> THE STOUX INDIANS -- Mr. Burleigh, of the Yaucton Sioux Agency, has discovered through Indian spics, that there are five compa of hostile Sioux on the Upper Missouri, who are planning another raid on the North-Western frontier. Some of the conspirators have recently visited the British posessions for arms, where they attended a council held by a

white man, who told them his people were at war with the United States, and encouraged them to exterminate the whites, and that he had himself planned an expedition. We have before published facts going to fix the responsibility of the late out-break on the Sonthern traitors, and this statement makes the evidence of their complicity the stronger. The Sioux are already suffering the penalty of their

treactery. A bill taking away their annuities and giving them to the sufferers from their malice, passed the House of Representatives, on Monday, with only seventeen votes in the negative.

Anecdaic of a Teacher-Soldier. The following aneedote was related by Latest News Prof. Wickersham in his lecture on "Awakening Mind." The incident narrated occurred at the battle of Fair Oaks. We

would have given it a place in our report at the time had our columns allowed itit is too good to be lost : A rebel battery, handled in a masterly

manner, was mowing our men down, and it seemed impossible to drive it from its position. The General, seeing this, rode up to the Captain of a Lancaster county company. "Captain, I want some one who will go out between these armies and shoot the officer in command of that bat tery." "Why, General, it's certain death the field until eleven on Sunday, when 1 to attempt it !" Old mother Benner was pious, but pour. In the midst of her extreme want, her trust and confidence was put in God. It was late one chilly night in the autumn of the year, when two rather wild young men were passing her cottage on their way home. One of them had under his arm some loaves of bread which he had purchased at the village store. A faint light glimmered from Mother Ben ner's easement. Said the one who had the loaves to his companion :

"Let us have some fan with the old woman I"

"Agreed," said the other.

They approached the house, and peeping into the window, saw the old woman upon her knees by the hearth, where a few embers were mouldering in the ashes. She was engaged in prayer. They listened and heard her offering an honest petition for bread. She was utterly destitute of bread.
