A Frightened Darkey. A correspondent of the Baltimore American gives the following :

During a recent visit to Port Royal I had witnessed with considerable interest the operations of the divers employed to clean the bottoms of the Monitors, and perform other operations under the water. The principal diver-appropriately named for five or six hours at a time under water. A man of herculean strength and proportions, when clad in his submarine armor he becomes monstrous in size and appearance. Waters has his own ideas of a joke, and when he has a curious audience will wave his scraper about as " he bobs sround" on the water, with the air of a veritable river god. One of his best jokes -the better for being a fact-occurred last summer.

Whilst he was employed scraping the hull of one of the monitors, a negro from one of the up river plantations came alongside with a boat load of watermelons. Whilst busy selling his melons, the diver came up, and rested himself a the side of the boat. The negro started at the extraordinary apparition thus coming out of the water with alarmed wonder, but when the diver seized one of the best melons in the boat and disappeared under the water, Vourselves. the gargling of the air from the helmet mixed with his muffled laughter, the fright of the negro reached a climax. Hastily seizing his oars, without waiting to be paid for his melons he put off at his best speed, and has not been seen in the vicinity of Stanton Creek since. He can not be tempted beyond the bounds of the MAY be speedily and permanently cured by the use of plantation, and believes that the Yankees Wolcott's Instant Pain Annihilator. have brought river devils to aid them in making war.

His buoyancy is immediately increased, and he pops up like a cork and floats at will upon the surface.

No More Slavery.

The Catholic Telegraph, of Cincinnati, edned by Dr. Purcell, a brother of Bishop Purcell, has done excellent service in the cause of the Union during the great struggle for its maintenance. In a recent number, in referring to the close of the war, the Telegraph speaks as follows :

"People say that the war is drawing to a close ; that a cessation of hostilities is to but we hope too, that these who will have will insist on the total abolition of Slavery. if this be not done, what will we have gained by the war? Allow Slavery to Div Tabe its head again, and our efforts will have been in vain, destroy it root and branch, without mercy, without hesitation. De-

The Secretary of the Treasury

has not yet given notice of any intention to withdraw this popular Loan from sale at par, and, until ten days' notice is given, the undersigned, as "General Subscription Agent," will continue to supply the public.

The whole amount of the loan authorized is Five Hundred Millions of Dollars. Nearly Four Handred Millions have already been subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand, for use as the basis for circulation by National Banking Associations now organizing in all parts of the conn-try, will, in a very abort period, absorb the balance. Sales have lately ranged from ten to fifteen millions weekly, irequently exceed ing three millions daily; and as it is well known that the Secretary of the Treasury has ample and unfailing resources, in the duties on imports and internal revenues, and in the issue of the interest-bearing legal tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to seek a market for any other or permanent Loaus, the interest and princi

of which are payable in gold. Prudence and self interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome pre-

mium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be subscribed for at par. IT it is a six per cent. Loan, the interest and principal payable in coin, (thus yielding over nine per cent. per annum at the present

rate of premium on coin.) The Government requires all duties on imports to be paid in coin ; these duties have for a long time past amounted to over a quarter of a million of dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus coin in the Treasury. at no distant day, will enable the United States to resume specie payments upon all The Loan is called 5 20 from the fact, that,

whilst the bends may run for 20 years, yet the Government has a right to pay them off

in gold, at par, at any time after 5 years. The Interest is paid half-yearly, viz: on the first days of November and May. Subscribers can have Coupon Bonds, which are payable to beater, and are \$50, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition, \$5,000 and \$10,000. For Banking purposes,

and for investments of Trust-monies, the Registered Bonds are preferable. These 5-20's can not be taxed by States, etties, towns, or counties, and the Government tax on them is only one and a half per cent, on the amount of income, when the income of the holder exceeds six hundred dollars per annum. All other investments such as incomes from morigages, railroad stock and bonds, etc., must pay from three

to five per cent. on the income Bank and Bankers throughout the country will continue to dispose of the Bonds; and all orders by mail, or otherwise, promptly

The inconvenience of a few days' delay in the delivery of the Bonds, is unavoidable, the demand heirg so great; bot, as interest com-mences from the day of subscription, no loss is occasioned, and every effort is being made to diminish delay. **JAY COOKE**, SUBSCRIPTION AGENT. Plank, &c.
