting merely as spies to betray the Government into the hands of its enemies! Many of these are secret—and so much the worse for that. They must be expelled—for there can be nothing done in safety in the knowledge of these Jesuitical emissaries, who cheat the very hand that feeds them, and rob the Treasury as in the case of the Indian Trust Bonds. The disease of Disunion has so deeply infected the Capital, that an honest, patriotic Unionist hardly knows who to trust there, in or out of office.

The Army and Navy are found—as Floyd, Cobb & Co. tauntingly boast—scattered over the World, so as to be as much as possible out of the way when needed to protect their home against the nefarious plots of the Disunionists. Gen. Scott had to withdraw soldiers from distant posts, and endanger other points, to get men enough at Washington to save the Federal Capital from the schemes laid to take it. These designs, he, by his energy and foresight, thwarted, and thus averted civil war—for the Freemen would not be robbed of their Capital by the modern Buccaneers. Two-thirds of the officers of Army and Navy are Southerners—many of them honorable men, but others as false and treacherous as Satan himself. How many more will yet pervert their powers against the country that gave them honor and fed them generously until now, none can tell.

The Treasury is deficient, in view of the demands upon it and the withholding of its dues in cash received and customs accruing from the South. By the time the Books are settled up, and facts known, it will probably appear, that One Hundred Millions of Dollars of indebtedness are to be provided for, (whereas, Buchanan came in with an overflowing Treasury.) Happily, it is believed the new Tariff will not be long in showing, practically, the benefits all parties hope from it.

One of the most mortifying facts—and one to which the Cabinet have first directed their attention—is, the wants of Major Anderson at Fort Sumter. His prompt and patriotic checkmating of the schemes of the Disunionists of Charleston, has drawn the eyes end hearts of all patriots towards him, and he has done much to cool the Secession fever. Buchanan's Administration continually published that he "needed no assistance," and thus lulled the public mind into a false security, while the Carolinians have been hedging him up in every way, and cutting off all hopes of escape or long continued successful resistance. The feeble effort of the Star of the West to aid him was not renewed, and the enemy have employed every day in enclosing him in their net. It now leaks out from Washington, that Anderson DOES need fuel, provisions and men—and that, in all human probability, he can not hold his post for many days longer. The anxiety of Gen. Scott, and of the Administration, in the case, exceeds that of any other subject before them. It is not supposed that any wooden ships (we have none iron-cased) can run the gauntlet of half a dozen batteries to reach Sumter from the Ocean. A land attack would require 10,000 men, with the best materials. The whole U. S. Army could not supply that want, and the Government has no authority to raise a force in such an emergency. "What shall be done?" is the anxious inquiry. Secretary HOLT justly says—and the candid world will agree with him—that the present Administration is in no respect responsible for the way in which they find matters: but Anderson must be aided, or given up. The true Union men in the South say that the issue of a bloody contest would be disastrous to their efforts to turn out the whole Secession crew—at home—the coming season, and beg that it may be abandoned (even as Gen. Lincoln abandoned Charleston during the Revolution.) The matter of course will be well considered—and should Gen. Scott and the President and Cabinet agree upon the necessity of such an unpleasant course, the country will acquit them of the blame, and lay it upon those who refused to reinforce the Fort when it needed it and could have been saved.

☞Under the lead of John Sherman, in the House, the business of Congress was better finished, this year, than ever before.

The Pacific Railroad and Homestead Bills failed for want of agreement.

The Territorial Governments of Dacotah, Nevada, and Colorado were established. Nothing could be agreed on respecting slavery, of course, and so they have no provision on the subject—but the choice of Free Soil Governors, Judges, &c., will be pretty sure to secure them to Freedom.

Mr. Buchanan, with characteristic uncertainty, after strong persuasions of Pennsylvanians, signed the Tariff Bill, which is now the law and causes great rejoicings. It goes into operation 1st April next. It has inspired much hope and confidence, and capitalists and business men will now begin to plan enterprises for the future. The Tariff of '46 was some years in showing its evils—that of 1861 will show its blessings sooner.

