

OUR COUNTRY'S FUTURE.

The pale November sun looks down on fields with battle red, On bayonets' gleam, and sabres' flash, and clanging armies' tread; The chill November wind is hoarse with cries of souls in pain, Borne upward from a thousand homes whose loved come not again.

Our exhortation, therefore, to our friends is—circulate the local papers. If others are mixed in, where it is believed that they would be more acceptable, very well; but no party can be strong, in any country which has not a well-conducted and widely circulated newspaper within its own borders.—Alluvy Journal.

True to the policy of trying to imitate the best Government on earth as far as consistent with their "corner stone," Jeff Davis has sent a message to Congress. It is very blue—confesses the vast losses at Vicksburg and elsewhere—says they have made no progress in foreign countries—demands large taxation—objects to any exemptions from the conscriptions for soldiers—and calls on the people to arouse and meet the shock.

One account is that the Slave Lords contemplate a tax of twelve per cent on the property (not on the income) of all where their armies can collect it, as a means of preventing their paper money from becoming waste material for the rag bag.

"I don't know what you mean by not being an Irishman," said a gentleman who was hiring a boy, "you say you were born in Ireland." "Oh, your honor, if that's all," said the boy, "small blame to that. Suppose your cat was to have kittens in the oven, would they be loaves of bread?"

A distinguished clergyman being requested to open the service with prayer, but not having been invited to preach, declined, saying, that "his friend was going to do the morning, he might what his own sayth."

BUCKEYE ALL RIGHT For the Harvest of 1863! The most approved Agricultural Implements now in the Market! MANUFACTURED BY SLIFER, WALLS, SHRINER & CO., Lewisburg, Pa.

THE unprecedented success of the "Buckeye" is the strongest proof of its superior excellence. THE BUCKEYE has caused a complete Revolution in the Manufacture of REAPING AND MOWING Machines, and its reputation is so well established that it is scarcely necessary to particularize its advantages. We will, however, call the attention of the farmers to a few of its merits.

THE TWO DRIVING WHEELS—the Piston and Springs, by which the machine may be raised or lowered, or cut in or out of the ground as may be desired—the Steel Cutter Bar—the Wrought Iron Guard, with Hardened Steel Face or Cutting Edge—the Double-Hinged Joint, by which the Cutter Bar may be folded—the Long Crank Shaft—the Steel Spring and Wheel, by which the Cutter Bar may be raised or lowered, or cut in or out of the ground as may be desired—the Steel Piston and Brass Box—its Light Draft (No Side Draft)—no weight on the horses' necks—backs as easily as a cart—all of which form a combination of advantages which no other machine possesses.
