WM. H. RUSSELL, the celebrated correspondent of the London Times in the Crimean War, China, &c., is now in America, to give back his views of matters in our existing crisis. The N. Y. Tribune refers to him as the same gentleman who was sent to Ireland, to report O'Conneil's speeches, during the "Repeal" agitation. One of the first meetings the newspaper man attended, was in Kerry. Having heard of O'Connell's polite qualities, he thought be would ask that gentleman's permission to take a verbatim account of the oration. The "Liberator" not only consented, but, in his oiliest manner, informed the assembled audience, that, "until that giptleman was provided with all writin' convaniences, he wouldn't spake a word," assuming an extra brogue which was altogether unnecessary. Russell was delighted. The preparations began and were completed :

"Are you quite ready ?" asked Dan. "Quite ready."

ready ?" "I am certain, Sir. Yes."

The crowd becoming excited and impatient, Dan said : "Now, 'pon my conscience. I won't begin the spasch till the London gintleman is entirely ready."

After waiting another moment or so, O'Connell advanced; eyes glistened; ears were all attention ; and the reportorial pencil arose. Dan gave one more benignant smile on the correspondent, winked at the | si audience, and commenced his speech in the Irish language, to the irrepressible borrer of the present editor of The Army and Navy Gzzette, and to the infinite delight of all Kerry.

Hornby Secedes!

"Ethan Spike" writes to the Portland Transcript that the township of Hornby has resumed its original rights, and that he consequently resigns his seat in the Maine Legislature. The following resolutions were passed at a public meeting of the new "sovreignty :"

"Resolved, That we are opposed to korroion, except when exercised by ourselves. "Resolved, That the okupation of the Bald-

circumstance, and onless he is withdrawn nour army be instructed to take possession acur army be instructed to take possession of the same in the name of the taoun.

State's prison and the insane asylum.

Be it enacted, That henceforth and forever in this realm, every quart pot shall hold a galle than be the constitution of this suvrinty." Sure enough-if a State can "secode."

why can't a County or Township? And if a County, why can't an individual "secede," refuse to pay taxes, and begin to rob and shoot his neighbors, Southern fashion ?... Hornby follows Sambonia in every particular.

LIVE WITHIN YOUR MEANS.-One great source of social distress, is the hiring of more expensive houses that people you don't want double parlors—one sunny little parlor is sufficient, and then you will be obliged to retrench on parties. If can afford. Now, the truth may be that be obliged to retrench on your wardrobe. If there is no nursery, you will have your children out more in open air, where they ought to be. If there is no smoking room, you will have to drop the practice of smoking. The smaller your house is, the less room you have to furnish, warm, and keep clean. We have seen kitchens as pleasant as parlors, their presiding genius more ladylike than half our millionaires' wives. If there is the genuine sparkle in a diamond, it will be as bright in the kitchen as in the parlor. If people really MAMMOTH PHOTOGRAPH GALLERY, want to live more cheaply, let them abandon the gilded places that entail an almost endless expense. Let women give up the vain idea of making a show, and try, instead, to make happy homes. A great deal -more, perhaps, than the world imagines-

At a boarding house at Milledgeville, the day on which the Ordinance of Secession was passed, some of the Delegates, who were impatient to be out in the crowd who were shouting for the independent State of Georgia, reproached the cook for not having supper earlier. He replied: "Well, gem'men, I bear you say dis morning, you would be out'n the 'Nited States 'fore tree 'clock to-day, and I 'fore tree 'clock to-day, and I thought 'twould be late 'fore you got back to supper." They excused bim.

We have a little friend, Freddy, who is less than four years old. His sister, who is not quite a year old, was sitting in her father's lap one day, erying and fretting for her mother, who had gone away, when Freddy turned to her, and said, in the most earnest manner possible, "There, Alice, you've cried enough; there's no use fretting any more; mother's gone away, and father don't keep the article you want."

President Lincoln has a very aggravating way of dealing with the office seekers by whom he is daily beset. He refuses to grant any private interviews, but insists upon receiving all verbal communications in the presence of third parties. By this means he undoubtedly escapes much pertinacious annoyance.

PITHY VALEDICTORY.—Henry Winter Davis made a striking reflection on the elose of Mr. Buebanan's Administration. "We are at the end," says he, "of the in-sane revel of partisan license, which for so For Cases, Medallions, Pins, Bings, &c. [866y1 many years has worn the mask of govern-

My family and friends all centers in the opinion that

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a minutare in Oil Colors, under the new process discovered by hos, and take great pleasure in expressing the satisfaction given me, not only by the scrimacy of the likeness, but the setting in the likeness, but the satisfaction in the commend him to ful art.