In the U. S. Senate, on the question of confirming the nomination of Mr. BLAIR, Senators Mason, Bragg, Clingman, Wigfall and Mitchell (from the South) assailed it on the ground that NO SOUTHERN MAN SHOULD HOLD OFFICE UNDER MR. LINCOLN. Messrs. Breckinridge and Polk said that Mr. Blair was eminently qualified, by fitness and integrity, and political reasons should not deter them from voting for him. (Southerners would lynch Lincoln Electors in some States, and then complain that he has no votes there! They vote against Southerners in the Cabinet, and then complain that there are not more of them there!)

Mr. Crittenden, in his farewell speech in Senate, said the North would do justly with the Border States, and Kentucky would be the last to leave the Union. He abandoned his own Resolutions of Compromise—thinking those of the Peace Conference better—and would agree to anything for harmony and re-union.

The absence of twelve Southern members of the Senate gives that body to the Republicans, who have organized the Committees to suit themselves, (having a majority on each) and will make some changes of Officers. A motion is before them to expel Wigfall of Texas, who boasts that he is a foreigner, defies the Union, and yet draws his pay and inflicts his maudlin pot-house speeches upon the honorable Senators!

The Slaveholders' Congress at Montgomery have ranged rates of postage about 60 to 70 per cent. higher than in the Free States. They also order taxes or tariffs on all goods from abroad or from the Free States, and also on cotton exported! "Sings is working."

One Anti-Secession meeting has been held in Mississippi. This may be the beginning of the re-action practically, as they called another meeting. The taxes are most bitterly complained of.

The Massachusetts Legislature, having examined their Personal Liberty Bill with a compromising telescope of forty-thief power, discovered a technical flaw which they removed without impairing the strength of the law to prevent kidnapping. It is supposed Twiggs will now give back to Uncle Sam all the property of his agent which he betrayed into the hands of enemies, and the Union is saved again!

The Floating Battery at Charleston is a failure.

Ex-Gov. Roman, of Louisiana, who was appointed to "negotiate" between Jeff Davis' government and the United States, has not come on, and it is stated has become a Unionist!

When General SCOTT heard that the Inauguration was peacefully completed, and of the character of the President's address, he raised his hands and exclaimed—"*Thank God, we have a Government.*" And so say tens of thousands.

By an amendment to the Patent Laws passed in the recent Congress, "all patents hereafter granted shall remain in force for *seventeen years* from the date of issue, and all Extension of such Patents is hereby prohibited." This act, enforced, will put a stop to a great amount of lobby corruption at Washington.

North Carolina gave 1000 maj. against holding any Convention. It will therefore not be held—but the Members-elect are two to one Unionists.

The Arkansas Convention elected Union officers by a small majority.

The Delaware Legislature has adjourned after refusing an extra session to "agitate the Union," and refusing to renew Wood & Eddy's lottery grant.

A grandson of John C. Crittenden last week fought a duel with an editor in Florida. Both the fools were killed.

The U S. money stolen at New Orleans has been turned over to J. D. Davis.

The Sons of Malta in New Orleans did by vote expel G. C. Twiggs from the Order for his base betrayal of oath and trust.

Norman B. Judd, is Minister to Berlin, and Herman Kreismann (a German born) Secretary of Legation—both, residents of Chicago.

John George Nicolay, the President's private secretary, born in Germany about 1832, developed his talents as editor of the Pike County (Ill.) Republican.

The Revenue cutter Dodge at Galveston has been surrendered to the Texan rebels by its commander, who has entered the service of the Southern Confederacy.

☞The Legislature met again on Tuesday of this week. The election of a U. S. Senator, in place of Gen. Cameron, will soon take place. As far as we have heard opinions expressed, Judge WILMOT is the choice of the people. He was the second in the late election, and Gen. Cameron having been formerly of the Democratic wing of our party the large number of members of that section are entitled to a representative in the person of their favorite, Judge Wilmot, who would fill the position with honor and dignity.

It is said an effort is to be made to give Pennsylvania Banks the power to issue Notes less than $5, and to raise the rates of interest to 7 per cent. The former is unnecessary, as is abundantly proven, and the latter (to take effect prospectively) might do, and would retain millions of capital in Pennsylvania.

