THEY ARE COMING!! "STAR & CHRONICLE" CALENDAR

At the large gathering, in Hartleton, Monday of last week, some one proposed Five Thousand Dollars as the equitable necessment, in proportion to the property of each mon, upon Union county, as a special reward to those who shall risk esc, fortune, health, liberty and even life in defence of our country from the fees of the best Government ever enjoyed by the human family. But a fine-looking old farmer (unknown to our informant) proposed that the sum be TEN instead of five thousand; that those who stayed at home could and should well sustain and reward those who fight our battles for us. His proposition earried unanimously. Another speaker argued truly that without a good and firm government our farms would lose balf their value, while the burden of taxation would increase with every month of the continuance of the war. These are examples of the spirit and argument of the War Meetings in Union county, and we presume elsewhere generally. In some States, the quota of men to be

furnished by the State, is apportioned to the several wards, towns, and townships. This is equivalent to an equitable draftthe duty is thus distributed equally over all the State. In some of these districts, rewards as high as Two Hundred Dollars have been secured to every volunteer. But pure patriotism is the best stimulant for good soldiers. Accordingly, we find some districts in New England have at once farmished more than their quota of true hearted men. Maine, it is asserted, has her companies and regiments all so nearly complete as to be regarded as fully School Superindended—D. Hackstoon, New Berlin do School Superindended—D. Hackstoon, New Berlin do School Superindended—D. Hackstoon, New Berlin do secured. The Eastern States will be as forward in this as in every other good work. Iilinois, also, is reported as sure for her full complement, and that speedily. In parts of other States, also, there is a great manifestation of enthusiasm. But in other parts, there is so much dissatisfaction with the war, or with the manner of its conduct, that the work is slow, and a compulsory draft may be required in order to raise in due season the force supposed to be sufficient to finish the job. It would indeed be only just that those who pretend to be friends of the Government, This Monday in February-May-Septemb'r-December set eavil at the Administration, and seek to thwart all its measures to put down the Rebellion, should be forced to face some of the dangers-but we have already too many traitors in the Army, and as Volunteers are in every respect most desirable, is is hoped the full number will speedily The following is a fair response to the

call of the President for more men:
