Artemas Ward, one of whose peculiarities as a lecturer is that he touches upon almost every conceivable subject except the sul jet of his lecture, is delivering a Jan. lecture on "Ghosts," which he concludes with a capital hit at the Disucionists. "The last subject of which I thought," says Artemas, "was the war. When I Feb. was an apprentice to the printing business, in New Hampshire, having had a controversy with my employer, I ran away. I Mar. had no money, and could not beg, so I called at a farm bouse and asked if they had any clocks to mend. They said yes, and wished I would fix it. I took the April clock to pieces, ate my dinner, and then looked at the table where lay the countless wheels. I knew that I could never out that clock together again. So I told the May. folks that I was dizzy, and would go out and get some fresh air, and I fled across the meadows like the bright-eyed gazelle, or anything else that goes quick. Those politicians who went to work to take the Union clock to pieces to get their dinners, Dever meant to put it together again. They have stolen their dinner, but they New Year's Day-ith July-Thankegiving-Christman will not restore the clock.

CHAIRS .- An eminent physician, speaking of our chairs, remarks that they are too high, and too nearly horizontal. We slide forward, and our spines ache. The sent should be fifteen or sixteen inches Recentile Appraisor - Wn. Romeon, New Berlin high in front for men, and from eight to Surgeon-Connab Success, Perest Hill fourteen inches for children and women. The back part of the seat should be from Anditor-Bearnisa Thomeses, Minnaburg one to three inches lower than the front part. This last is very important. The depth of the seat, from front to back. should be the same as the height. The chair back is likewise upphilosophical. The part which meets the small of the back should project farther forward. Ins'ead of this, at that point there is generally a hollow. This is the cause of much pain and weakness in the small of the back. The present seats produce discomfort, round shoulders, and other distortions. Chair makers should study these matters, and improve by correcting errors.

Morners' Pensions.-By a recent regulation of the Pension Office, many mothers of deceased soldiers are now entitled to pensions, who were not previously. Under the original regulations, a mother was required to prove her matriage, and only widowed mothers were entitled to pensions; while under the present regulations any mother of a deceased efficer or soldier, if she was dependent wholly or in part on her deceased son for support, is entitled to a pension whether her busband be living or not, and it is now unnecessary for a mother to prove her marriage.

In Newark, New Jersey, a member who had formerly large "southern connections," proposed that the church should make Jeff. Davis a life member of the Sabbath School Missionary Society. Even the boys and girls hissed the proposition, whereupon he threatened to throw them out of the window. The "muscular Christian" subsequently spologized through the public prints.

REDUCTIO AD ABSURDUM .- A Richmond paper acknowledges that the rebellion is reduced to this dilcuma : "If the people are fed, the army must suffer; if the army is fed, the people will starve; and if the people starve, what's the use of the army?" Jeff. Davis would ask, what's the use of the people? In any case, what's the use of the Rebellion - Press.

Dr. C. M. Jackson—Dear Sirr. I feel it a pleasure thus, of my own accord, to bear testimony to the excellence of the German Bitters. Some years since being much afflicted with Dyspepsia, I used them with very beneficial results. I have often recommended them to persons enfectled by that termenting disease, and have heard from them the most flattering bestimonials as to its great value. In cases of general debility, I believe it is a tonic that can not be surpassed. John M. LYONS.

I had it due to your excellent preparation, Hostiand's German littlers, to add my testi-mony to the deserved reputation it has obtained. I have for years, at times, been tumbled: with great dis-erder in my head and nervous system. I was advised, by a friend, to try a bottle of your German litters, I did so, and have experienced great and unexpected relief; my health has been materially benefited. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their to my own, and have been assured by many of their good effects. Respectfully yours.
