

Curiosities of the Report of the Superintendent of Common Schools.

Pennsylvania is proud of her system of Common Schools, and we always turn with curious interest to the report which annually sets forth the progress and prosperity of this system.

Among the curiosities of the report this year is, that in the year 1861 the Scriptures were not read in 1,419 schools, in the year 1862 they were not read in 1,729, showing a decrease in 1862 over that of 1861, 2,820, and proving that the Gospel is spreading in the benighted regions of Pennsylvania.

The decrease in the cost of each pupil per month, including teacher's salary, fuel and contingencies, of 1862 in comparison to that of 1861, is four cents. In 1861 it cost for each pupil on an average, per month, 63 cents, in 1862, 59 cents.

There has been a decrease of male teachers in 1862, in comparison to the former year, of 562, while in the same period the increase of female teachers was 645. Of course the war has had some influence on this result; and it speaks well for the patriotism of the profession of teaching.

During the year 1862, the average decrease in the salaries of teachers was 21.87. When we consider the average inadequacy of the pay of teachers, and the fact that the expense of living has been increased, we must deplore this reduction.

The total cost of tuition in 1861 was \$1,436,063 00, in 1862, \$1,367,181 33, showing a decrease from 1861 of \$68,881 67.

The average number of mills on the dollar of school tax, in 1861, was 5.49, in 1862, 4.75, showing a decrease in the latter year of 65.

Total cost of system, including the whole amount of tax levied and State appropriation in 1861, but exclusive of \$16,292 77 paid to Philadelphia and embraced in the item that year, \$2,342,181 67; total cost of system, including whole amount of tax levied and State appropriation in 1862, \$2,227,191 31, showing a decrease from 1861, \$115,019 76.

In Warren county, there is an Indian tribe, "the Chickasaw Indians," that annually receive an appropriation for the education of its youth.

These are a few of the facts gleaned from a cursory examination of the report of the Superintendent of Common Schools for the year ending June 30, 1862.—Harbinger Telegraph.

SHAME ON THE NORTHERN SYMPATHIZERS.—The Louisville Journal, which is certainly not an Administration paper, has this scorching word of rebuke for those recalcitrants in the Free States who can see only evil in the acts of the Government, and only good in those of the infamous tyrants who have rebelled against the Union, and now oppress the Southern States:

"What is to be thought of those citizens, editors and others, who, pretending to be for the Union, send up ceaseless howls over every military arrest in the United States, yet are never heard to breathe a murmur over the thousands and thousands of arbitrary arrests, imprisonments, confiscations, whippings and hangings, constantly going on in the Rebel confederacy? If they have the liberty of breathing the free air of heaven, why do they not urge liberty than their personal they do not? Our Federal Administration in its worst features, which have certainly been atrocious, has been almost a miracle of constitutional and legal freedom in comparison with the Government to which the Rebels and Rebel sympathizers among us would force us to succumb."

Most infamous swindling in connection with furnishing transports to the Government, has just been exposed by a Republican Committee of Congress. Richard F. Loper, an extensive steamship owner of Philadelphia, is revealed in these transactions in a far from enviable light, while the transactions of Anassa Hall, of Baltimore, Col. Belger, of the Army, Colburn, a Prussian horse jockey, and others, are fully exposed. We observe the Committee state that "all the facts and testimony point to John Tucker, late Assistant Secretary of War, as the person through whom these gigantic and shameless frauds on the Government were chiefly perpetrated."

The men who have thus swindled the Government, should not only be made to disgorge their ill-gotten gains, but be imprisoned and hung, if such a route is possible. We would have no mercy on corporators who swell their coffers at the expense of a people passing through an unparalleled trial.

"A Big Thing."—The Chronicle, published at Yorktown, Va., speaks as follows of the 172d Reg. P. M., in which are the Union county drafted men:

"It is universally conceded that the One-Hundred-and-Seventy-second P. M. is the biggest regiment in this command. Besides the biggest number of men, it has the biggest colonel, the biggest captain, and the biggest private. The last named is so big that our big Uncle Sam had no clothes that will begin to come over him. We pass him once in a while, and as we look up into the region where his head moves, we are inclined to ask him, 'What kind of weather do you have up there?'"

In the bogus Congress, at Richmond, a resolution was offered by Mr. Sparrow, of Louisiana, tending the free navigation of the Mississippi river and its tributaries to all friendly people living on their borders. The resolution was referred to the Committee on Commerce. Our rans will do more towards freeing navigation than all the Sparrows of Rebellion.

A piece of candle may be made to burn all night, in a sick room, or elsewhere, where a dull light is wanted, by putting fluently powdered salt on the candle until it reaches the black part of the wick. In this way a mild and steady light may be kept through the night, from a small piece of candle.

Ever "since they were boys" Hiram Greeley and Robert J. Walker have been political, and perhaps even personal, foes. The other day, however, in Washington, they met and dined together, forgetting all other altercations in their devotion to the common Union.

The financial bill of the Senate passed the Senate, and is regarded as a very great plan to aid the Government.
