The "Siberian Guards," over fifty in number, left Lewisburg for Harrisburg, Wednesday morning. They were escorted by Capt. James Hayes and his troop of forty or fifty on horseback, about an equal number of Home Guards, under Capt. Naylor, and a portion of the University Company, commanded by Capt. Hutton, whose invitation guard and soldier movements commanded special attention. A very large throng assembled at the Depot, when Prof. Ellis made some remarks, and the Volunteers and their friends, and E. L. Reberbach commended them in prayer to the blessing of Almighty God. The train consisting of the "Siberians" departed about the hours of last winter of the crowd.

Several who had been engaged in the development, were detained by the wish of their friends, and some who had engaged to go had also entered into business engagements which they could not possibly keep.

FROM THE "SLIPPER GUARDS."
 Presenting that the troops have left our city this morning with a fair expression of the feelings of many of our citizens, and that they will march with honor, and with movements of the Stars and Stripes, we will submit a brief report of this affair, and continue the same hereafter, hoping our actions will ever be such that a truthful report will be pleasing and profitable to the people of the State.

We would respectfully tender our hearty thanks to Prof. Ellis for his inspiring words of cheer, to Capt. Hutton for his efficient services, the University Guards, Home Guards, the Troop, and your citizens generally, who kindly escorted us to the Depot to see us off on our way.

WANTED.—A couple of dozen able men from this county to do out the Guards' number. For the credit of our County, and the good of the Company, the needed men should be quickly supplied.

There is a general determination, in the really Free States of this Union, to celebrate the coming Fourth of July in a more becoming and general manner than usual. Preliminary arrangements have been made, and have been in Lewisburg by every proper locality observed in some way or another.

The Flight from Missouri.

Mr. Wm. A. KEENE, a native of Union county, yesterday called upon us, and gave us some further particulars of the expedition from Miller Co., Missouri, of most of the families who had settled in the Ozark Valley from Lyonsport and Union counties within a year or two.

In Missouri, every man who enters has to call out the names of the men for whom he votes, both of which are recorded in a poll-book kept for that purpose. By this means, every man's vote can be traced. Mr. Kelly, with 15 or 20 other Pennsylvania men, were for Lincoln in a mass. When the session began to close, all Lincoln men were "trapped" required to name to their neighbors the names of those for whom they voted, and to sign their names to a list of names, which was then published.

which opened into a yard, perhaps 20 feet square, with a brick wall 15 or 20 feet high. It was occupied by "Misslanders," as they are called here. But the grand slave pen was empty, and utterly desolate. It was very large, with a green many-larred room—an enclosure with a high wall larger than the yard at New Berlin Jail—over what Park called a double door. Glass doors opening from the railroad yard, led down to the underground cells, which had rough white-washed walls, and chairs and benches—evidently having been used very lately. But now, in glory had departed. The doors stood open—the barred gates were unlocked—and it will never be used for the purpose it has been.

Children, Stung.

Yesterday morning, about 10 o'clock, a young child of the name of ... was stung by a bee on the cheek. The child was taken to the hospital, and is now recovering.

Which is the True Defaulter?

We see that the Editor of the Argus is at his old tricks of defamation. Weeks after weeks he assails men much better than he is (via the State Administration) as swindlers of the soldiers and speculators on the Treasury—serious charges, which he should prove, or suffer the consequences. The man who throws the first stone at others, should himself be pure. So far as we have known the Administration, its members have handled millions of the public money, and are discharged of every cast. How is it with the man that charges them with embezzlement and holding on to the public's money? Let facts speak.

The list of Defaulters to the State, published a year or two ago by authority, has the following in its statement of monies which the State claims as its due, viz.

"J. M. Brown, late Collector at Liv. ... \$502 41."
 Now, if either, you should satisfy that claim by trying to find out on the spot. Remember the old saying "If you can't stop your torrent of reproach, you can't be justified by the record, you may put a word to public that will."

"The Fish in the Blood" was used by inspiration long before Harvey discovered circulation had brought down the worms and pus. Now we but that disease inhabits it also. Every drop of the blood that prevails the human frame, have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayer, of Lowell, has laid regard to this important fact in making a Remedy to cure these disorders. His extract of Sarsaparilla purifies the impurities of the blood and restores a healthy action in it that expels disease. This is the only medicine that can be used by the afflicted. It is true, he has been under obligations to the Dr. Ayer for the relief which his medicine has afforded him when we are so much in need of his assistance to turn—Gambier, Boston, N. S.