The subject of apportioning the State into Congressional Districts, will also engage attention.

☞**Mr. Hayes informs us that the bill presented by him, noticed in our last, was incorrectly reported. It is a bill authorizing the appointment of a Commissioner to take Depositions, &c, in Union county...Another, passed the House, "relative to Courts in Union and Snyder counties," provides that the Union Court shall be held on the *third Monday* in the usual months, instead of being, as before, a certain "*Monday after*" some other Court. It makes the Courts definitely on certain Mondays, independent of the times of other Courts, and we think is therefore acceptable to all...Bills may be "all right," but the habit of passing them without the knowledge of the people interested, is all wrong, for injustice and evil may often be done thereby. In some States, no law whatever can be passed without having been advertised—so that all the people could examine it, and if necessary oppose and defeat it, or approve and help pass it—before the Legislature meets. Such a law would be just and advisable in Pennsylvania.**

☞**They are** *counterfeiting Postage Stamps* **in Florida. Wont our "compromisers" get lower down on their knees and beg most heartily that our lovely, pious, honest, abused, chivalrous brethren will come North and steal more money to buy Stamps—or break into some Post Office, and take Stamps ready made? 'Tis not pretty to cheat the poor with counterfeit stamps! 'Tis not exactly generous for Florida thus to repay the many acts of kindness of that clever old soul, Uncle Sam. Please, dearly-beloved! don't add to all your other sweet accomplishments that of manufacturing three-cent money!**

At a meeting of the people of Knox county, Tennessee, they resolved that they "will have *no dealings* with any Disunionists whatever," inasmuch as they "consider all Disunionists as enemies and traitors to their country, deserving to be treated as such." That's the way to talk.

"A Subscriber" sends a piece of original poetry to the "Juniata Register." After reading about three yards of it, the Editor "compromised" on the following stanza:

> "Old Ab left Harrisburg in Hurry
> One mile in the Mouth of Feebaty
> The had Him in Disguise
> With a Sleuth Hat over his Eyes"

J. Q Adams, Van Buren, Polk, Taylor, Fillmore, and Buchanan, were "minority Presidents." All right enough in them, but all wrong in Old Abe to be elected by a plurality!

Were there one Jackson living in these days, Twiggs would be very likely to be elevated on a *twig* from the end of less than a fathom of "line."

In consequence of Gen. Twiggs' late conduct in Texas, his name is to be stricken from the army rolls as a coward and a traitor.

Mr. Breed, the newly elected Mayor of Lynn, Mass., is a working shoemaker, and quietly occupied his bench on election day.

Lewisburg Steam Sawmill, Dec. 26, 1860

Buckeye Reaper & Mower,
Manufactured by
SLIFER, WALLS, SHRINER & CO.,
Central Foundry, Lewisburg, Pa.

THE Buckeye Reaper & Mower was introduced in 1857, and so perfectly was it adapted to the work designed that at the Greatest Practical Field Trial ever held in this country, in July of the same year, at Syracuse, it triumphantly carried off the

Grand Gold Medal and Diploma!

At the Indiana State Trial, held at Laporte, in 1858, nearly as many machines were represented and as thoroughly tested as at Syracuse, and the

Buckeye was again the Victor!

And so also at nearly all the field trials and exhibitions in 1858, '59 and '60, when it was a competitor. At a number of exhibitions it received the First Premium as a Mower, First Premium as a Reaper and First Premium as a Combined Machine. These numerous awards prove conclusively the correctness of the decision at Syracuse.

The combined opposition of the manufacturers of Mowing and Reaping Machines and their efforts to crush and to bring into disrepute the Buckeye, only served to prove its SUPERIORITY; and the fears they entertained of its final success and triumph were evidences of the real worth and merit of the machine.

The Machine has now passed through four harvests, and during the last three over Nine Thousand have been built and sold—and the farmer may judge of its reputation by the numerous awards made by committees both at field trials and at State and County Exhibitions, as well as from the numerous demands, which the manufacturers have never yet been able to supply.

