COL. DIMMICK DISPERSES THE REBELS.

Mrs. Helen C. Hayes is appointed Post-Mistress at Hartleton, Union Co.

Judge Wilson was able to hold the Court about two hours, yesterday. Judge Graham arrived last evening, to attend to cause ready for trial.

Yesterday morning last, the Sermons preached in Lewisburg were upon the subject of Temperance—and a mass meeting in the evening in the Methodist house for the promotion of the cause.

A good "Union victory" is recorded in our hystorical record. Mr. Coopered against Garrison at Winchester, where he resided, but such was the enmity shown for that lawless act that he returned North, losing many days, and established himself here in business with Mr. Evans. Last month he returned, and—albeit threatened with death, but protected by noble personal friends—made new ardent vows, and then "signed" with his rich purse from a grand, and State which has lost him its brightest attraction!

The number of interments in the Lewisburg Cemetery year ending 1st instant, was as follows:

The aged had reached about 60,000, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76 years. In the Borough, the ratio of debent's population was about 1 to 83—between the average town and less than the general average of the United States, whereas—even under the very imperfect general report—the deaths in 1859 were 1 to every 72.

From the "Lewisburg Infantry."

[A friend in Lewisburg furnishes us the following extracts from a letter written by his brother, a member of the Infantry.]

WASHINGTON, May 15.

I have just returned from where our town boys are quartered, and such a glee as we were in can not be expressed by language, and the deep emotions of their strong hearts are only known to themselves. The occasion of all this, was the safe arrival and unpacking and receiving of all these gifts, given and sent to us by our friends and the ladies in general (God bless them) of our happy home. I wished you all could have seen and heard us just before we opened the boxes. As we all stood around them, we gave three hearty cheers as was ever given by as many men for the Ladies of Lewisburg, with our hats off our heads and a grand "Huzzah" to close. When we unboxed the tables first, and as each received an ox or bundle, they would steal away to see what it contained, and come back pleased all to pieces. Of course mine was opened in double quick time. I divided the cakes to those that were not so fortunate as myself, the apples also. The butter I gave to Capt. Chamberlin's mess. The cherries, tomatoes and beef, I packed up again and will use them when we get into camp service, which will be in a few days. We then unpacked the larger box, and distributed the private packages to their owners. Also the papers and letters. We then listened to the consoling and cheering letter of Mrs. Wade. Chear after cheer was going up for you all, all the time, loud and strong, enough to make the old church burst. We did not distract the under clothing, soap, &c. We took the lights must be extinguished. Of course, you will know that the drilling exercises are very strenuous, and especially so when very warm. We are at liberty to go where we please between the hours of drilling time, but are generally glad to take rest. Our muskets, too, need cleaning often, our quarters swept, &c. We sleep on the floor, some in the pews: I prefer the floor, as there is no risking the chance for "falling out of bed." There are four companies quartered here. You can imagine many are the jokes and puns got off before they all go to sleep.

I think there is less excitement here than with you, because generally we don't know what is going on. All the letters sent to Philad. were received on Thursday—I got 7. The boys were almost crazed with joy. We had no idea that the enthusiasm was so great at home. I have been all over the city. Of course, I need not describe the White House, Capitol, &c. &c. I saw President Lincoln and had the exquisite pleasure of shaking his hand. Hans and I passed through the yard of the White House, and we saw the President on the portico, fronting the river, and persons going up to see him; we just stepped in; I uncovered my head, bowed, and received his hand, said "God bless you!" he bowed and shook my hand right heartily, and then I gave place to others. I have not yet seen any members of the Cabinet. We have become accustomed to our blouses, and sport them on Pennsylvania Avenue as proudly as U. S. Congressmen in broad cloth, but for the sake of our State I hope we will soon be better uniformed. Mr. Charles M. Hall was here the other day—was very kind, and offered to do anything he could for us.

—We have thus given both sides of a matter which we now dismiss. But we say, it is well that this early scruples be commenced, so that speculation and position may be settled in the buildin' State and National Government, if possible, trace back all bad bargains in old clothes, and if no redress is effected let them be at least on the guard for future.

—Chattels, Capitalists.—The Mobile Advertiser of Wednesday morning following extraordinary letter:

MONROVIA, April 26.—Two negroes of Mangrove have taken nine hundred dollars of the Confederate Loan. Peter, the Negro of Mrs. Tarbert, and a black boy named Spring Hill, took four hundred dollars, and the foreman of A. Hatch, Esq., in his plantation at Arcola, took his hundred dollars. Some of our most valiant planters have not taken a dollar, nor others that are able to take thousands, were only subscribed from \$50 to \$100. Think on the patriotism of our wealthy men, that the negroes should be more patriotic than they?

It seems that chattels, which dare not real estate, vote, testify in courts, exercise any other rights of freemen in Africa, can still give their little pecuniary earnings to the despotism that rules the South. Can any Southern political party explain this anomaly?

INFANTS.—In one Maine volunteer company there are thirty-one over six feet in their stockings. They are called the "thirty-one infants."