Slifer, Walls, Shriner & Co,

Manufacturers of Bullock's Patent Mower and Reaper, Buckeye Reaper & Mower, Darling's Patent Horse Power, Willson's Patent Fodder Cutter, Rich's Patent Iron Plow, and Michigan Double Plow; also, Stoves and Castings of all kinds.

Jan. 25, 1861. CHAS. C. DUNKLE.

THE ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR RESTORING
THE BALD AND GRAY.

MANY since the great discovery of Prof. Wood, have acted, not only to imitate his preparations, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparations, and have been forced to leave the field to its meritorious sway. Read the following letter:

Lee, Mass., April 18, 1859.

PROF. O. J. WOOD & CO.: Sir—In order that I write you in plain terms concerning your valuable Hair Restorative, and which you have patronized in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and home, as stated in the communication? Second, is it trimmed all the grain containers; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablutions of the face, which if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be as much as I stated in the manufacture and sale of various compounds as well as this, it has, no doubt been heavily imitated and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old, and not a gray hair in my head or on my face, and to prove the fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful. I gave it to my friends, and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I do us it my duty, as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results. I remain, dear sir, yours, A. C. RAYMOND.

ASHLAND BUS., Ky., Nov. 30, 1858.

PROF. O. J. WOOD: Dear Sir—I would certainly be doing you great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of it.

Respectfully yours, REV. S. ALLEN BROCK.

P. S. This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited—but if you think it worthy a place among the rest, insert if you wish; if not, destroy, and say nothing.

Yours, &c., Rev. S. A. B.

The Restorative is put up in bottles of three sizes, viz large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo.

GREAT Work on the HORSE.
The Horse and his Diseases

By ROBERT JENNINGS, V. S., Professor of Pathology and Operative Surgery to the Veterinary College of Philadelphia.

Will Tell You of the history and distinctive traits of the various breeds of European, Asiatic, African and American horses, with the principal points of excellence and peculiarities of the whole race; how to ascertain his age by the mouth; and how to counteract the tricks which numerous unprincipled dealers practice upon purchasers.

Will Tell You of the causes, symptoms and treatment of strangles, acute thrush, distemper, inflammation, bronchitis, pneumonia, pleurisy, broken wind, chronic cough, pneumonic and whooping cough, heaves, nose bleed, and decayed teeth, with other diseases of the mouth and respiratory organs.

Will Tell You of the causes, symptoms and treatment of worms, bots, chalic, stomachic, vomiting, concrete or costiveness, colic, spasmodic, flatulent, bloodthrow, bloody urine, stone in the kidneys and bladder, diabetes, retention and other diseases of the stomach, bowels, liver, and urinary organs.

Will Tell You of the causes, symptoms and treatment of bone, blood and hog spavin, ringbone, sweeny, shoulder, sore tendons and strained joints, sore throat, sore back, wounds, bruises, wire cuts, founder, sore tendons and strained joints, scratches, mallenders, canker, thrush and nine kinds of mortifications, hurtings, epilepsy, elapses, and other diseases of the feet, legs and head.

Will Tell You of the causes, symptoms and treatment of fistula, poll evil, glanders, farcy, cracked heels, mange, scurfs, locked jaw, tetanus, cramp, colic, diseases of the eyes and heart, &c., &c., and how to manage castration, bleeding, trephining, rowling, firing, hernia amputation, tapping, and other surgical operations.

Will Tells You of Karr's method of taming horses; how to approach, halter or shoe a colt—how to accustom a horse to strange sounds and sights, and how to fit, saddle, ride and break him to harness, also the form and age of warranty—the whole being the result of more than fifteen years careful study of the habits, peculiarities, wants and weaknesses of this noble and useful animal.

The book contains 384 pages, appropriately illustrated by nearly 100 engravings. It is printed in clear and open type, and will be forwarded to any address, postage paid, on receipt of the price, half bound, $1; in cloth, extra, $1.25.

$1000 A YEAR can be made by enterprising men everywhere, in selling the above work, as our inducements to all such are very liberal.

For single copies of the Book, or for terms to agents, with other information, apply to or address
JOHN E. POTTER, Publisher,
6m871 No. 617 Sansom St., Philadelphia, Pa.
